Founded in 1857, Upper Iowa University is a private, not-for-profit university providing undergraduate and graduate degree programs and leadership development opportunities to approximately 6,600 students—nationally and internationally—at its Fayette campus and learning centers worldwide. Upper Iowa University is a recognized innovator in offering accredited, quality programs through flexible, multiple delivery systems, including online and independent study. For more information, visit www.uiu.edu.

UIU invites you to explore the many opportunities we offer to help you reach your educational goals. We are committed to building a global community which is focused both on academic quality and social responsibility. UIU centers and programs feature:

- Regional and programmatic accreditation
- Quality academic instruction with nationally recruited faculty members who also are successful practitioners in their field
- Experienced and supportive UIU academic advisors and staff dedicated to help learners reach their goals
- Flexible methods of course delivery to fit your life
- All UIU learners have the option to work in one program exclusively or combine our different types of delivery methods to expedite their degree program. All course delivery options are interchangeable.
  - Attend traditional classroom-based undergraduate courses taught by university professors. Evening and weekend classes are available at most centers, and courses begin every eight weeks (see page 15).
  - Online courses are delivered electronically in eight-week terms, with special asynchronous online discussion groups and student-instructor contact throughout your course work (see page 19).
  - Independent Study correspondence courses are specifically designed to make learning as portable as possible. Your course work is delivered to you via mail or email and you work at your own pace, on your own schedule (see page 17).
  - Graduate Programs are delivered online and in traditional classrooms. A variety of emphasis areas are available for MBA, MHEA and MPA degrees (see page 73).
- There is no campus residency requirement for our distance learning programs

This catalog/handbook will guide you through the Upper Iowa University Academic Extension degrees, programs, courses, and policies. We invite you to visit us to speak with an advisor, or visit us at www.uiu.edu to see how UIU can help you reach your educational goals. Thank you for choosing Upper Iowa University!
Our MISSION

Upper Iowa University provides student-centered undergraduate and graduate educational programs through flexible, multiple delivery systems in an environment in which diversity is respected, encouraged and nurtured.

Our VISION

Upper Iowa University will be recognized and respected as an exceptional and ascending institution of higher learning, developing global citizens who become lifelong learners prepared for leadership within society.

Our DIVERSITY

Upper Iowa University is committed to promoting diversity by embracing, enhancing and celebrating diversity at all levels of the University and the surrounding communities.

Upper Iowa University defines diversity beyond race and disability, embraces one’s culture, ethnicity, gender, sexual orientation, nationality, religion and variety of thought.

Upper Iowa University seeks to attract and serve a diverse group of employees and students by developing and communicating a collective and inclusive understanding of diversity and its value.

Upper Iowa University recognizes that diversity is fundamental to the quality and excellence of the faculty, staff, and student body of any institution of higher learning and is an important factor in helping students with their college selection and overall educational experience.
The history of Upper Iowa University is the foundation of our traditions and values. Here are some of the highlights:

1854 — Elizabeth Alexander, a pioneer woman living near what is now Fayette, proposes the idea of a college. Her husband, Robert Alexander, donates $10,000; a son-in-law, Samuel Robertson, donates $5,000 and 10 acres of land.

1855 — Construction begins on what has come to be known as Alexander-Dickman Hall. It is built of native limestone blocks and houses classrooms, administrative offices, the president’s quarters, and student rooms.

1856 — The first Board of Trustees meeting is held, and articles of incorporation are adopted.

January 7, 1857 — Classes begin in what is called the “Fayette Seminary of the Upper Iowa Conference,” which is affiliated with the Methodist Church.

July 15, 1858 — The name of the institution is changed to “Upper Iowa University.”

1861 — A company of male students and faculty members enlists in the Army and goes off to fight in the Civil War. The student-soldiers participate in 17 major battles, carrying a flag hand-sewn by UIU women. The women students and their professors carry on with their studies and welcome back those who are able to return.

1861 — David B. Henderson, who will later become the first Speaker of the U.S. House of Representatives from west of the Mississippi, leaves Upper Iowa University to fight in the Civil War.

1862 — The first commencement ceremony for baccalaureate degrees is held on June 26 in J.E. Robertson Grove.

1865 — For the first time, there are women graduates in the May commencement exercises.

1879 — Susan Angeline Collins is the first African-American to become a student on campus; she later becomes a missionary in Africa.

1880 — The “tow’ring white pine trees” featured in the University’s alma mater are planted.

1882 — George Safford Parker, founder of the Parker Pen Company, is a student.

1883 — The first issue of the campus newspaper, The Collegian, appears. Student John R. Mott goes on to become a leader of the YMCA movement and shares the Nobel Peace Prize in 1946 for his work with prisoners of war.

1885 — Men’s and women’s residence halls are constructed on campus. Later on, an observatory is constructed and equipped with a telescope.

1890 — An auditorium building is constructed. The students choose peacock blue and white as official UIU colors. The peacock soon becomes the unofficial school mascot. The peacock becomes the official mascot in 1920 when The Collegian begins using “peacocks” as the name for UIU athletics teams.

1892 — The first gymnasium is constructed on campus. Milo Maltbie, future world-renowned economist and leader in the administration and regulation of public utilities, graduates.

1893 — The first football team is organized, with 14 men reporting for the squad. The team plays three games the first season: one win, one loss, one tie.
HISTORY

The first classes at the University were held January 7, 1857.

1895 — Electricity comes to the campus.
1896 — Carleton Magee graduates; he patents the first parking meter and plays an important role in bringing to light the Teapot Dome Scandal of the 1920s.
1900 — Andrew Carnegie gives the University $25,000 to build a library, honoring David B. Henderson, his friend. John “Doc” Dorman graduates. Doc establishes a dental practice in Fayette and in 1907 becomes football coach at Upper Iowa, a position he will hold for over 50 years. (Doc set the record for having coached football at one college longer than any other person in the United States, and was elected to the Coaches’ Hall of Fame.)
1902 — The David B. Henderson Library is completed.
1908 — The tradition of “Passing of the Gown” is instituted in which the outgoing president of the senior class presents a graduation gown to the president of the incoming senior class. The gown is on display in the Henderson-Wilder Library.
1909 — A memorial arch, marking the west entrance to the campus, is presented to the University by the graduating class.
1910-1913 — Famous alumni of the University receive their diplomas: John C. Baker, inventor of enriched flour and Desenex skin care products, among others (he had 50 patents for inventions); Dr. Arlie V. Bock, called “the founding father of sports medicine” because of his research into the physiological effects of exercise; Dr. William Albright, instrumental in the deciphering, describing, and dating of the Dead Sea Scrolls; and Zinita B. Graf, noted stage actress.
1915 — The Alumnus magazine is begun, keeping alumni informed of campus doings and news of their fellow classmates. The first yearbook, The Peacock, is published.
1917 — The United States enters World War I; the gym becomes a barracks, and the athletic field is the scene of military drills. Many male students enlist, and women students organize Red Cross classes.
1920 — A systematic program of extension work throughout northeastern Iowa is begun, with Upper Iowa referred to as “a pioneer in the field.” The old gym and observatory are torn down, and a new gym built with an indoor swimming pool.
1924 — Upper Iowa University is a charter member of the Iowa Intercollegiate Athletic Association and wins the football championship.
1928 — The University separates from the Methodist Church, which had helped to maintain and support it, and becomes an independent institution. The curriculum is broadened, and academic advisors are assigned to students to provide personalized education.
1934 — A new science hall is constructed.
1935 — A watershed student self-help project is instituted: a broom factory that employs many students and gives instruction in the techniques of manufacturing and marketing.
1941 — Many students enter the military to serve in World War II.
1947-1950 — Enrollments increase dramatically as veterans take advantage of the G.I. Bill to complete their education. Extensive improvements and readjustments take place on campus. William (Bill) Andres and William Hiller graduate; both become CEOs of Fortune 500 companies.
1951-Present — Upper Iowa is continuously accredited by the North Central Association of Colleges and Schools.
1952-1970 — Enrollments increase again, and many new buildings are constructed: Zinita B. Graf Hall for women, Colgrove-Walker Hall (with auditorium), Garbee Residence Hall, Maltbie-McCosh Hall (men’s residence hall), Baker-Hebron Hall, a bookstore building, an addition to the library, and the Dorman Memorial Gymnasium.
1972 — Upper Iowa launches an external degree program, one of the first (and most successful) in the United States.
1974-1984 — As returning Vietnam veterans graduate and Iowa’s population of young people decreases, enrollments decline.
1984-1994 — The systematic establishment of learning centers is begun: in Des Moines (Iowa) and Madison (Wisconsin) in 1984; in Waterloo (Iowa) in 1985; in Prairie du Chien (Wisconsin) in 1988; in Manchester (Iowa) in 1991; and at Fort Riley (Kansas) and in Milwaukee and Wausau (Wisconsin) in 1992. The University’s administrative structure is reorganized, and a new mission statement is adopted. In accordance with mission goals, academic programs are strengthened with new faculty and equipment, and student life is enhanced with new facilities and increased operating budgets. As a result of these changes, enrollments quadruple. A master landscaping plan for the Fayette campus is developed and approved by the Board of Trustees, and...
Construction of the first building for the new college was started in May 1855. This building (now Alexander-Dickman Hall) eventually housed the college president's quarters, administrative offices, classrooms, and a coed dormitory in its three floors.

NOTICE: This catalog contains information regarding fees, curricula, and related policies and procedures. Every effort has been made to make the catalog accurate as of the day of publication. However, Upper Iowa University reserves the right to change policies or revise the information contained in this catalog. All such changes will be effective at the time deemed appropriate by the proper institutional authorities and may apply to enrolled as well as prospective learners.
Expectations for Student Learning
Upper Iowa University has in place a Student Academic Assessment Plan. Through this assessment plan, continual evaluation of curriculum will occur to ensure excellence in teaching and effective learning. The faculty at Upper Iowa University has determined the following competencies to be essential in the general education component: critical thinking and problem solving, communication, quantitative/scientific reasoning, effective use of information technology, analysis of the implications of global and national diversity, evaluation of the importance of social responsibility, and appreciation of the role of the humanities for the interpretation of human experience.

The approach to general education assessment at Upper Iowa University represents a departure from traditional strategies focused on teaching and instead focuses on student-centered learning strategies that integrate critical thinking, problem solving and respect for intellectual property in all aspects of the learning experience. As part of the overall Academic Quality Improvement Program, Upper Iowa University seeks to continuously reflect on its vision to develop global citizens who become lifelong learners prepared for leadership.

To this end, the faculty has identified a number of tasks students will accomplish as they successfully complete their course work on their way through the general education curriculum. In completing the tasks, students will pass through a regimen of coursework designed to provide a consistent educational experience, yet one flexible enough to be contoured to individual interests and needs. Each course in the General Education has its own vital goals and outcomes, as determined by its instructor and articulated on its individual syllabus. The following tasks are related to particular skills students will have developed in order to manipulate learned materials in defined ways, coherently across the University. The tasks are spread across a variety of disciplines common to liberal arts colleges and universities in the 21st century: Natural Sciences, History, Arts and Humanities, Mathematics, Information Systems, Behavioral Sciences, Communications, and Cultural Studies. These tasks are not to be construed as goals in and of themselves, and the courses in which they are addressed are by no means limited in their breadth and scope to the accomplishment of the specified tasks. Rather, the completion of the tasks may be regarded as milestones for students to pass as they approach the goal of a bachelor’s degree in light of Upper Iowa University’s mission as a liberal arts institution.

Students may expect to complete 39 semester hours of General Education coursework as they accomplish the tasks.

Some course requirements may be waived for students who are able to demonstrate prior achievement of course outcomes either by transfer credit or by scoring at the 85th percentile on the appropriate section of the Accuplacer examination. Requirements may vary for students enrolled in the Teacher Education Program.

The University faculty determines which specific courses will include the completion and assessment of the various tasks. The Division of Science and Mathematics will recommend to the faculty whether a course offered anywhere within the University is suitable for housing of the natural science and mathematics tasks; the Division of Liberal Arts and Humanities makes similar recommendations regarding the history, humanities, cultures, social science and communications tasks. The Division of Business recommends those courses which are suitable for the MIS task. In addition, faculty in each of these divisions is responsible for review and assessment of artifacts submitted anywhere in the University as evidence of task completion.

UIU utilizes LiveText, a web-based assessment management system, and is requiring its use for coursework that provides evidence of meeting rigorous state, regional, and federal requirements. University accreditation is important as academic communities, employers, and other constituents recognize it as evidence of quality which enhances the prestige of the institution, and consequently the value of the degree you will earn. It will be used in general education courses, for portfolio development, and several other university initiatives. UIU provides a five-year membership to LiveText to undergraduate students.

Accreditation
The University is accredited by the Higher Learning Commission and is a member of the North Central Association (www.ncahigheredlearningscommission.org) and is approved by the Louisiana Higher Education Board, the Wisconsin Educational Approval Board, the Iowa Department of Education (for teacher education in Iowa only), Oklahoma State Regents for Higher Education, California Bureau for Private Postsecondary Education, and the Arizona Board for Private Postsecondary Education. The programs offered are approved by the states of Illinois (restricted), Iowa, Kansas (restricted), Louisiana, Oklahoma, and Wisconsin for veterans’ benefits.

Upper Iowa University is registered as a private institution with the Minnesota Office of Higher Education pursuant to sections 136A.61 and 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

Upper Iowa University is currently licensed by the Board of Regents of the State of Louisiana. Licenses are renewed by the State Board of Regents every two years. Licensed institutions have met minimal operational standards set forth by the state, but licensure does not constitute accreditation, guarantee the transferability of credit, nor signify that programs are certifiable by any professional agency or organization.

Upper Iowa University has been granted authority to operate and grant degrees in the Fox Valley Region by the Illinois Board of Higher Education.

Upper Iowa University has a membership in the National Association of Schools of Public Affairs and Administration (NASPAA).

Upper Iowa University is a nonprofit organization founded in 1857. It has no shareholders or private ownership but is controlled by a board of trustees.

UPPER IOWA UNIVERSITY
Applying for Admission

UIU’s Academic Extension offers classes through a variety of delivery methods including: standard classroom, paper/email-based distance learning, online and hybrid.

Requirements for Admission

To apply for admission, the minimum requirement is graduation from a regionally accredited and/or state recognized accredited public or private high school, or completion of a GED equivalent. Upper Iowa University reserves the right to refuse admission to anyone who does not meet its standards for admission.

The Academic Extension accepts learners on a continuous enrollment basis, which means you can be admitted to the program at any time during the year.

Admission Procedures

Make arrangements to have the following documents sent directly to Upper Iowa University:

1. A completed Application for Admission and application fee. Apply online at www.uiu.edu (click on apply) to waive the application fee.
2. Official transcripts from each college and university you previously attended. Official transcripts documenting experiential learning (for example, CLEP or DSST score reports) may also be submitted. Official transcripts must be sent directly from the granting institution. They must not pass through your hands.
3. A copy of your high school diploma or transcript (or GED) if you have earned college credit, or an official high school transcript if you have not previously earned college credit.
4. Veterans – an application for veterans’ benefits or change of place of training form and a copy of the DD214.
5. Active duty military and reservists – an official copy of DD295, AARTS, CCAF, or SMART transcript.
6. Teachers seeking additional endorsements - copy of your current teaching license (for Iowa only).
   Until a learner submits all required admissions documentation, they are considered a non-degree seeking learner. A non-degree seeking learner is not eligible for financial aid, is limited to no more than 30 credits at UIU, and may not have a degree conferred.
7. To be considered for admission, international students and non-English speaking students must validate they have met Upper Iowa University’s proficiency in English requirement in one of the ways listed on page 10. The learner will be notified in writing of the approval or denial of admission. Application materials and transcripts will be kept on file for one year. If you do not complete the admission process and enroll within that year, you may be required to resubmit materials.

Students are allowed up to 30 credit hours to complete their admission file as long as Terms of Payment are met.

Experiential Learning documentation should be submitted only after an initial evaluation is completed, upon registering for at least one course through UIU, and after discussion of your individual degree plan with your academic advisor.

International Student Admission

International Students - International Centers
Refer to page 21 for admission information.

International Students – U.S. Center Programs/Center for Distance Education
Upper Iowa University is authorized under federal law to enroll nonimmigrant students. For additional information contact the Office of International Programs. International student applicants must submit the following documents directly to the U.S. center or Center for Distance Education (CDE) in order to complete the international student admission process. Enrollment in independent study or online courses does not qualify foreign learners for an F-1 visa because these programs can be completed from anywhere in the world.

1. A completed Application for Admission and application fee. Apply online at www.uiu.edu (click on apply) to waive the application fee.
2. Official transcripts from each college and university previously attended. Official transcripts must be evaluated by a certified evaluator at the learner’s expense. This evaluation must be sent directly to Upper Iowa University. Contact your academic advisor to discuss the type of evaluation most useful to you.
3. Certified True Copy (CTC) of the certificate verifying credit earned through postsecondary public examination (i.e. A-Level, STPM, etc)
4. A CTC of the credential verifying completion of secondary education if you have earned college credit, or an official secondary education transcript if you have not previously earned college credit.
5. A notarized statement (no more than six months old) from a financial institution that states that you have adequate resources to meet all required expenses such as the first year’s tuition and living expenses. Prior to the issuance of an I-20, a deposit covering three terms of the first year’s tuition must be made to the University. The amount required for adequate resources and for the deposit varies by location. Please see your advisor for more details. Applicants for online and independent study programs are not required to submit a financial statement.
6. A copy of your valid passport, visa(s), any previous immigration documents (i.e. I-20, DS-2019), and I-94 documents must be presented if you are presently in the United States.
7. Verification of English language proficiency requirements. See next page.
Name and Address Change
It is your responsibility to notify your program in writing of a name change. Address changes may be submitted in writing or through myUIU.

Non-Matriculated Student Policy
Students may take classes at Upper Iowa University without being accepted in a degree-seeking program. Their official status is “non-matriculated” -- a traditional academic term meaning not enrolled in a degree program. All non-matriculated students will be required to complete an information update form.

If a non-matriculated student decides to pursue a degree program, he/she will be required to go through the regular admissions process. Students who register as non-matriculated students in a given semester/term may not matriculate until the following semester/term.

Learners interested in a certificate program please see page 51.

English Proficiency Requirements
To be considered for admission, international students are required to provide evidence of a sufficient level of English proficiency. Validation of Upper Iowa University’s English proficiency requirement is met in one of the following ways:

Test scores must be within the last two calendar years.

*Michigan English Language Assessment Battery
**Malaysian University English Test

UIU will also consider the following evidence to meet the requirement of English proficiency:

- Official transcripts validating completion of secondary education from a U.S. high school or GED equivalent.
- Official transcripts validating a minimum of two years of instruction at the secondary education level in a country where the official language is English or an English language international school.
- Official transcripts from a two-year minimum combination of secondary and post-secondary education in a country where the official language is English.
- Official transcripts showing 24 or more successfully completed college-level semester credits* from a regionally accredited college or university where the official language is English and English is the language of instruction. Cumulative GPA of at least 2.0 is required.
- Completion of Upper Iowa University’s English as a Second Language (ESL) program

*Non-degree awarding credits (i.e. ESL, Foundations, or deemed equivalent credits) will not be considered to meet this requirement.

Upper Iowa University reserves the right to exempt specific groups of learners based on evaluation and articulation with specific educational institutions as approved by the Chief Academic Officer.

Transferring Credits to UIU

Transfer Credit
If you are a transfer student, you may expect to receive full credit for college-level courses completed at other collegiate institutions accredited by any of the following regional accrediting associations:

- Middle States Association of Colleges and Schools
- New England Association of Schools and Colleges
- Higher Learning Commission of the North Central Association of Colleges and Schools
- Northwest Association of Schools and Colleges
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges

Upper Iowa University will also consider acceptance of course work in transfer from:

- Institutions with specialty accreditation as reviewed and approved by Upper Iowa University.
- International institutions that are approved/registered by their country’s Ministry of Education or other national educational governing body as reviewed and approved by Upper Iowa University.
- International institutions where transcripts for individual learners are reviewed and evaluated by an approved foreign credential evaluators service and approved by Upper Iowa University.
Course work completed at all other institutions will not be accepted in transfer to Upper Iowa University.

Course work completed with formal Upper Iowa University Articulation Partnership Advantage institutions will be transferred following articulation guidelines. Course work from other accredited institutions will be transferred to meet particular degree requirements based on full-time faculty recommendations.

Grades earned in courses accepted for transfer will appear on your Upper Iowa University transcript, and the credits earned will count toward your total number required for graduation. However, grade points earned at another institution are not transferred and are not figured into your cumulative grade point average (GPA) maintained at Upper Iowa University, but are included in calculating the major/endorsement GPA.

Upper Iowa University may transfer up to 78 lower division college semester credits from accredited institutions.

These 78 semester credits may include:
1. No more than nine semester credits from Health, Physical Education and Recreation (HPER) activity courses, including transcripted intercollegiate athletics.
2. No credits from courses identified by Upper Iowa University as remedial or developmental level (except for articulated ESL credits from partner institutions).
3. No more than 30 semester credits from one year occupational diploma programs.

Upper Iowa University may transfer an additional 12 semester credits, identified by the transfer institution as upper division credit, to a transfer maximum of 90 semester credits.

Up to 78 lower division semester credits and 12 upper division semester credits evaluated by the American Council on Education (ACE) and semester credits earned through CLEP, DSST, Excelsior College and ACT-PEP examinations will transfer to Upper Iowa University.

Transfer grades lower than a C- will not be accepted.

Since ID 301 — Critical Thinking and ID 498 — Senior Project are components in the Upper Iowa University assessment strategy, transfer work will not be accepted to fulfill these requirements.

Experiential Learning Credit

Upper Iowa University recognizes that learners in higher education come with many experiences and from varied backgrounds. Learning experiences gained through training programs and academies may be reviewed and evaluated for academic credit.

ACE Approved Credit

Many training programs have been approved for credit by the American Council on Education (ACE). Check with your academic advisor to see if completed training has been evaluated by ACE. There is no charge for transcripting ACE recommended credit. Credits earned through ACE do not reduce the minimum required 30 semester credits of course work through Upper Iowa University for graduation. Credits earned through ACE do not apply to the 60 graded credits needed to graduate with Magna or Summa Cum Laude honors.

Credit by Examination

Learners may earn credit through CLEP/DSST/Excelsior College and/or ACT-PEP examinations. There is a minimal testing fee. Credit by examination is transcripted without charge when the learner’s score is at the level recommended by ACE for credit. These exams are accepted to fulfill requirements in very specific ways. See your academic advisor before taking any credit-bearing exams to ascertain the appropriate exam for your degree plan.

Credits earned by examination do not reduce the minimum required 30 semester credits of course work through Upper Iowa University for graduation. Credits earned by examination do not apply to the 60 graded credits needed to graduate with Magna or Summa Cum Laude honors.
Experiential Learning Portfolio Credit

A portfolio process has been developed to determine learners’ achievements and demonstrated learning outcomes. Learners can earn up to 30 semester credits for prior learning experience. Contact your academic advisor for information on the guidelines and procedures.

Experiential learning credit granted by another institution is accepted only if it is a part of a degree earned and transferred to UIU. Similarly, credit granted by UIU for experiential learning may not transfer to other institutions.

Because the documentation process required of you is extensive, and since the evaluation of this documentation by UIU staff demands considerable time, you must be accepted for admission and registered for at least one course through Upper Iowa University before you may apply for experiential learning credit.

Experiential learning portfolio credits do not reduce the minimum required 30 semester credits of course work through Upper Iowa University for a bachelor’s degree. Experiential learning credits do not apply to the 60 graded credits needed to graduate with Magna or Summa Cum Laude honors. Experiential learning credit, awarded as upper division credit, may be used to satisfy the upper division credit requirement for graduation. Education course credits may not be earned through Experiential Learning.

Fees for experiential learning credit granted are assessed at $60 per semester credit. See your academic advisor for more information. All fees are due within 90 days of assessment, and before credit will be recorded on your transcript. An official transcript will be issued only after you complete a course with Upper Iowa University.

Law Enforcement and Fire Science Credit

Learners who have successfully completed law enforcement or fire science training may submit documentation to Upper Iowa University for evaluation. There is a one-time evaluation fee of $200 paid at the time of submission. The documentation will be evaluated for credit and applied to the UIU transcript. Consult your academic advisor for further information. A maximum of 30 semester credits can be earned through a combination of portfolio and law enforcement/fire science credits.

Credits earned for law enforcement and/or fire science training do not reduce the minimum required 30 semester credits of course work through Upper Iowa University for graduation. Credits earned through law enforcement or fire science do not apply to the 60 graded credits needed to graduate with Magna or Summa Cum Laude honors.

Military Credit

Credit for military and other formal training with recommendations by the ACE guidelines will be transcripted at no charge. Training completed may be verified by an official AARTS, CCAF, or SMART transcript, DD214, DD295, or copies of certificates; a portfolio is not required. Up to 78 lower division semester credits and an additional 12 upper division semester ACE-evaluated military credits may be transferred for a maximum of 90 semester credits toward the 120 semester credits required for graduation. ACE-recommended military credits do not reduce the minimum required 30 semester credits of course work through Upper Iowa University for a bachelor’s degree.

Credits earned through military training do not apply to the 60 graded credits needed to graduate with Magna or Summa Cum Laude honors. Because of Upper Iowa University’s support for military students, it has been named an honoree of Military Advanced Education’s Top Military-Friendly Colleges and Universities and GI Jobs Military Friendly Schools consecutively since 2008.

Servicemembers Opportunity Colleges (SOC): Upper Iowa University is a member of the Servicemembers Opportunity Colleges (SOC) Consortium and the SOC Degree Network System.

SOC Consortium

Servicemembers Opportunity Colleges (SOC), established in 1972, is a consortium of national higher education associations and more than 1,900 institutional members. SOC Consortium institutional members subscribe to principles and criteria to ensure that quality academic programs are available to military students, their family members, civilian employees of the Department of Defense (DoD) and Coast Guard, and veterans.

A list of current SOC Consortium member institutions can be found on the SOC web site at http://www.soc.aascu.org/.

SOC Degree Network System

The SOC Degree Network System (DNS) consists of a subset of SOC Consortium member institutions selected by the military services to deliver specific associate and bachelor degree programs to servicemembers and their families. Institutional members of the SOC DNS agree to special requirements and obligations that provide military students, their spouses and college-age children with opportunities to complete college degrees without suffering loss of academic credit due to changes of duty station.

SOC operates the two and four year Degree Network System for the Army (SOCAD), National Guard (SOCGUARD), Navy (SOCNAV), Marine Corps (SCOMAR), and Coast Guard (SOC-COAST). Refer to the SOC Degree Network System-2 and -4 Handbooks to view associate and bachelor degree programs, location offerings, and college information. An electronic version of the Handbook is posted on the SOC Web site, http://www.soc.aascu.org, on the SOCAD, SOCGUARD, SOCNAV, SOCMAR, and SOCCOAST home pages.
Army: Upper Iowa University is a Letter of Instruction (LOI) Member Institution in GoArmyEd. GoArmyEd is the virtual gateway for active duty and USAR soldiers to request Tuition Assistance (TA) online anytime for classroom and distance learning college courses. As a member institution, there are no up-front, out-of-pocket expenses for the soldier when enrolling in Upper Iowa University classes as long as his/her TA allowance has not been exceeded.

Navy: Upper Iowa University is a partner institution in the Navy College Program Distance Learning Partnership (NCPDLP). The Navy College Program (NCP) has developed partnerships with colleges and universities to offer rating relevant degrees via distance learning to sailors everywhere. Upper Iowa University provides associate and bachelor degree programs relevant to each rating, and makes maximum use of military professional training and experience based on the SMART transcript to fulfill degree requirements. The program provides opportunities to take courses through distance learning so that sailors anywhere will be able to pursue a degree.

Coast Guard: Upper Iowa University is partner university with the Coast Guard Institute. The staff at the Institute will evaluate your Coast Guard transcript and build a personalized college degree plan by consolidating your earned credit from your military training, college level testing programs, independent study courses and other college courses. Once your assessment is complete, your credit will be merged into college degree plans that are tailored to meet your educational goals. All associate of arts and bachelor of science majors offered through UIU are part of the degree plan assessments available at the institute. You can view the rating roadmaps on the website at http://www.uscg.mil/hq/CGI/ve/roadmaps/roadmaps.asp.

Army National Guard: Upper Iowa University is a partner university of the Army National Guard Education Support Center. The staff at the ESC will evaluate your AARTS transcript and build a personalized college degree plan by consolidating your earned credit from your military training, college level testing programs, independent study courses and other college courses. Once your assessment is complete, your credit will be merged into college degree plans that are tailored to meet your educational goals. All associate of arts and bachelor of science majors offered through UIU are part of the degree plan assessments available at the support center. Beginning October 1, 2011, National Guard students will enroll through the GoArmyEd portal at www.goarmyed.com.

Army Reserves: Upper Iowa University will evaluate your military training as posted on the AARTS transcript and build a personalized college degree plan. All students who plan to request tuition assistance through the Army Reserves must use the GoArmyEd portal at www.goarmyed.com.

Air Force: Upper Iowa University recognizes the work you have completed in the Community College of the Air Force and currently has an articulation agreement based on those courses. As a registered institution in the AU-ABC (Air University Associate-to-Baccalaureate Cooperative), we treat your CCAF transcript just as we would any community college transcript and will apply all appropriate coursework toward your bachelor’s degree. The AU-ABC is an initiative between the Air Force and civilian higher education institutions to offer baccalaureate degree opportunities to every Air Force enlisted member. The program directs airmen with associate in applied science degrees to a collection of accredited “military friendly” colleges and universities to consider when completing a four-year degree. Airmen enroll in classes and request tuition assistance in the Air Force’s Virtual Education Center.

Marine Corps: As with the other services, Upper Iowa University will evaluate your military training as posted on the SMART transcript and build a personalized college degree plan by consolidating your earned credit from your military training, college level testing programs, independent study courses and other college courses.

Military Spouse Program: With congressional authorization in Public Law 110-417, the Department of Defense implemented the Military Spouse Career Advancement Account Program, providing resources and assistance to spouses of active duty services members, Guard and Reserve with a spouse on orders for one year, supporting their pursuit of a successful, long-term, portable career. This centralized, virtual program, accessed through Military OneSource, provides counseling and funding, up to $6,000, to assist with licensure, certification or education opportunities leading to portable employment opportunities.
Undergraduate Program – Cost to Attend

| Tuition per undergraduate semester credit for U.S. IA/WI/IL on-site courses, due in full the first night of class | $365* |
| Tuition per undergraduate semester credit for U.S. Alexandria on-site courses, due in full the first night of class | $242* |
| Tuition per undergraduate semester credit for U.S. DeRidder on-site courses, due in full the first night of class | $218* |
| Tuition per undergraduate semester credit for U.S. Online Program courses, due in full the first day of term | $365 |
| Tuition per undergraduate semester credit for Independent Study Program courses, due in full upon registration | $296 |
| Tuition per undergraduate semester credit course for International Center Program courses | Varies by Center |
| U.S. graduate level tuition per semester credit is due in full the first night of class | $436 |
| Application fee for the U.S. Center, Independent Study, and U.S. Online Programs (nonrefundable) | $50 |
| Application fee for the International Center Programs (nonrefundable) | Varies by Center |
| Audit fee, per semester credit | $95 |
| not available in the U.S. Online Program or International Programs Technology use fee, per semester credit enrolled | Varies by Center/Program |
| Experiential Learning Portfolio assessment fee (nonrefundable), applicable toward semester credit charge if credit for experiential learning is awarded | $60 |
| Experiential learning credit, per semester credit, payable within 90 days of the granting of this credit (nonrefundable) | $60 |
| Extra-institutional Evaluation (per evaluation) for Law Enforcement, Fire Science, Cosmetology, Massage Therapy, Emergency and Disaster Management, Health Services Administration, and Corporate Training | $200 |
| Internship liability insurance, one time fee for PSY 403 only | $20 |
| Transcripting credit as recommended by ACE guidelines, including PEP, DSST and CLEP | No Charge |
| DSST administrative fee | $20 |
| (plus the cost of exam) Student teaching fee (education majors only), per week of student teaching | $10 |
| Transcripts, per paper copy | $5 |
| Transcripts, per copy faxed | $8 |
| Transcripts, per copy faxed and mailed (written request must be made to Registrar's Office) | $13 |
| Certificate Claim fee | $30 |
| payable at time of application for certificate Graduation fee (Domestic), payable at time of application for graduation | $65 |
| Graduation fee for International Centers vary. See local fee schedule. Independent Study Program extension fee, one six-month extension | $50 |
| Independent Study Program administrative withdrawal fee | $93 |

* Learners at military installations should contact their center director for tuition rates. Learners receiving financial aid will be required to pay, at the time of registration (all programs) or the first day of the term (Center and Online Programs), any difference between total expenses and the aid. Expenses may be charged to VISA, Discover or MasterCard, or may be paid by personal check or money order. Student refunds will be processed the 10th calendar day of each term if a student has completed all requirements for registration, financial aid, and attendance validation per the course catalog. Books or instructional materials are generally required with each course. Some courses may require additional fees. Book and supply costs are estimated at $100-$200 per undergraduate course.

All fees listed in catalog are in U.S. Dollars.
Release of Transcript and Diploma

A learner’s diploma, transcript, or letter of recommendation will not be released until all financial obligations are satisfied in full. A learner with outstanding fees will not be allowed to enroll in a subsequent course until all outstanding fees are paid.

Method of Payment

Upper Iowa University has no provision for delayed or time payment except through purchase order arrangements by employers for their own employees. Payment for all courses must be made in U.S. dollars in advance and in full by check or money order drawn from a U.S. bank (payable to Upper Iowa University) or may be charged to your MasterCard, Discover or VISA. Include your account number, expiration date and signature on the registration form. Options for International Center Program students vary by country. Check with local center staff.

Financial Aid

Current financial aid information is available at the Upper Iowa University webpage http://uiu.edu/admissions/financialaid/index.html. If you have any further questions regarding financial aid, please contact your program office or the Financial Aid office, 800-553-4150, Ext 3, or write to: Financial Aid Office, Upper Iowa University, PO Box 1859, Fayette, IA 52142 or email: financialaid@uiu.edu. Any questions about billing should be directed to your program office.

U.S. Center Program Information

Programs, Majors and Courses

The programs, majors and courses available at each center are accessible on the UIU web page at www.uiu.edu under the location and distance education section or by contacting the center.

Center Program Registration

- New learners must register at the center.
- Currently enrolled learners must register through myUIU.

Registration begins approximately six weeks before the start of each term. You are strongly encouraged to register early. Classroom capacity may limit the size of classes. If enrollments dictate and there is lead time to make the necessary arrangements, a second section of a course may be added. Without adequate lead time, courses may close when enrollment reaches classroom capacity.

All Upper Iowa University students register through myUIU, Upper Iowa University’s online portal. Access to myUIU is on the University website at www.uiu.edu. Step-by-step instructions for course registration are listed on the student tab and also found under the student handouts portlet. All students are issued a username and password through their center/program after their first Upper Iowa University registration.

Tuition and any course-related fees are due at the time of registration or by the first night of class. Active-duty Army, US Army Reserve, and Army National Guard personnel must register through the GoArmyEd portal. For all other military personnel receiving tuition assistance, a voucher approved by Upper Iowa University must accompany any portion of the payment for which you are responsible. Contact your Center Program office for more details.

Term Dates and Program Information

Center specific term dates, programs and majors offered are available at each center or on the UIU web page at www.uiu.edu under the locations and distance education section.

Auditing Center Program Courses

By advance permission of the program/center director or academic advisor, you may enroll for courses on an audit basis. As an auditor, you will not be required to take examinations, and you will earn no college credit. A special tuition fee of $95 per semester credit is charged (see page 14).

Note: Financial aid is not available for auditors.

Changes in Center Program Registration

Note the following policies for changing your registration:

1. You may not add a course after the registration period has ended.
2. If you wish to withdraw from a course, you must complete a Course Withdrawal Card (contact your center office) prior to the close of business the last day classes meet of the fifth week of the term. Failure to attend class does not constitute withdrawal. Learners who register for a course and fail to attend it will be assigned a grade of NA unless a withdrawal form is completed prior to the first day of the course.
3. Courses registered as audit cannot be converted to credit-bearing courses after the last date to add. Courses registered as credit-bearing cannot be converted to audit after the last date to add.

Center Program Refund Policy and Course Withdrawal

Withdrawing from classes is an expensive decision. Tuition will be adjusted based on the percentages listed below for the weeks completed in the eight-week enrollment period. If the course meets on an alternative schedule consult your center for refund schedule.

<table>
<thead>
<tr>
<th>Refund Percentage</th>
<th>Withdrawal before the first class meeting</th>
<th>Withdrawal during week one</th>
<th>Withdrawal during week two</th>
<th>Withdrawal during week three</th>
<th>Withdrawal during week four</th>
<th>Withdrawal after week four</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>100%</td>
<td>75%</td>
<td>50%</td>
<td>25%</td>
<td>25%</td>
<td>0%</td>
</tr>
</tbody>
</table>

These percentages will also be used to determine eligibility for state aid you may have received. Examples of refund calculations are available in the Financial Aid Office.
For students attending Wisconsin centers, state laws apply.

Course withdrawal may change the amount of, or eligibility to receive, financial aid. A financial aid counselor is available to discuss this decision with you.

Upper Iowa University is required to use a statutory schedule to determine the amount of Title IV aid that you have earned when you cease attendance based on the period of enrollment. Up through the 60 percent point in each period of enrollment, a pro rata schedule, based on number of days in attendance divided by number of days in the payment period, will be used to determine the amount of Title IV aid you have earned at the time of withdrawal.

Withdrawing from a course in progress may result in significant student account charges. Consulting with your center office before withdrawing is encouraged.

Validation of Enrollment
Registration for each course must be validated by attending at least one of the first three class sessions. A class session equals 2.25 hours or 2.75 hours for education courses. For classes meeting twice per week, you must attend the first, second or third session. For classes meeting once per week, you must attend either the first week or the second week. Failure to validate enrollment when courses begin will result in a grade of NA (never attended) and removal from the course.

Administrative Withdrawal
During weeks one through six of the term if your consecutive absences exceed the number of class meetings per week, three absences for classes meeting twice per week or two absences for classes meeting once per week, the center director will initiate the administrative withdrawal procedure and the staff will contact you. In the absence of extenuating circumstances, a grade of AW will be recorded and you will be removed from the class.

A learner enrolled in the Senior Project who does not submit the rough draft of the project to the instructor by the end of week 5 will be withdrawn from the course and a grade of AW will be recorded.

Administrative withdrawal will affect financial aid funding.

Excused Absences/Leaves of Absence
In accordance with #34CFR668.22 Department of Education Regulation, a student may request a Leave of Absence using the criteria below. All requests will be reviewed and either approved or denied by the Associate Vice President of the IEC and appeals will be decided by the Chief Enrollment Officer.

1. Student must submit a written request explaining the circumstances in detail and attach supporting documentation.
2. Included in the request, student must state his/her intention to return to Upper Iowa University and state intention not to enroll at other colleges during the leave of absence.
3. Student must sign and date request.
4. The maximum leave of absence is 180 days in a 12-month period.
5. Students who return within the 180 days will retain their eligibility for admission and eligibility for institutional aid.
6. Students granted a Leave of Absence will receive a “W” for all current courses.
7. Student will complete an information update form upon returning to UIU.

Additional Learning Options
A feature of our flexible, dynamic academic program is the opportunity for individualized study, with prior approval by the program/center director, for Directed Study, Special Project, and Internship courses.

1. Special Project: You and your instructor design a course in an area you are especially interested in exploring.
2. Internship: You may take a course that offers hands-on experience in a career setting directly related to your major area of interest. Contact your center director or academic advisor for more information.
3. Directed Study: Is a specialized study plan for an existing course outside the traditional classroom setting is developed with the approval of the center director.

Class Cancellations
If classes must be cancelled on a given evening it will be displayed on the uiu.edu homepage and the local radio/television stations will be notified no later than 3 p.m. When classes will be held as usual, no announcement will be made. If you commute from a long distance, you are urged not to take unnecessary risks at times when road conditions are hazardous. If you must be absent for this reason, inform your instructor and your center staff.

Class Attendance
As an Upper Iowa University learner, you are expected to attend class regularly and promptly in order to do satisfactory work. While attendance will not be used in grade determination, class participation requirements are set forth by individual instructors. These expectations may be more stringent in some classes than others. When you must be absent from class because of illness or emergency, you are expected to arrange for the completion of make-up tests or homework with the individual faculty member(s). These arrangements are to be made prior to the incurred absence, except in emergency situations.
Center for Distance Education

Upper Iowa University offers two nationally recognized distance learning programs. The programs are designed to provide affordable, accessible education to learners worldwide.

Programs, Majors and Courses Offered Through Distance Education

The programs, majors and courses available through the Online and Independent Study Distance Learning Program are available on the UIU web page at www.uiu.edu/cde or by contacting the University.

Upper Iowa University
Center for Distance Education
PO Box 1861
Fayette, IA 52142-1861
Telephone: 563-425-5200
800-553-4150 (daytime or after-hours voice mail)
Fax: 563-425-5353
Email: distance@uiu.edu
www.uiu.edu/cde

Independent Study Program Information

The UIU Independent Study Program started in 1973 and was one of the first of its kind in the nation. The program, modeled after traditional correspondence learning, is a paper/email based program specifically designed to make learning as flexible as possible. Using texts, study guides, and other course materials, you will learn by completing specific lessons and assignments. Coursework and communication are delivered via mail or email and you work at your own pace with your instructors using email, mail, or fax. The program features six enrollment dates per year and you may take up to six months to complete your course.

Enrollment

You may be admitted to the program at any time during the year. We recommend that you enroll in one or two courses initially. You may enroll in a course prior to formal admission. If you will be seeking a degree through Upper Iowa University, this action is cautioned and should only be done after consulting an academic advisor.

Who May Enroll in UIU Independent Study courses?
- Individuals interested in flexible course schedules, nontraditional instruction and personal and professional enrichment.
- New, returning and currently enrolled UIU students.
- High school students in good academic standing.

Independent Study courses are available for open enrollment anytime throughout the year.

Admission to UIU is not required to enroll in independent study courses. Enrollment in an Independent Study Program course(s) does not constitute admission to UIU.

Independent Study Program Registration

1. Course Registration: All Upper Iowa University students register through myUIU, Upper Iowa University’s online portal. Access to myUIU is on the University website at www.uiu.edu. Step-by-step instructions for course registration are listed on the student tab and also can be found under the student handouts portlet. Note: Students who are unable to use myUIU may contact their academic advisor for assistance.

2. Payment: Tuition and any course-related fees are due at the time of registration.

3. Financial Aid: If you are applying for financial aid, course materials will be sent only after financial aid is awarded and all loan applications are filed and verified. Contact your academic advisor for more details.

4. Military Tuition Assistance: Active-duty Army, Army Reserves, and Army National Guard personnel must register through the GoArmyEd portal and select the Upper Iowa University DL – Correspondence Program.

All other military personnel using military tuition assistance (MTA) will have their education officer approve the class and submit the completed TA form to the Integrated Enrollment Center (IEC). All military tuition assistance forms must be received before the first day of the term. If you need assistance applying for Military Tuition Assistance, please contact your respective education office.

All DoD cardholders are eligible for a 10 percent tuition discount.

5. Auditing Independent Study Program Courses

By advance permission of the independent study academic advising coordinator/academic advisor, you may enroll for courses on an audit basis. As an auditor, you will not be required to take examinations, and you will earn no college credit. A special tuition fee of $95 per semester credit is charged (see page 14). Note: Financial aid is not available for auditors.

Independent Study Program Refund Policy and Course Withdrawal

Withdrawing from classes is an expensive decision and may change the amount of, or eligibility to receive, financial aid. Independent Study Program staff members are available to discuss this decision with you. A grade of W (withdrawal) is recorded for any course from which a learner withdraws.

Upon receiving a request for withdrawal, using the number of lessons submitted as compared to the total due, a refund of tuition is made according to the following guidelines.
On or before the first day of the enrollment period* 100%
After the first lesson through 10% of the enrollment period 90%
After the first 10% through the first 25% of the enrollment period 50%
After the first 25% through the first 50% of the enrollment period 25%
After the first 50% of the enrollment period 0%

* An enrollment period is defined as the number of lessons to be submitted during a six-month period of time, as determined by the University, during which semester credits are earned toward graduation. The refund/repayments shall be calculated using the percentages noted above as determined using the number of lessons completed and the number of lessons yet to be submitted.

Learners who withdraw from a course prior to submitting the first lesson, or who are administratively withdrawn for non-submission of lessons, will be charged an administrative fee of $93.

Independent Study Program Administrative Withdrawal
A grade of AW (administrative withdrawal) is recorded for any course from which a learner is administratively withdrawn. At least one complete unit must be submitted to the instructor within the first 60 days of the enrollment period or the learner will be administratively withdrawn from the course.

Financial Aid Information Specific to Independent Study Program Learners
Current financial aid information is available at the Upper Iowa University webpage http://uiu.edu/admissions/financialaid/index.html. If you have any further questions regarding financial aid or billing specific to the Independent Study Program, please contact the Financial Aid office at 800-553-4150, Ext 3. or financialaid@uiu.edu.

Independent Study Program Guidelines
Course Syllabi
Course syllabi are available in print or PDF versions. Printed versions will be sent by U.S. mail and PDF files will be sent by email as an attachment. In most cases, you should expect to receive course materials within five to 10 days from the day you register and tuition payment is received by the Center for Distance Education office.

Supplementary Reading
Some instructors list supplementary reading for their course. These books may often be found at your local public or university library or obtained through interlibrary loan. If books cannot be located from any of these sources, they may be available at Upper Iowa University’s library in Fayette, Iowa. See the library resources on page 24.

Oversea

Individual Guidance and Instruction
Independent study, such as the UIU Independent Study Program, involves extensive reading and writing assignments.

Success in an independent study program is largely determined by your self-discipline, motivation and amount of time devoted to study. You should carefully consider your commitment to work, home, family, social and community activities in deciding how much time you will have available for study.

Another key to your success is the individual guidance and instruction you will receive. Each of your lessons will be evaluated by your course instructor and returned with comments regarding your individual assignment. You may also submit comments and questions with your assignments. In essence, a dialogue is created that parallels classroom instruction.

Advising and support are provided by the Independent Study Program staff. Please express concerns or ask questions as needed.

Lesson Submission
Lessons may be submitted to your instructor by email or by mail.

As a general rule, allow one to three weeks for assignments to be graded and returned. This can vary depending upon the instructor’s schedule and method of submission. If lessons are delayed, please call your academic advisor. After the lesson has been returned, review it carefully and make any inquiry about the lesson immediately.

Every effort is made to ensure prompt return of your assignments. Delays in return of assignments and examination results may be expected around scheduled holidays and breaks.

If you must complete a course in a short time, you should make sure the instructor is aware of this and is available to correct lessons. You are responsible for completing assignments and exams early enough to ensure the grade is available when needed. The final exam must be completed and in the Center for Distance Education Office at least two weeks before the grade is needed. This is especially important if you plan to graduate.

Examinations
The course materials you will receive at the beginning of the course will explain what exams are required, when to request the exams and what material will be covered. You will need to make arrangements to complete your examinations under the supervision of a qualified proctor (someone to administer the exam). You must bring a photo I.D. with you to the exam. Approved exam proctors are:

- school principals
- superintendents
• guidance counselors
• full-time school or public librarians
• testing centers at an accredited community college/college/university
• embassy officials
• military education officers or test control officers
• company education directors, directors of training and development or human resource directors (learner must be employed by the company).
• professional testing center
• UIU Center staff

Teachers, employers, relatives, close friends, and other UIU learners cannot serve as proctors. Exams will not be sent to residential locations.

Communications Concerning Your Studies
Please inform UIU immediately should any unusual problem arise during your enrollment, or should any excessive delay occur in the return of your assignments.

Upper Iowa University
Center for Distance Education
Independent Study Program
PO Box 1861
Fayette, IA 52142-1861
Telephone: 563-425-5200
800-553-4150 (daytime or after-hours voice mail)
Fax: 563-425-5353
Email: extdegree@uiu.edu

Time Limits
You have six months from the date of your enrollment to complete an independent study course. You should begin work on the course immediately upon enrollment and begin submitting lessons for grading and evaluation on a regular basis. If no course work has been submitted within the first 60 days, an administrative withdrawal will be processed. A steady work flow will ensure your successful completion of the course in the least amount of time. After your original six-month enrollment period has passed, you no longer have the option to withdraw from a course. You must finish the course or you will be issued a final grade based on the work submitted as compared to the total required.

Extensions
Learners who have made satisfactory progress toward course completion and who have requested an extension will receive a grade of I (incomplete) at the end of the initial six-month enrollment period. An I grade posted to your official record will be replaced with a final letter grade; however, the incomplete will remain on your official transcript as a notation. You may receive one six-month extension for a fee of $50. The Independent Study Program office must receive the written request or phone call with payment and fee before your course expires. It is your responsibility to be aware of the course expiration date and to obtain the extension before the course expires. You do not have the option to withdraw from a course after the initial six-month enrollment period has been completed. At 12 months from your original start date a final course grade will be issued (A-F) based on work completed in relation to the total course requirements.

Note: Learners are considered less than half time during extension periods and are not eligible for student loan deferment.

U.S. Online Program Information

Online Program Registration

Who May Enroll in UIU Online courses?
• Individuals interested in flexible course schedules, nontraditional instruction and personal and professional enrichment.
• New, returning and currently enrolled UIU students.
• High school students in good academic standing.

Online courses are available for enrollment in any of the six terms offered each year.

Admission to UIU is not required to enroll in online courses. Enrollment in an online course(s) does not constitute admission to UIU.

Registration Process

New learners must register with their admissions advisor.

All returning Upper Iowa University students register through myUIU, Upper Iowa University’s online portal. Access to myUIU is on the University website at www.uiu.edu. Step-by-step instructions for course registration are listed on the student tab and also found under the student handouts portlet. All students are issued an username and password during the admissions process. Tuition and any course-related fees are due at the time of registration or by the first day of class.

Tuition and any course-related fees are due at the time of registration or by the first day of class.

Registration begins approximately six weeks before the start of each term. You are strongly encouraged to register early as capacity is limited in all classes.

If enrollments dictate and there is lead time to make the necessary arrangements, additional sections of a course may be added. Without adequate lead time, courses may close when enrollment reaches capacity.

All Upper Iowa University students register through myUIU, Upper Iowa University’s online portal. Access to myUIU is on the University website at www.uiu.edu. Step-by-step instructions for course registration are listed on the student tab and also found under the student handouts portlet. All students are issued an username and password through their program/center after their first Upper Iowa University registration. Tuition and any course-related fees are due at the time of registration or by the first day of class.
Payment is due prior to the first day of class either by check or credit card. Payment may be made through the myUIU portal in a secure environment.

**Military Tuition Assistance:** Active-duty Army, Army National Guard, and Army Reserve personnel must register through the GoArmyEd portal. All other military personnel using military tuition assistance (MTA) will have their education officer approve the class and submit the completed TA form to your academic advisor. All military tuition assistance forms must be received before the first day of the term. Forms may be mailed to Upper Iowa University, IEC, PO Box 1857, Fayette, IA 52142 or scanned and emailed to cde@uiu.edu. If you need assistance applying for Military Tuition Assistance, please contact your respective education office.

All DoD cardholders are eligible for a 10 percent tuition discount.

**Employee Tuition Assistance:** If you are receiving tuition assistance, a voucher approved by Upper Iowa University must accompany any portion of the payment for which you are responsible. Contact your academic advisor for more details.

No registrations will be accepted after the published last day to register for the term.

Term start dates are published on the website at www.uiu.edu/cde and are available from your academic advisor upon request. All published course schedules in the Online Program are subject to change.

Auditing a course is not an available option in the Online Program.

**Online Delivery and Schedule**

The goal of Upper Iowa University is to offer its curriculum on a schedule that allows learners to take courses and continue their careers. In general, the six eight-week terms begin as follows:

<table>
<thead>
<tr>
<th>Term</th>
<th>Begins</th>
</tr>
</thead>
<tbody>
<tr>
<td>Term 6</td>
<td>July</td>
</tr>
<tr>
<td>Term 1</td>
<td>August</td>
</tr>
<tr>
<td>Term 2</td>
<td>October</td>
</tr>
<tr>
<td>Term 3</td>
<td>January</td>
</tr>
<tr>
<td>Term 4</td>
<td>March</td>
</tr>
<tr>
<td>Term 5</td>
<td>May</td>
</tr>
</tbody>
</table>

Please contact your academic advisor for the course schedule and exact starting dates. A schedule is also available at www.uiu.edu/cde.

**Online Refund Policy and Course Withdrawal**

Withdrawing from classes is an expensive decision. Tuition will be adjusted based on the percentages listed below for the weeks attended in the eight-week enrollment period. If a course meets on an alternative schedule, consult the Center for Distance Education office for refund schedule.

<table>
<thead>
<tr>
<th>Withdrawal</th>
<th>Refund Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Withdrawal before the first class meeting</td>
<td>100%</td>
</tr>
<tr>
<td>Withdrawal during week one</td>
<td>75%</td>
</tr>
</tbody>
</table>

Withdrawal during week two: 50%
Withdrawal during week three: 25%
Withdrawal during week four: 25%
Withdrawal after week four: 0%

These percentages will also be used to determine eligibility for state aid you may have received. Examples of refund calculations are available from the Financial Aid office.

Course withdrawal may change the amount of, or eligibility to receive, financial aid for a specific term. A financial aid counselor is available to discuss this decision with you.

Upper Iowa University is required to use a statutory schedule to determine the amount of Title IV aid that you have earned when you cease attendance based on the period of enrollment. Up through the 60 percent point in each period of enrollment, a pro rata schedule, based on number of days in attendance divided by number of days in the payment period, will be used to determine the amount of Title IV aid you have earned at the time of withdrawal.

**Online Program Changes in Registration (Drop Procedures)**

You may drop a class at any time during the registration period and up to the last day prior to the first day of the term. Because of the online delivery mode, learners will not be allowed to add a class after the final registration date published for each term.

**Changes in Enrollment**

**Validation of Enrollment/Non-Attendance**

Registration for each online course must be validated by attending class (posting one or more times to any area of the online classroom) during the first seven days of the term. Failure to validate enrollment when courses begin will result in a grade of NA (never attended) and removal from the course. An NA will be recorded on your transcript and financial aid funding may be affected.

Withdrawal

If you wish to withdraw from an active course, you must notify your academic advisor by phone or email prior to the published last day to drop a class, which is the last day of the of the fifth week of the term. A grade of W will be recorded on the transcript. Informing the course faculty member is not sufficient notice for a drop or withdrawal.

Administrative Withdrawal

Prior to the last date to withdraw, if a learner stops attending (has not posted one or more notes to any area of the online classroom) for 14 consecutive days, the university will initiate an administrative withdrawal. A grade of AW will be recorded in the student’s permanent record.

**Financial Aid Information Specific to Online Program Learners**

Current financial aid information is available at the Upper Iowa University webpage http://uiu.edu/admissions/financialaid/
Online Program Guidelines

Course Attendance
Course attendance for the Online Program is defined as: A learner who posts at least one or more times to any area of the online classroom EACH week. The Online Program course week begins on Monday and ends the following Sunday.

To be considered in attendance, you are required to post at least once in any area of the online classroom EACH week. You must meet the attendance minimum to stay active in the class. If you do not meet this attendance requirement (post in any area of the online classroom) for 14 consecutive days you will receive an AW for the course which may affect your financial aid funds for payment of the course. Financial aid and tuition adjustments will be calculated based on the day you last posted to the online classroom. Merely logging into the online classroom website is not considered a posting for attendance or participation purposes.

If you do not drop or withdraw from the course before the last day of the fifth week of the term, you will receive a letter grade in the course based on what work you did complete in the course in relationship to the total course requirements. The policy of attendance for the program is a minimum to stay registered in the course.

Course Participation
You are expected to actively participate and contribute to the learning experience in your course. Participation means providing substantive comments, questions and contributions that advance the learning process for you and/or other learners in the course. If you actively participate in the course, you should not have an attendance issue.

For grading purposes, the faculty member will determine the number and quality of postings for participation.

Merely logging onto the classroom website is not considered posting for attendance or participation purposes.

Collaborative Learning
Online courses may incorporate one or more collaborative learning assignments that utilize “virtual teaming.” In collaborative assignments, a group of students works on and submits an assignment as a team. In general all members of the group will earn the same grade on the assignment. If the faculty member determines that one or more group members did not do a fair share of the assignment, those students may receive a lower grade. Some faculty members assign the members of groups while others allow students to self-select their group. A faculty member’s policy on this will be included in the course syllabus.

Technical Requirements
It is UIU’s goal to make the student’s online learning experience the best it can be. One way to achieve this goal is to ensure that certain essential tools are available when the student accesses their online courses. The technical requirements for the Upper Iowa University Online campus can be reviewed in the technical requirement section at www.uiuonline.com.

Learning Management System
The UIU Online Program utilizes the Pearson LearningStudio (eCollege) learning management system (LMS). All students who enroll in online classes are expected to complete the student orientation tutorial and have appropriate knowledge to use the system effectively. The system is supported by a 24/7 Helpdesk available at helpdesk@uiuonline.com or 877-889-9848. Failure to post correctly and submit assignments/exams as required does not provide the basis for appeals of tuition and/or resubmission of work.

International Center Information

The following information is for undergraduate students who are studying at one of Upper Iowa University’s international centers.

Applicants to international programs must submit the following documents in order to complete the international student admission process:

1. Your completed Application for Admission form and application fee (fees vary by location)
2. Official transcripts from each college and university previously attended
3. Certified True Copy (CTC) of the certificate verifying credit earned through postsecondary public examination (i.e. A-Level, STPM, etc)
4. A CTC of the credential verifying completion of secondary education
5. Verification of English language proficiency requirements (see page 10)

International Center Program Registration
Registration materials are available at each international center office prior to the start of each term/semester.

Tuition and Fees
Each international center program has specific fees based on local pricing. Tuition and any course-related fees are due at the time of registration unless other arrangements are made in advance. A full list of tuition and fees is available at each center.

International Center Course Delivery and Schedule
Course delivery and schedule vary by center. Some international centers offer courses on an eight-week term, while others follow a 16-week semester schedule. Check with your UIU center staff to determine the course schedule, center-specific term/semester dates, degree programs, and majors offered at each center.
Registration Change, Refund Policy, and Course Withdrawal

To make registration changes, inquire about refund policy or withdraw from a course, please contact the international center staff at your location.

Course Loads

1. Terms
   - As a full-time learner with average to above average grades, you will normally enroll for six semester credits per term, which is equivalent to a full-time load. Learners desiring to enroll in more than eight semester credits per term through Center, Online, and/or Independent Study Programs must:
     - meet the minimum GPA requirement. A cumulative minimum GPA of 3.0 is required to enroll in nine semester credits, and a 3.5 is required to enroll in 12 semester credits per term.
     - have been a full-time learner with Upper Iowa University during a previous term; and,
     - have the permission of the program/center director or academic advisor.

Learners will not be allowed to register for more than 12 semester credits per term in any UIU program.

2. Semesters
   - As a full-time learner with average to above average grades, you will normally enroll for 12 semester credits per semester, which is equivalent to a full-time load. Learners desiring to enroll in more than 14 semester credits per semester must:
     - meet the minimum GPA requirement. A cumulative minimum GPA of 3.0 is required to enroll in 15 semester credits, and a 3.5 is required to enroll in 18 semester credits per semester.
     - have been a full-time learner with Upper Iowa University during a previous semester; and,
     - have the permission of the program/center director or academic advisor.

Learners will not be allowed to register for more than 18 credits per semester in any UIU program.

Administrative Withdrawal

Regular class attendance is required. UIU center staff will initiate the administrative withdrawal procedure when absences have exceeded the international center’s attendance policy. A grade of AW will be recorded and the student will be removed from the class.

Excused Absences/Leaves of Absence

In accordance with #34CFR668.22 Department of Education Regulation, a student may request a Leave of Absence using the criteria below. All requests will be reviewed and either approved or denied by the Associate Vice President of the IEC and appeals will be decided by the Chief Enrollment Officer.

1. Student must submit a written request explaining the circumstances in detail and attach supporting documentation.
2. Included in the request, student must state his/her intention to return to Upper Iowa University and state intention not to enroll at other colleges during the leave of absence.
3. Student must sign and date request.
4. The maximum leave of absence is 180 days in a 12-month period.
5. Students who return within the 180 days will retain their eligibility for admission and eligibility for institutional aid.
6. Students granted a Leave of Absence will receive a “W” for all current courses.
7. Student will complete an information update form upon returning to UIU.

Record Maintenance

All official records are maintained at Upper Iowa University in Fayette, Iowa, USA. While documents may be submitted to the international center, all official copies will be retained in the student’s permanent record in the United States.

Transcript Requests

For information on requesting a transcript, please inquire with the UIU center staff or go to: http://www.uiu.edu/transcripts.

Class Cancellations

Contact UIU center staff for policies regarding class cancellations.

Class Participation and Attendance

As an Upper Iowa University learner, you are expected to attend class regularly and promptly in order to do satisfactory work. Class participation requirements are set forth by individual instructors. These expectations may be more stringent in some classes than others. When you must be absent from class because of illness or emergency, you are expected to arrange for the completion of make-up tests or homework with the individual faculty member(s). These arrangements are to be made prior to the incurred absence, except in emergency situations. When a registered learner makes the decision not to attend before a term begins or decides to withdraw from a course during the term, it is the learner’s responsibility to immediately notify the center.

Interacting with University Personnel

Students enrolling in a program at Upper Iowa University assume the responsibility of conducting themselves in a manner compatible with the University’s function as an educational institution. Obstruction or disruption of teaching, research, administration, disciplinary procedures or other University activities, or of other authorized activities on University premises will not be tolerated.
Transferring to Fayette Campus
As an Upper Iowa University international center student, you may transfer to the Fayette Campus. Be prepared to provide a notarized bank statement showing financial support for college expenses. International student scholarships are available for those who qualify and require participation in cultural activities. International student employment may be available on the Fayette campus. Contact the UIU center staff at your location for requirements and to begin planning.

Distance Education
International Program learners may choose to enroll in the Online and Independent Study Program courses. Tuition for these courses is separate from tuition paid at your local center. More information about each program can be found in this catalog or at http://www.uiu.edu/distance/online/index.html. Contact the UIU center staff for assistance.

Graduation and Commencement
Upper Iowa University has six graduation dates throughout the year when diplomas are issued. In general, these dates fall in October, December, March, May, June, and August. As a candidate for graduation you must file an application (valid for one year) with your international center.

A formal commencement ceremony is held every May in Fayette, Iowa. International center students are welcome and encouraged to participate in this event. Commencement ceremonies are also held in Hong Kong and Malaysia each December. Students find it a meaningful and rewarding experience to participate in either or both of these ceremonies. Students may qualify for participation in the ceremony even when the degree is granted at another point during the year.

Academic Policies
Classification of Learners
Registration Status
1. Full-time: *A learner registered for six or more credits per eight-week term at a Center and/or in the Online Program.
2. Half-time: A learner registered for less than six credits per eight-week term at a Center and/or in the Online Program or a minimum of six semester credits within the same enrollment period through the Independent Study Program. (Students taking a combination of Independent Study and center or online classes who use financial aid should consult the Financial Aid Office.)
3. Less than half-time: A learner registered for less than three credits per eight-week term.

* Full-time status can only be obtained through Center and/or Online Program enrollment. Independent Study Program enrollment is always considered half-time or less for 3-12 credits. International Center Program Learners: Check local Center for classification status.

Class Status
1. Freshman: A learner who has earned fewer than 30 semester credits.
2. Sophomore: A learner who has earned 30 to 59 semester credits.
3. Junior: A learner who has earned 60 to 89 semester credits.
4. Senior: A learner who has earned 90 semester credits or more.

Official Status
1. Regular: A learner whose record and current standing indicate systematic pursuit of study toward a degree.
2. Non-Degree Seeking: A learner not admitted as a degree candidate.
3. Auditor: A learner who registers on a noncredit basis.

Credit
The unit for all courses is the semester credit. For Center program learners, each semester credit requires a minimum of 12 contact hours, and you can expect approximately two hours of out-of-class work for every one hour spent in class.

Online Program learners should expect to spend approximately 17-20 hours per week on course-related matters (per three-credit course). Learners should consider this when deciding how many credits to register for each term.

Course Loads
As a full-time learner with average to above average grades, you will normally enroll for six semester credits per eight-week term, which is equivalent to a full-time load. Learners desiring to enroll in more than eight semester credits per term through Center, Online, and/or Independent Study Programs must:

a. meet the minimum GPA requirement. A cumulative minimum GPA of 3.0 is required to enroll in nine semester credits, and a 3.5 is required to enroll in 12 semester credits per term.
b. have been a full-time learner with Upper Iowa University during a previous term; and,
c. have the permission of the program/center director or academic advisor.

Learners will not be allowed to register for more than 12 semester credits a term in any UIU program.

Textbooks
Textbooks may be purchased through University Bookstore or locally through other sources. Textbook titles and editions will be provided upon request by program staff.

To order, visit www.peacockconnection.bkstr.com or call 866-225-2808. You may pay by VISA, MasterCard, Discover or American Express. Orders will be shipped within 24 hours.
Textbooks are delivered via FedEx by one of three methods: Ground, Second Day Air, or Next Day Air. You pay the current FedEx rate based on the weight of the package and where the package is being shipped. Textbook buyback is also available. Visit www.peacockconnection.bkstr.com or call 866-225-2808 for a quote, buyback, or mailing label.

Upper Iowa University permits students who receive Title IV financial aid to incur book charges through the University’s official bookstore provider up to $375 per term.

Follett is the only avenue permitted for book charges as they are the official UIU book provider. Students will not be required to purchase their books through Follett. It is a personal choice whether or not to utilize this option.

Criteria for students using book charges are as follows:

1. Pell Eligible – Students who are Pell eligible are permitted to charge their books if the financial aid file is complete and they are ready to award.

2. Non Pell Eligible – Students who receive financial aid but are not Pell eligible must be awarded, have accepted the award and have their Master Promissory Note (MPN) and Entrance counseling complete.

3. Students who do not receive Title IV financial aid will not be eligible for a book charge.

International Center Program Learners: Check local center for textbook purchase options.

Writing Style Guide
All Academic Extension learners are expected to buy and use an approved APA style guide. Learners are advised that individual faculty members will require use of APA style for their individual classes. An approved APA style guide is the required text for ID 498 – Senior Project.

Library Resources
As a learner of Upper Iowa University, library resources (online journal databases, e-books, newspaper access, citation help, etc.) are available. If travel to the campus is not feasible, you can access the library through the University’s website. Go to: www.uui.edu/library. To use any of the materials listed on the site, you can log in using your myUIU username and password when prompted.

If you need help with your myUIU login credentials, please contact the UIU Help Center Desk at helpdesk@uui.edu, phone: 563-425-5876. If you need assistance locating information or using the library’s resources, please contact the library at library@uui.edu or phone: 563-425-5261.

Grading System
Upper Iowa University uses a standard grading system:

<table>
<thead>
<tr>
<th>Grades</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>0.67</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Individual instructors have the academic freedom to implement +/- grades in their courses at their discretion.

The GPA is determined by dividing the number of quality points earned at Upper Iowa University by the total number of graded semester credits earned at Upper Iowa University. Grades transferred from other institutions are not included in the overall GPA. The GPA earned for your major will include grades transferred into your major.

The following grades are not used in computing the grade point average:

I - Incomplete
A temporary grade of I (incomplete) indicates that the student has been unable to complete coursework due to circumstances beyond his or her control. A request for an incomplete grade may be approved at the discretion of the faculty member. After the grade of I is given, the work must be completed by the date agreed upon, no later than eight weeks following the end of the course. If the work is not completed within that period of time, a letter grade of (A-F) will be issued.

Students will not have access to the online classroom once the term has ended. It is the student’s responsibility to make sure all materials necessary to complete the incomplete have been secured before a request for an incomplete will be approved.

Independent Study Program learners see extension information on page 19.

P - Passing
A grade of P is assigned for credit granted for experiential learning, special training programs, credit by examination or for other types of nontraditional learning experiences. A grade of P is also assigned for satisfactory performance in an elective course taken on a pass/fail basis. Learners must request pass/fail grading in writing to their academic advisor or program/center director before the beginning of the term. A maximum of 12 credits may be earned at Upper Iowa University on a pass/fail basis as general electives.
W-Withdrawal
For Center or Online Program learners: the grade W is used to denote courses dropped (learner-initiated) between the first and fifth week of an eight-week term. Courses no longer attended after the fifth week of an eight-week term will be issued a letter grade (A-F) based on work completed in relation to total course requirements.

For Independent Study Program enrollments: if you wish to withdraw prior to the last day of the enrollment period, you must contact the Center for Distance Education Program Office by phone or in writing. A learner-initiated withdrawal can occur at any time within the six-month enrollment period and a grade of W is applied.

AU-Audit
The grade AU is given when a learner enrolls in a course without receiving college credit. (See pages 15, 17 and 20.)

AW-Administrative Withdrawal
The grade AW is assigned to courses in which the learner has been administratively withdrawn. (See pages 16, 18, 20, and 22.)

NA-Non-attendance
The grade of NA is assigned when a registered learner fails to attend the first week (or comparable time frame) of class and fails to withdraw prior to the start of the course. Excessive NA grades may result in disciplinary actions.

Your official grade is the grade posted to myUIU at the end of the grading period. It is your responsibility to check myUIU grades for accuracy. You may request an evaluation of your progress toward your major program of study and degree completion at any time from your academic advisor.

Grade Appeal Process
The grade for any given course is based on your achievement or success as defined by the individual instructor. This may be a quantitative score or a qualitative and subjective decision. Grading standards are delineated on each course syllabus. The grade you received for a course is final unless the instructor makes a formal grade change.

If, under unusual circumstances, you wish to appeal a grade and attempt to have it changed, you must follow these procedures:

within eight weeks after the grade was earned:
1. Contact the instructor to ensure the grade assigned was correct and/or to request an explanation of how the grade was calculated.
2. Notify the instructor and program/center director in writing that you will appeal the grade received for a specific course.
3. Request a grade change in writing to the Dean of Faculty, PO Box 1857, Fayette, IA 52142 or email euacademicaffairs@uiu.edu. Include the reason(s) you feel the grade received was unfair or inappropriate. If you are contesting a charge of cheating or plagiarism, you are required to submit the document in question in an electronic format, i.e. by disk or as an email attachment, when making your request. This document may be submitted to a plagiarism detection service.
4. The Dean of Faculty will review your appeal, contacting the instructor and any additional personnel as needed to discuss the conflicting issues.
5. The Dean of Faculty will render a written decision within 60 days of receiving the request for grade change.
6. To appeal this decision a written request must be sent to the Chief Academic Officer, PO Box 1857, Fayette, IA 52142 within 30 days of the decision.

Standard of Academic Progress
If you are enrolled in at least three semester credits per term in any degree program, you are expected to be able to meet or exceed the completion and GPA standards stated below. These standards serve as guidelines for the Academic Review Committee (ARC) to use in determining whether or not a learner will be able to progress toward the 2.0 GPA graduation requirement.

Semester Credit Completion Standards Per Term
<table>
<thead>
<tr>
<th>Semester Credits Attempted</th>
<th>Semester Credits Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 or more</td>
<td>3 semester credits</td>
</tr>
</tbody>
</table>

If you register for but do not complete at least three semester credits in each of two terms, a letter of concern is issued; three terms, you are placed on academic warning; four terms, you are academically suspended. These guidelines are used to determine satisfactory progress over eight continuous terms of enrollment in a U.S. program.

Grades of Pass, A-F, Withdrawals, Administrative Withdrawals, repeated courses, and incomplete courses will be considered as hours attempted in the completion standards. Noncredit courses are not considered in either credits attempted or accumulated.

Note: For Independent Study Program learners “term” is defined as the six-month enrollment period. For Center and Online Program learners “term” is defined as the eight-week enrollment period.

Academic/GPA Standards (Bachelor’s Degree)

<table>

<td>91+</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Semester credits attempted for transfer learners will be based on all credits transcripted.
Academic Status

Each term, the ARC meets to review the records of all learners not meeting the guidelines stated above. The committee will determine the academic status of each learner reviewed, and the following consequences will ensue:

Step 1: Letter of Concern

A letter of concern is sent when the ARC determines your academic performance during a term reflects less concentrated work than you need to complete a degree with Upper Iowa University. When you do not meet the semester credits completion standards or fall below the required GPA, you will receive a letter of concern, and your progress will be monitored during the following terms. An entry of this action is recorded on your transcript. If significant progress is not made, an academic warning is issued.

Step 2: Academic Warning

When you do not meet the guidelines for the semester credit completion or GPA, your record will be reviewed by the ARC and you will be notified in writing by the Dean of Faculty of the decision that you have been placed on academic warning. An entry of this action is recorded on your transcript.

Academic warning is intended to caution you if you are not making the expected normal progress toward completion of a college degree or you have already received a letter of concern. Before your next registration, you must meet with the academic advisor to outline a plan for continued enrollment. You are advised to contact the Financial Aid Office concerning consequences regarding financial aid.

Step 3: Academic Suspension

If, at the end of the academic warning period of enrollment, you fail to meet the semester credits completion standards or the academic/GPA standards, you are notified in writing by the Dean of Faculty of the ARC’s decision placing you on academic suspension for one full term. An entry of this action is made on your academic record. You will receive information on appeal procedures and consequences concerning financial aid. All decisions on appeals by the Chief Academic Officer are final.

Reentry After Suspension

Appeal for Reinstatement

If suspended, you may submit a written appeal to the Dean of Faculty, PO Box 1857, Fayette, IA 52142 or email to euaacademic-affairs@uiu.edu, within two weeks of receiving the suspension letter. The appeal will be forwarded to the ARC for consideration. Any significant party (such as an academic advisor) may be invited to participate in the review. You will be advised in writing of the ARC’s decision within three weeks.

Readmission

If suspended, you may apply for readmission to Upper Iowa University by demonstrating, in writing to the Dean of Faculty, PO Box 1857, Fayette, IA 52142 or email to euaacademic-affairs@uiu.edu, a reasonable capability to raise and maintain your cumulative GPA. The ARC will either approve or deny your readmission, and you will be notified of the decision in writing by the Dean of Faculty. Copies of the notification will be sent to the Registrar’s Office, Financial Aid Office, Business Office, and your program office.

Reenrollment

When you return from suspension, you must register for classes through your academic advisor and return to the academic warning status. If you do not satisfactorily progress off academic warning, you may become a candidate for academic suspension again. Two academic suspensions from Upper Iowa University may warrant permanent suspension.

Standard of Academic Progress and U.S. Financial Aid

Financial aid will be available as long as the ARC determines that you are making sufficient progress to meet graduation requirements. Should you be suspended, all financial aid will be terminated.

If you have been suspended and are readmitted to the University on academic warning, you may not be eligible for financial aid. Applications for reinstatement of financial aid must be made in writing to the Director of Financial Aid, PO Box 1859, Fayette, IA, 52142. You will be notified of the director’s decision within two weeks of the application. The first term of financial aid eligibility after reinstatement will be on a probationary basis. If you fail to show progress toward graduation requirements during that term, financial aid eligibility will be terminated.

Certain rules and regulations govern the awarding or continuation of Veterans Administration assistance and other financial aid that comes from federal or state government sources. Decisions on continuation or termination of Veterans Administration assistance are made by the Veterans Administration. Payment must be withheld if, in accordance with the standards and practices of Upper Iowa University, you are not maintaining satisfactory progress in your course of study.

Academic Renewal without Course Repetition Policy

Inasmuch as past performance does not always accurately reflect a learner’s academic ability, Upper Iowa University has established a policy of academic renewal without course repetition. A learner who returns to Upper Iowa University to pursue an undergraduate degree after an extended absence may request permission to remove one or more of his or her complete academic terms from future GPA considerations, subject to the following circumstances and conditions:

1. The learner must have completed at least one academic term with Upper Iowa University and must not have enrolled at Upper Iowa University for five or more consecutive years.
2. The learner must not have graduated from Upper Iowa University.
3. The learner must have demonstrated academic ability by earning a GPA of 2.00 or higher upon completion of 12 credit hours at Upper Iowa University after returning to Upper Iowa University.
If academic renewal is granted, the following conditions will apply:

1. All courses and credits that were taken at Upper Iowa University during the chosen term or terms will be removed from consideration for GPA calculations.
2. Credit hours earned will count toward graduation and major requirements.
3. Renewal may be applied only to academic terms completed prior to the learner’s extended absence from Upper Iowa University.
4. All courses and grades for the chosen terms will remain on the learner’s academic transcript, thereby ensuring a true and complete academic history.
5. The statement “Academic Renewal Declared on (date)” will appear on the transcript after each term affected by the renewal.
6. Academic renewal may be used only one time in a learner’s academic career at Upper Iowa University.
7. Once academic renewal has been declared, it is final and irreversible.

After discussing the desire to pursue academic renewal with an academic advisor, the learner should submit a written request for academic renewal to the Registrar’s Office.

Dean’s List
The Dean’s List is compiled twice per year after Terms 1 and 2 and again after Terms 3 and 4*. To be considered for this honor you must:

1. Be an undergraduate student,
2. Complete at least 12 credits combining both Terms 1 and 2 or Terms 3 and 4,
3. Have achieved a 3.5 grade point average or above for the two qualifying terms,
4. Have no outstanding grades of Incomplete (excluding Field Experience, Student Teaching and Internship),
5. Have no disciplinary charges pending action.

You will be notified of this honor and sent a certificate by the Dean’s Office. An announcement will be sent to your local newspaper, unless you request the information be withheld.

* International Center Program terms vary.

Use of Human Research Subjects
Academic Extension learners, faculty and staff wishing to conduct research involving human subjects must seek approval in advance. Forms and procedures are available at www.uiu.edu and look for the “Human Subjects Research Policy” document on the “Current Students” page of the web site.

Graduation and Beyond

Commencement
Diplomas are issued six times each year, and a formal commencement ceremony is held once each year in Fayette, Iowa in May. UIU encourages you to participate in its formal commencement ceremony even if your graduation date falls earlier in the academic year. If you graduate in June or August, you may elect to participate either in the preceding May commencement or the following May commencement.

Note: Learners at military installations or International Center Programs should contact UIU center staff for commencement information regarding both Fayette campus and local graduation ceremonies.

Application for Graduation
As a candidate for graduation, regardless of whether you plan to participate in the commencement ceremony, you must file an application for graduation. There is an application fee of $65 (even if you choose not to attend commencement). Learners planning to participate in the commencement ceremony should complete a participation form on myUIU. Deadlines for submitting applications for graduation are as follows:

<table>
<thead>
<tr>
<th>Application Due</th>
<th>Month Conferred</th>
</tr>
</thead>
<tbody>
<tr>
<td>May/June</td>
<td>October</td>
</tr>
<tr>
<td>July/August</td>
<td>December</td>

Applications not received within the two-month application window will be moved to the next conferral month. Students will apply for graduation 16 weeks before the conferral month.

Transcripts from other institutions need to be received within three weeks after the proposed UIU graduation term ends for a student to have that term’s conferral date posted to the record. If transcripts are not received, the conferral date will move to the next term provided transcripts are received within three weeks after the appropriate term end date.

Students must complete requirements for graduation in the term for which they apply for graduation. If they are unable to do so, they will be moved to the next graduation date. If requirements are not met by that date, the application will be considered void and the student will submit a new application for graduation. An application fee will be assessed each time an application is submitted.

Graduation Honors
Graduation with honors signifies recognition of your achievement in scholastic excellence as the baccalaureate program of study is completed. Your diploma will bear one of the following inscriptions to recognize this excellence: Summa Cum Laude, if your grade point average (GPA) is at least 3.8; Magna Cum Laude, if your GPA is at least 3.6 but less than 3.8; or Cum
Laude, if your GPA is at least 3.5 but less than 3.6. A total of 60 graded semester credits must be earned at Upper Iowa University before Magna Cum Laude or Summa Cum Laude honors may be granted.

If you are a transfer student who has not completed 60 graded credits at Upper Iowa University, you will graduate Cum Laude if you attain at least a 3.3 grade point average and have completed a minimum of 30 graded credits with Upper Iowa University. Experiential learning credit does not apply to the 60 graded credits for Magna or Summa Cum Laude honors. Grades earned in courses accepted for transfer will not be included in the GPA maintained for purposes of determining graduation honors at Upper Iowa University.

Transcript Requests
Transcripts must be requested in writing. The request must include: your printed name, your signature, your social security number for verification, and the address where you would like it sent. A transcript request form may also be obtained at www.uiu.edu. An official transcript cannot be issued if there is an unpaid University account balance. Transcripts cannot be ordered by telephone or e-mail. Transcripts sent to you will be stamped “Issued to Student”.

Transcript Fees
There is a $5 processing fee per copy for transcripts that are mailed and a $8 fee per copy for transcripts that are faxed. If you are faxing your request, include an address where you can be billed.

Mail transcript requests to: Registrar’s Office, PO Box 1857, Fayette, IA 52142. Fax transcript requests to: 563-425-5287 (Be sure to include a billing address for the processing fee.)

Career Services
Career Services, located on the Fayette Campus, is available to help learners from all programs explore graduate school or career opportunities with an employment advisory service providing bimonthly listings of employment opportunities, credential files and job-finding resources. Learner referrals are not based on direct contact. A program is available for personal assessment to help plan your career. Neither Career Services nor Upper Iowa University guarantees employment. For further information, call 563-425-5208. Career Services information is also available through Upper Iowa University’s home page, located at www.uiu.edu or careers@uiu.edu.
Major programs of undergraduate study are listed on the following pages. Each Center, the Independent Study and the Online Programs offer specific majors and minors. Check with your academic advisor to determine the availability of a particular major or minor. Some majors at particular locations will include online or distance coursework.

Associate of Arts
Bachelor of Arts
Bachelor of Science
Certificate Program

Requirements for an Associate of Arts Degree

An Associate of Arts in general business or liberal arts is available at some Centers and the Independent Study Program. Contact the Center or Independent Study Program personnel for specifics regarding availability and course requirements. You may receive the Associate of Arts by meeting the following minimum requirements:

1. Complete a minimum of 60 semester credits.
2. Meet the general education requirements listed below.
3. For general business, meet the degree requirements on page 30.
4. For liberal arts, meet the degree requirements listed on page 30.
5. Achieve a cumulative grade point average of at least 2.0.
6. Complete a minimum of 15 semester credits from Upper Iowa University. In addition, 12 of the last 15 credits required for graduation must be earned from Upper Iowa University.

Requirements for a Bachelor of Science Degree

You may receive a Bachelor of Science (Bachelor of Arts for elementary education) by meeting the following minimum requirements:

1. Complete a minimum of 120 semester credits. Of those credits, a minimum of 36 credits must be upper division credits. Credits evaluated by the American Council of Education, as being upper division, will meet this requirement as will Experiential Learning Portfolios based on 300-400 level course requirements. Of the 36 upper division credits earned by each learner, 18 credits must be earned in courses in the major. Courses numbered lower than 100 will not be counted toward the 60 (120 for bachelor’s) required for the degree.
2. Meet the general education requirements listed on page 30.
3. Achieve a cumulative grade point average (GPA) of at least 2.0 (2.70 for teacher education majors).
4. Complete the requirements for a major as stated on pages 31-39. A minimum of six semester credits in the major must be completed through Upper Iowa University.
5. Achieve a minimum of a 2.0 average in the major, and in the minor, if any. Transfer credits in the major or minor will contribute to these averages. (For teacher education majors, maintain a 2.70 minimum GPA in the major and a 2.70 in each subject area of endorsement.)

6. Complete a minimum of 30 semester credits from Upper Iowa University’s U.S. Centers, International Centers, Independent Study, Online, and/or Fayette Campus Programs. In addition, 24 of the final 30 credits required for graduation must be earned from Upper Iowa University.

You will normally have seven years (10 years for Independent Study Program learners) after initial enrollment to complete the baccalaureate program under the requirements in effect at the time of enrollment. If you do not complete the program within the specified time, the requirements in effect at the time of the next enrollment will be used to determine your graduation requirements. The University reserves the right to make changes in its academic regulations and requirements when, in its judgment, the best interests of the institution are served. In addition, changes in licensure requirements of the Iowa Department of Education may affect requirements for teaching certification.

### General Education Requirements

**General Education Requirements***
The teaching faculty at Upper Iowa University have worked together to design a core curriculum that is traditional, dynamic, and flexible. Over 150 years of success have proven the value of our liberal arts curriculum in producing well-rounded individuals.

**Note:** It is recommended that learners fulfill the general education requirements with courses different from those required in the major. Some majors have specific general education requirements.

* Requirements for teacher education learners may vary.

** Please see your academic advisor for math placement information.

## Associate Degrees

Associate degrees are offered by the Independent Study Program and some U.S. Centers. Check with your program staff to determine whether associate degrees are offered at your location. Associate degrees are not offered by the Online Program.

### General Business (Associate of Arts)
The purpose of a General Business Associate of Arts degree is to prepare the learner to meet the challenges of entry level positions in a rapidly evolving and increasingly computer-dependent business environment. It provides the learner with a broad-based preparation for business applications as well as for continued study towards a baccalaureate degree in business or other disciplines. A minimum 2.0 GPA in the General Business Associate of Arts is required for graduation.

Bachelor Degrees

Those graduating from programs offered through the Academic Extension will receive a Bachelor of Science (Bachelor of Arts for elementary education learners). Learners cannot seek two of the same degrees at UIU. That means that if an individual earns a Bachelor of Arts, then a second Bachelor of Arts is not allowed. However, if you are the holder of a Bachelor of Arts from UIU, you can seek the Bachelor of Science from UIU. Additional majors may be earned and will be reflected on the UIU transcript.

A double major requires completion of two Senior Projects, one for each major.

Business

Upper Iowa University offers several degree programs that will prepare you to meet the challenges of a rapidly evolving and increasingly computer-dependent business environment. Special emphasis is placed on the organizational, analytical and professional skills required for success in the major business areas. UIU graduates are well prepared to deal with individuals, groups, ideas and technology.

All business majors require the completion of the general education courses, the business core, and 21 to 27 credits in a specific major.

Double majors are allowed (except for the combination of Business Administration and Management) and involve completing all the courses listed in each major and a Senior Project for each major. Please refer to the individual requirements as listed in the major area.

Business Core (36 credits)
The purpose of the business core is to provide a learner with a foundation of competence in order to meet organizational goals and objectives in business enterprises.

Accounting Major
The purpose of an accounting major is to build on the foundation of the business core to enable the learner to understand accounting theory and its applications in the areas of financial, tax, not-for-profit and managerial accounting and in the practice of auditing.

The accounting major consists of 60 semester credits, including the business core of foundation courses. In addition, learners must complete the general education requirements outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree. At least 18 credits in this major must be earned in upper division coursework. A minimum 2.0 GPA in the major is required for graduation.

To meet requirements for taking the Uniform Certified Public Accountant examination, and to be exposed to all topics usually covered on the exam, those who expect to sit for the exam should also take BA 324 (Federal Taxation II), both BA 421 (Managerial Cost) and BA 422 (Product Cost), both BA 431 (Advanced Financial and BA 432 (Nonprofit), and BA 303 (Business Law II). For CPA requirements in your state, contact your state board of accountancy.

A minimum of nine semester credits of upper division accounting course work must be completed with a four-year accredited institution.

Business Administration Major
The purpose of a business administration major is to build on the foundation of the business core to provide the learner with a broad-based preparation for business while emphasizing at least two business disciplines. This major provides the learner with an individualized plan to maximize career flexibility.

The business administration major consists of 57 semester credits, including the business core of foundation courses. In addition, students must complete the general education requirements outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of
Science degree. At least 18 credits in this major must be earned in upper division coursework. A minimum 2.0 GPA in the major is required for graduation. Students may not add management as a second major if business administration is the first major.

### Human Resources Management Major

The purpose of a human resources management major is to build on the foundation of the business core to enable the learner to apply specific skills, knowledge and ethical standards for strategic planning, staffing, training and development, compensation and employee relations.

The human resources management major consists of 60 semester credits, including the business core of foundation courses. In addition, students must complete the general education requirements outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree. At least 18 credits in this major must be earned in upper division coursework. A minimum 2.0 GPA in the major is required for graduation.

### Management Major

The purpose of a management major is to build on the foundation of the business core to enable the learner to apply theoretical organizational strategies to practical business situations and to present, analyze and evaluate options to effectively integrate material and human resources for enhanced productivity toward a socially responsible end.

The management major consists of 54 semester credits, including the business core of foundation courses. In addition, students must complete the general education requirements outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science de-
gree. At least 18 credits in this major must be earned in upper division coursework. A minimum 2.0 GPA in the major is required for graduation. Students may not add business administration as a second major if management is the first major.

Management Information Systems Major
The Management Information Systems (MIS) major is designed to prepare learners to be able to manage hardware and/or software systems in businesses of any size. With a required combination of technological and business courses, the major provides the learner with the knowledge needed to make decisions related to information technology that will improve the business’ success.

The MIS major consists of 63 semester credits, which includes the 36-credit business core foundation courses. In addition, the learner must fulfill all general education requirements and complete additional electives to satisfy the 120 semester credit requirement for a Bachelor of Science degree. A minimum GPA of 2.0 is required for graduation. At least 18 credits in this major must be earned in upper division coursework. A minimum 2.0 GPA in the major is required for graduation.

Marketing Major
The purpose of a marketing major is to build on the foundation of the business core by enabling the learner to apply marketing theory and principles as well as to research and critically evaluate the marketing implications of current events, emerging trends and changing perspectives in the international marketplace.

The marketing major consists of 54 semester credits, including the business core of foundation courses. In addition, learners must complete the general education requirements outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree. At least 18 credits in this major must be earned in upper division coursework. A minimum 2.0 GPA in the major is required for graduation.

Communications
Communication studies majors have the opportunity to learn about the central role communication has in our lives. Students learn to identify, analyze, and evaluate various communication goals and successfully adapt messages to the demands of complex situations. As a global citizen, students learn to understand, value, and manage diverse communication behaviors associated with people from other groups, organizations, and cultures. As communication professionals, students gain competence in the
theoretical and ethical foundations that inform research, organizational, and professional practices.

The communications major consists of 39 semester credits. In addition, learners must complete the general education core outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree. At least 18 credits in this major must be earned in upper division coursework. A minimum 2.0 GPA in the major is required for graduation.

The purpose of the health services administration major is to prepare the learner to understand the health system and health care financing, to manage diverse groups and to identify new markets.

The health services administration major consists of 42 semester credits. In addition, learners must complete the general education core outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree (see specific general education requirements listed below). A minimum 2.0 GPA in the major is required for graduation.

**Specific General Education Requirements:**

**Mathematics**
- MATH 220 Elementary Statistics 3

**Social Sciences**
- PS 100 U.S. Government 3
- BA 160 Microeconomic Principles 3

**Human Services**

The purpose of a human services major is to prepare a learner to understand the socioeconomic, psychological and political foundations of a multicultural society and to utilize that knowledge to identify needs and to coordinate and provide appropriate social services.

The human services program is offered to those learners who intend to pursue careers in the human services area after graduation. It also provides excellent preparation for those wishing to continue their education in graduate school.

The human services major consists of 36 semester credits, with at least 18 credits in upper division coursework. (For all learners at Illinois Centers 24 or more upper division credits must be completed in the major.) In addition, learners must complete the general education core listed on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree (see specific general education requirements listed below). A minimum 2.0 GPA in the major is required for graduation.

*Note: To apply for a social work training certificate, the State of Wisconsin requires learners to have grades of C or above in all social work equivalency courses (PSY/SOC 383, 391, 392, 393, and SOC 384) and at least a 2.5 GPA in the major. Students must meet specific standards and demonstrate identified competencies through an assessment process before they will be approved for an internship. This degree plan has been approved by the Wisconsin Department of Safety and Professional Services (DSPS). The social work equivalency courses may also be incorporated into UIU’s Psychology or Criminal Justice majors per DSPS rules. Completion of the major does not guarantee social work certification. For clarification of these and other state requirements, please contact the DSPS.

Interdisciplinary Studies  
The purpose of the interdisciplinary studies major is to integrate content from more than one discipline to examine themes, issues, problems or experiences. It is designed to provide maximum flexibility to learners and allow them to significantly contribute to the design of their specific program. This interdisciplinary approach allows learners to combine various academic concentrations into a degree program to maximize their specific interests and achieve their particular educational objectives. The interdisciplinary studies major is flexible in scope and enables the pursuit of a wide variety of interests. Learners are encouraged to explore new relationships between established areas of knowledge and to take an active part in the design of their personalized curriculum.

Learners are required to identify integrative themes or topics in their majors. These themes and topics help the learners identify goals for their majors. The major requires the students to define five goals. Four of the five goals must be chosen from existing Academic Extension major goals already defined for other Academic Extension majors. No more than three of the goals can come from one discipline. The fifth goal can be developed by the learner in conjunction with the instructor in the Strategies for Success in College course. For those using goals from any of the business majors, no goals may come from the business core goals. The entire plan is then approved by both the instructor and the Senior Project Faculty and the Director of Academic Assessment before the student is allowed to proceed.

The interdisciplinary studies major consists of 36 semester credits, with at least 18 credits in upper division coursework. (For all learners at Illinois Centers 24 or more upper division credits must be completed in the major.) No more than 15 credits may be taken in any one academic discipline or field of study and applied to the major and no more than three goals can be from the same discipline. No more than six credits in this major may be earned through the Experiential Learning Portfolio process. A minimum of six credits in the major must be completed from UIU. In addition, students must complete the general education core listed on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree. A minimum of 2.0 GPA in the major is required for graduation.

Nursing
The mission of the Upper Iowa University Nursing Program is to provide a student-centered nursing education program promoting nursing leadership and clinical expertise in an environment in which diversity is respected, encouraged, and nurtured. Nursing Faculty By-laws, 2008
The purpose of Upper Iowa University’s RN-BSN program is to enhance the knowledge, skills and attitudes of the registered nurse practicing in a rapidly changing health care environment. Our specific program goals are listed below. By the end of the RN-BSN program the graduate will be able to:

- Goal 1. Integrate theoretical knowledge and evidence-based practice in a collaborative healthcare delivery environment.
- Goal 2. Demonstrate leadership and teamwork to improve outcomes in a variety of settings.
- Goal 3. Manage technology and resources to communicate, support, and provide quality care across the health care continuum.
- Goal 4. Develop practices of life-long learning through seeking knowledge and assimilating professional standards, ethical principles, and legal accountability in nursing practice.

We facilitate graduate attainment of these goals through active learning opportunities in both online and classroom environments. Students apply the knowledge, skills and attitudes in clinical settings through precepted experiences. We are committed to the advancement of professional nursing through baccalaureate education. Upper Iowa University has been developing leaders in many fields since 1857…the nursing program continues that tradition! The nursing program is accredited by the Iowa Board of Nursing and the Commission on Collegiate Nursing Education.

Major in Nursing
Upper Iowa University offers an RN to BSN program at the Fayette campus, Cedar Rapids Center, Des Moines Center, and Mary Greeley Medical Center in Ames.

Prior to admission to the nursing program, students must show evidence of the following:

1. Current Iowa Licensure (or current RN licensure in the state the program is offered)
2. Current CPR verification
3. Completed Health Record form
4. Criminal Background check with the Iowa Division of Criminal Investigation (or with the state the program is offered).
5. An overall college grade point average (GPA) of 2.5.

The UIU nursing program requires the successful completion of 11 courses (36 credit hours). The BSN degree requires the successful completion of a total of 120 semester hours, including transfer credit, and credit for coursework completed at UIU. All courses required for the nursing major must be completed with a grade of C- or above. If a grade below a C- is received, the course must be repeated. A course may only be repeated once.

Psychology
The purpose of a psychology major is to enable a learner to interpret psychological theory utilizing scientific methodology in order to apply that knowledge to describe, analyze, predict, and shape human behavior.

The study of psychology offers the opportunity to learn about the origins and development of human behavior and mental processes and the factors that influence change. Psychology provides a valuable foundation of knowledge important in a wide variety of fields, including human services, business, law, education, communications and health. The program in psychology may also lead to graduate preparation for professional psychology.

The psychology major consists of 36 semester credits, with at least 18 credits in upper division coursework. (For all Illinois learners, 24 or more upper division credits must be completed in the major.) In addition, learners must complete the general education core outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree. A minimum 2.0 GPA in the major is required for graduation.

Public Administration
The purpose of a public administration major is to prepare a learner to understand public organizations and to utilize that knowledge to manage, plan and administer public policy.

Learners may complete a general public administration major, a public administration major with a law enforcement emphasis, or a public administration major with a fire science emphasis by completing the public administration core (27 credits) and the additional nine semester credits in the specific area of emphasis.

In addition, learners must complete the general education core listed on page 30, along with additional elective credits to complete the 120 semester credits required for the bachelor of science degree. At least 18 credits in this major must be earned in upper division coursework. A minimum 2.0 GPA in the major is required for graduation.

Law Enforcement or Fire Science Emphasis:
The public administration core of 27 credits and emphasis of nine credits must be completed for a total of 36 semester credits.

These areas of emphasis are designed to build on relevant prior learning in law enforcement and fire science by adding management and social science perspectives to prepare a learner to understand public organizations and to utilize that knowledge to manage, plan and administer public policy in the areas of police and fire science.

The public administration major with an emphasis in law enforcement or fire science is a unique program that is only available to those individuals who have completed related college courses, training in law enforcement or fire science, and/or who have extensive work experience in law enforcement or fire science. Eligibility for this emphasis is dependent upon documentation of completion of: an associate degree in a field related to law enforcement or fire science, a basic police recruit or fire science academy, or transfer or completion of 15 semester credits of related coursework. Eligibility may also be determined based on a combination of experiential learning and college credit. The minimum 15 semester credits of related credit count toward the 120 semester credits for degree completion as electives.

Social Science
The purpose of a social science major is to prepare a learner to understand the broad implications of the various social science disciplines and to utilize that knowledge as a philosophical and
Theoretical foundation for personal, professional or educational growth. (Teacher Education majors see page 42.)

The social science program prepares learners for professional or graduate study in history, economics, political science, psychology and sociology. The program complements degree programs in related disciplines for learners planning careers in law, business and public administration, and develops teachers both of the broad social science spectrum and of the specialized disciplines within that spectrum.

The program is designed to make effective contributions to the general education of all learners, regardless of their majors, and to provide the philosophical and theoretical background necessary for successful careers in such technical areas as law enforcement and social work.

The social science major consists of 39 semester credits. A minimum of 18 semester credits must be selected from upper division coursework. In addition, learners must complete the general education core outlined on page 30, along with additional elective credits to complete the 120 semester credits required for the Bachelor of Science degree. A minimum 2.0 GPA in the major is required for graduation.

**Credits**

At least one introductory level course from one of the following areas:
- American History
- Anthropology
- Economics
- Geography
- Political Science
- Psychology
- Sociology
- World History

At least one of the following:
- EDU 152** Assessment and Psychology
- PSY 373* Research Methods
- PSY 444* Assessment
- Other social science research methods course

At least one of the following:
- EDU/PSY 142 Human Growth, Development and Guidance
- PSY 201 Adjustment
- PSY 212 Developmental Psychology: Birth to Adolescence
- PSY 222 Developmental Psychology: Young Adulthood to Late Adulthood
- PSY 335 Biology and Behavior
- PSY/SOC 383 Human Behavior in the Social Environment
- PSY 397 Social Gerontology
- PSY 432 Personality

At least one of the following:
- SOC 220 Social Problems
- PSY/SOC 232 Group Dynamics
- PSY/SOC 260 Gender Roles
- PSY/SOC 310 Social Psychology
- SOC 361 Marriage and the Family
- SOC 363 Social Stratification
- SOC 384 Social Welfare Programs and Policies
- PSY 454 Issues and Ethics in the Helping Professions

At least one of the following:
- ANTH 110 Introduction to Cultural Anthropology
- EDU 162 Diversity for Teachers**
- SOC 240 Diversity in the United States
- Other social science cultures course

Social Science Electives

Senior Project:
- ID 498_10 Senior Project

The minimum 39 semester credits must be from at least three different subject matter areas (American History, Anthropology, Geography, Economics, Political Science, Psychology, Sociology, World History).

* MATH 220 Elementary Statistics is a prerequisite for this course.
** This course does not count toward the 39 credits required in the major.

**Minor Concentrations**

Minors are optional. In order to be awarded a minor, students must complete at least one course at Upper Iowa University in the minor concentration.

**Note:** If a course is required in both the major and the minor, it is accepted in both places. It is still counted only once toward the 120 credits needed for graduation. If the course is part of an either/or selection, one course is applied to the major and the other must be taken for the minor.

**Business Minors**

**Accounting Minor**

This minor is designed for students who have a major in business administration, financial management, human resources management, management, management information systems, or marketing.

TEACHER EDUCATION REQUIREMENTS
(For Iowa Teacher Licensure Only)
Upper Iowa University’s Teacher Education Program is committed to preparing teachers who are well-informed, reflective, professional, competent and sensitive to the diverse needs of their pupils. Each teacher education learner is provided with current, practical, applied knowledge and a variety of classroom experiences. The Teacher Education Program is dedicated to the development of teachers with personal education philosophies and systems of beliefs that encourage a lifelong commitment to inquiry and excellence.

Teacher preparation at Upper Iowa University includes performance-based assessment and practical teaching experience. The education curriculum has been designed to meet the changing educational demands; it includes a focus on literacy development, integrated instruction, higher order thinking skills and practical skills (flexible management, computer technology and early teaching experiences). Practicum experience is provided in the Foundations of Education course so that learners can serve as observers and participants in the regular classroom to help determine if they wish to continue in teacher education. Each learner then follows a sequenced series of courses to acquire the theoretical background, instructional techniques, management strategies and practical skills needed to be a competent educator.

To obtain desired endorsements and licensure, learners will need to plan their program early in the college experience and work closely with academic advisors to ensure that course work and performance requirements leading to state licensure are being met in a timely manner. Learners must successfully pass a basic academic skills exam (reading/literature, writing, mathematics) and maintain an adequate grade point in their major, in all education courses, and cumulatively.

A Department of Criminal Investigation (DCI) background check is required before learners are allowed to participate in experiences in the field. Upper Iowa University does not discriminate in acceptance or in placement of field experience and student teachers on the basis of sex, age, race, color, creed, disability or national/ethnic origin.

All learners seeking initial licensure are strongly advised to re-take education methods courses if these courses were completed prior to 10 years from their most recent enrollment at Upper Iowa University. Learners must complete their program requirements within seven years of initial enrollment or be subject to current program requirements. In addition, changes in licensure requirements of the Iowa State Board of Educational Examiners may affect requirements for learners seeking certification to teach.

Upper Iowa University’s Teacher Education Program is approved by the Iowa State Board of Education. Individuals seeking initial teacher licensure must complete Upper Iowa’s approved requirements to be recommended for teacher licensure.

Note: To obtain teacher licensure from the State of Iowa, individuals need to be at least 21 years of age.
Endorsements
Learners may prepare for a teaching license by completing an elementary education major and a specific K-8 or prekindergarten endorsement. Learners may prepare for secondary classroom licensure (grades 5-12) in a specific subject area by completing the professional education requirements (see page 45) and required content area courses as listed in Upper Iowa's approved programs that are on file with the Iowa Department of Education. Those who hold certification to teach may also add an additional endorsement or endorsements at the PreK-K, K-8 and 5-12 levels. Contact the Teacher Education Coordinator for the specific requirements of the PreK, K-8 and 5-12 endorsements and learn the requirements for obtaining licensure to teach additional grade levels or subject matter. Learners must have a grade point average (GPA) of 2.70 or above for each endorsement.

The following is a listing of endorsements available at Upper Iowa University’s approved centers.

Endorsement Number

100 Teacher-PreK-Grade 3 including Special Education PreK-3
102 Teacher – Elementary Classroom K-6
103 Prekindergarten-Kindergarten PreK-K
104 ESL K-12
106 Prekindergarten-Grade 3 PreK-3
119 English/Language Arts K-8
148 Reading K-8
149 Reading 5-12
157 Social Science – American Government 5-12
158 Social Science – American History 5-12
160 Social Science – Economics 5-12
163 Social Science – Psychology 5-12
164 Social Science – Social Studies K-8
165 Social Science – Sociology 5-12
186 All Social Science 5-12
260 Instructional Strategist I: Mild/Moderate K-8
261 Instructional Strategist I: Mild/Moderate 5-12
263 Instructional Strategist II: Behavior Disorders/ Learning Disabilities K-12
264 Instructional Strategist II: Mental Disabilities K-12
1171 Business-All 5-12
1821 Middle School Language Arts 5-8
1822 Middle School Math 5-8
1823 Middle School Science 5-8
1824 Middle School Social Studies 5-8

Overview Of Teacher Education Program
The assessment of the Teacher Education Program (TEP) system has four major “checkpoints:” (1) admission to the Teacher Education Program, (2) the completion of Field Experience, (3) admission to student teaching, and (4) completion of student teaching. At each checkpoint, information relevant to the learner’s performance in the Teacher Education Program (TEP) will be collected and evaluated. Although the assessment system will focus on learner performance at four “checkpoints,” the learner will continue to provide evidence of knowledge and skills in the other aspects of the TEP by completing all EDU courses with a grade of “C-” or higher and by demonstrating acceptable levels of performance on all essential (required) elements of courses as indicated by course syllabi.

Completion of the UIU Teacher Education Program requires successful passage through four checkpoints:

Checkpoint 1 - Admission to the Teacher Education Program
All learners who are seeking initial licensure to teach must be admitted to the Upper Iowa University Teacher Education Program.

Requirements for admission into the Teacher Education Program:

1. Learners must successfully complete EDU 110 Foundations of American Education with a grade of “C-” or above and successfully complete the Foundations practicum (completed 20 hours, was prompt, scored “Fair” or better on personal attributes).

2. Learner must earn an Upper Iowa University cumulative grade point average (GPA) of 2.70 or above.

3. From two learner-selected instructional staff members, learner must have acceptable ratings on the Assessment of Dispositional Professional Qualities in Teacher Education Program Pre-service Educator: Admittance to Teacher Education Program.

4. Learner must successfully pass the College Basic Academic Skills Exam (C-BASE) in Reading and Literature, Writing and Mathematics with the following minimum scores:
   - Reading and Literature — 235
   - Writing — 235
   - Mathematics — 235

Each section of the exam may be taken a maximum of three times. (Praxis I PPST scores of 170 minimum in each area are also accepted.)

Learners need to be admitted into the Teacher Education Program to register for Field Experience and to register for many of the EDU courses required in their programs.

Checkpoint 2 - Field Experience
A learner admitted to the Teacher Education Program will complete 40 hours of field experience at the same time he/she takes the appropriate methods course and will complete a second 40-hour field experience when he/she takes an appropriate advanced methods class.

In addition to helping the learner to “see into the daily life of the classroom teacher” through the activities completed at the field experience site, the learner will engage in classroom activities and will complete various assignments to understand more deeply the Iowa Teaching Standards and Criteria. At the end of each forty 40-hour placement the learner will be assessed on his/her knowledge of these standards and criteria.
Requirements for Student Teaching:

1. Learner must be admitted to the Teacher Education Program.
2. Learner must successfully complete appropriate field experience(s) with a grade of “C-” or better.
3. Learner must have met all competencies required within standards set by the University and Iowa Department of Education.
4. From two learner-selected instructional staff members, learner must have acceptable ratings on the Assessment of Dispositional Professional Qualities in Teacher Education Program Pre-service Educator: Admittance to Student Teaching.
5. Learner must complete the general education requirements listed on page 30 with these specific qualifications:
   a. The following courses must be completed with a grade of “C-” or better:
      Basic Composition
      English Composition II
   b. A physical science and a biological science course must be used to meet the natural science requirement.
   c. EDU 162 Diversity for Teachers may be used to meet the culture requirement.
   d. EDU/PSY 142 Human Growth, Development and Guidance may be used to meet a psychology requirement.
6. Learner must complete each required education course (prefix EDU) with a grade of “C-” or better.
7. If an elementary education major, a learner must complete all requirements for the major and all requirements for at least one specific endorsement area (as required to be eligible for an Iowa teaching license).
8. Learner must attain a GPA of 2.70 Upper Iowa University cumulative, 2.70 in the major to include transfer courses applied to the major and 2.70 in each PreK, K-8 or 5-12 endorsement area to include transfer courses in which the learner is seeking licensure.
9. Learner must complete and submit application materials to student teach to the Teacher Education Coordinator.

Note: A learner may have no more than six general education semester credits of total course work remaining prior to the start of the student teaching experience. The remaining course work may not be in the learner’s major, in the professional education core, in the first specific endorsement area, or in the general education requirements of Composition I, Composition II, speech and computer applications.

Federal regulation requires learners wishing to be recommended for initial Iowa licensure to teach at the elementary level and early childhood level to take a content test and attain a qualifying score. Completion of the teacher education program and a qualifying score on the content test do not guarantee a candidate recommendation for teacher licensure. Serious deficiencies shown by the candidate in one or more areas of personal or professional development could result in no recommendation or additional preparation by the candidate.

Checkpoint 4 - Completion of Student Teaching

Student teaching is the culminating experience in the Teacher Education Program. As a part of the student teaching experience, the learner will develop and teach instructional units. The learner will also complete a Teacher Work Sample based on an instructional unit. Overall, student teaching will be assessed through the cooperating teacher’s evaluation, the supervisor’s evaluation, and the learner’s scores on the Teacher Work Sample.

Teacher Work Sample

Successful teacher candidates will support learning by designing a Teacher Work Sample that employs a range of strategies and builds on each student’s strengths, needs, and prior experiences. Through this performance assessment, the learner will provide credible evidence to facilitate learning and display dispositions aligned with the Interstate New Teacher Assessment and Support Consortium (INTASC) by meeting the following Teacher Education Program standards:

- Considers Contextual Factors: The teacher uses information about the learning-teaching context and individual student differences to set learning goals and plan instruction and assessment.
- Identifies Learning Goals: The teacher sets significant, challenging, varied and appropriate learning goals.
Establishes Assessment Plan: The teacher uses multiple assessment modes and approaches, aligned with learning goals, to assess student learning before, during, and after instruction.

Creates Design for Instruction: The teacher designs instruction for specific learning goals, student characteristics and needs, and learning outcomes.

Makes Instructional Decisions: The teacher uses ongoing analysis of student learning to make instructional decisions.

Analyzes Student Learning: The teacher uses assessment data to profile student learning, and communicate information about student progress and achievement.

Manages Classroom Environment: The teacher uses appropriate strategies to maintain standards of responsible student behavior.

Reflects and Evaluates Professional Practices: The teacher analyzes the relationship between his or her instruction and student learning in order to improve teaching practices.

The Teacher Work Sample will be assessed by two readers using standardized rubrics. The Teacher Education Program will collect and evaluate the following information at this checkpoint:

- Rating on Work Sample Rubric for Contextual Factors
- Rating on Work Sample Rubric for Learning Goals
- Rating on Work Sample Rubric for Design for Instruction
- Rating on Work Sample Rubric for Instructional Decision Making
- Rating on Work Sample Rubric for Assessment Plan
- Rating on Work Sample Rubric for Analysis of Student Learning
- Rating on Work Sample Rubric for Classroom Management
- Rating on Work Sample Rubric for Reflection and Self Evaluation
- Rating on Work Sample Rubric for Written Communication

Professional Education Core Requirements
Candidates for an initial teaching license must complete a major in Prekindergarten-Grade 3, a major in Elementary Education or a major in a secondary teaching subject area. Candidates must complete the following approved professional education courses:

<table>

*Professional Education Core Field Experiences must be taken concurrently with methods courses. For Elementary Education, Prekindergarten-Grade 3, and Prekindergarten-Grade 3 including Special Education majors, EDU 206 Field Experience I: Elementary must be taken concurrently with EDU 315 Teaching Elementary Social Studies. EDU 226 Field Experience II: Elementary, EDU 234 Field Experience: Infant/Toddler and/or EDU 235 Field Experience: Prekindergarten is to be taken concurrently with EDU 305 Teaching Elementary Science, EDU 315 Teaching Elementary Social Studies, EDU 325 Teaching Elementary Math, or EDU 335 Teaching Elementary Language Arts. Secondary majors complete EDU 207 Field Experience I: Secondary concurrently with EDU 233. EDU 227 Field Experience II: Secondary is to be taken concurrently with EDU 300.

Major in Elementary Education
This major consists of 89 semester credits (including professional education core requirements). In addition, to qualify for licensure, learners must also meet the requirements of a prekindergarten, middle level or K-8 endorsement in a specific area. The courses in the major are as follows:

Major in Social Science 5-12 (for Teacher Licensure)

Learners preparing to teach Social Science areas in the secondary school will meet the requirements for a Social Science major to include requirements in specific endorsement areas. Learners must complete a minimum of 39 major credits including at least one of the following endorsement areas: American History, American Government, or Economics, Sociology*, or Psychology*. The learner must complete 15 semester credits in each area in which they seek licensure. See your academic advisor for clarification of these requirements. The revised requirements for teacher licensure in Social Science have been submitted to the Iowa Board of Educational Examiners - please contact your advisor. *Must be done in conjunction with another endorsement.

A minimum of 30 upper division credits required; 15 credits in the major.

Elective in Economics 3

**Psychology Credits**

- EDU/PSY 142 Human Growth, Development and Guidance 3
- PSY 190 General Psychology 3
- PSY 310 Social Psychology 3

At least one of the following: 3
- PSY 323 Cognition
- PSY 338 Motivation

Elective in Psychology 3

**Note:** Those seeking secondary teacher certification in the State of Iowa in Psychology must already be certified at the secondary level or concurrently seeking endorsement in American History, American Government, or Economics.

**Sociology Credits**

- SOC 110 Principles of Sociology 3

Two of the following: 6
- SOC 220 Social Problems
- PSY/SOC 232 Group Dynamics
- SOC 363 Social Stratification

Electives in Sociology 9

**Note:** Those seeking secondary teacher certification in the State of Iowa in Sociology must already be certified at the secondary level or concurrently seeking endorsement in American History, American Government, or Economics.

**Major in All Social Science 5-12 (51 credits)**

The All Social Science 5-12 major is designed for students who wish to be licensed to teach all social science courses at the 5-12 grade level in the State of Iowa: American History, World History, American Government, Psychology, Sociology, Geography, and/or Economics. The revised requirements for teacher licensure in All Social Science have been submitted to the Iowa Board of Educational Examiners - please contact your advisor.

**Economics Credits**

- BA 160 Microeconomic Principles 3
- BA 161 Macroeconomic Principles 3

**Government**

- PS 100 U.S. Government 3
- PS 230 State and Local Government 3

One of the following: 3
- PS 362 The Legislative Process
- PS 411 American Constitutional Law I
- PS 412 American Constitutional Law II

**Psychology**

- PSY 190 General Psychology 3
- PSY 310 Social Psychology 3

**World History**

- HIST 100 World History to 1500 3
- HIST 101 World History since 1500 3
- An approved world history course 3

**American History**

- HIST 110 American History to 1877 3
- HIST 111 American History since 1877 3

One of the following: 3
- HIST 214 World at War, 1914-1945
- HIST 367 Atlantic Revolutions
- HIST 371 New Nation, 1787-1848
- HIST 372 Civil War and Reconstruction, 1848-1877
- HIST 373 Industrialization and Reform, 1877-1914
- HIST 374 Modern America, 1945-present

**Sociology**

- SOC 110 Principles of Sociology 3

One of the following: 3
- SOC 220 Social Problems
- PSY/SOC 232 Group Dynamics
- SOC 240 Diversity in the United States
- SOC 363 Social Stratification

**Geography**

- GEOG 100 Introduction to Physical Geography 3
- GEOG 200 World Regional Geography 3

**Certificate Programs**

Upper Iowa University offers a variety of certificate programs designed to provide learners an additional method to learn new skills in a specific area. These certificate programs, using existing UIU courses, provide an opportunity for you to gain experience in a specific area by successfully completing a cluster of college credit classes. You may also choose to use the courses as part of a degree program.

**Certificate courses for credit:** To pursue a certificate you must complete an application for admission as a non-degree seeking learner.

Acceptance into a UIU Certificate Program:

- Students with no College experience must submit an Official High School Transcript or GED.
- Students with previous college experience must submit a copy of their Official High School Transcript/Diploma or GED, and copies of any previous college transcripts.
Students accepted into a UIU Certificate Program do not qualify for Federal/State/Institutional Aid. Acceptance into a UIU Certificate Program does not guarantee admission into an Associate’s, Bachelor’s, or Master’s Degree Program.

**Certificate courses without academic credit:** If you decide to take the certificate courses with no academic credit, a completed Application for Admission is still required and you will be considered a non-matriculated student (see page 10). Upon registration, notify the program staff that you do not want academic credit for the course(s) and complete a Certificate Credit Waiver available through your program office.

**Current degree-seeking UIU learners** may seek a certificate while working on their degree program. Your academic advisor can assist in coordinating certificate courses as part of your degree program. No additional application or paperwork is necessary to begin working on your certificate.

Upon successful completion of all required courses in the certificate, a Certificate Claim Form must be completed. There is a certificate claim fee of $30. Certificates are awarded on the same dates as the established graduation dates published by the Registrar’s Office (see page 27). Certificate completion will not be posted on the transcript.

Financial aid is only available to learners who are degree-seeking with UIU and have gone through the standard application and award process. Financial aid is not available to non-degree seeking learners pursuing certificates.

As with other course preparation, prerequisite courses represent foundational knowledge the learner needs to be most successful. Your academic advisor can assist in the selection of the most appropriate sequence of courses to match your academic preparation.

Upper Iowa University will accept transfer credit towards the certificate, including courses taken at other accredited colleges/universities (see page 10), experiential learning portfolio credit through UIU, and CLEP (see policies listed on page 11). The amount transferred and applied to the certificate will not exceed nine of the 15 credits required. A minimum of six semester credits through Upper Iowa University must be completed to earn an Upper Iowa University certificate. If transfer credit is being used for the certificate, an official transcript must be provided.

The Certificate Programs available are:

**Emergency and Disaster Management Certificate**

- PA 306 Principles of Emergency Management
- PA 320 Political and Policy Basis of Emergency Management
- PA 332 Emergency Preparedness and Planning
- PA 346 Disaster Response and Recovery

One of the following:

- PA 404 Integrated Emergency Management
- PSY 409 Psychology of Disaster
- PA 414 Principles and Practice of Hazards Mitigation
- BA 449 Business and Industrial Crisis Management

**Human Resources Management Certificate**

- BA 210 Management Principles
- BA 361 Human Resources Management

Three of the following:

- BA 371 Training and Development
- BA 383 Compensation and Benefits Management
- BA 393 Personnel Selection and Evaluation
- BA 411 Labor Relations and Negotiation

**Management Certificate**

- BA 210 Management Principles
- BA 225 Business Ethics
- BA 317 International Management
- BA 361 Human Resources Management
- BA 362 Supervision or
- BA 365 Leadership Theory

**Marketing Certificate**

- BA 208 Marketing Principles

Four of the following:

- BA 227 Services Marketing
- BA 315 Sales Management
- BA 355 Retailing
- BA 358 Consumer Behavior
- BA 363 Advertising and Integrated Marketing Communications
- BA 380 Marketing Management

**Organizational Communications Certificate**

- COMM 100 Interpersonal Communications
- PSY/SOC 232 Group Dynamics
- PSY 240 Conflict Resolution
- COMM 305 Organizational Communications
- BA 374 Business Communications

**Organizational Leadership Certificate**

- BA 210 Management Principles
- BA 362 Supervision
- BA 365 Leadership Theory
- BA 390 Complex Organizations

One of the following:

- BA 225 Business Ethics
- BA 370 Entrepreneurship and Small Business Management
UNDERGRADUATE COURSE DESCRIPTIONS

Courses offered by Center, Independent Study and Online Programs vary from year to year. Check your program for course availability.

Anthropology

ANTH 110  Introduction to Cultural Anthropology  3 credits
This course provides an introduction to cultural anthropology: in particular, the concept of culture and how it interpenetrates various domains of organization and activity – such as adaptation, subsistence, economy, politics, and kinship – in a wide variety of societies and groups. Changing theoretical approaches, fieldwork, ethnography, cross-cultural analysis and comparisons, complex society, and local-regional-global perspectives will all be addressed. Meets firstly the cultures requirement or secondly the social science requirement, but not both.

ANTH 206  Introduction to the Hmong Culture and Language  3 credits
A multidisciplinary study of the Hmong culture utilizing the contributions of anthropology, history, sociology, art and religion including a rudimentary study of the Hmong language. Meets the cultures requirement.

ANTH 310  Political Anthropology  3 credits
This course will focus on the variety of political understandings, processes, and systems that have existed and exist in non-state societies, and state societies at both the centers and the margins of power. Agents, structures, and institutions of power will be looked at to highlight cultural variability in the practice of politics. Meets firstly the cultures requirement or secondly the social science requirement, but not both.

Art

ART 100  Introduction to Art  3 credits
An introduction to the visual arts through study of the elements of art, the various art forms and a chronological study of art history. Meets the humanities requirement.

ART 109  Two Dimensional Foundations  3 credits
This course introduces the elements, principles and factors of two dimensional design. A sequenced investigation into the dynamics of various organizing principles using traditional and contemporary media. Development of visual awareness, analytical thinking, craftsmanship, and use of media and techniques will be addressed. Meets the humanities requirement.

ART 110  Drawing  3 credits
A foundation course in drawing media and techniques; focusing on the study of objects and natural forms in problems of analysis and composition. Meets the humanities requirement.

ART 111  Design  3 credits
This course in an introduction to the elements of principles of design. It will explore the role of visual elements and design practices in various cultural, historical, and political contexts, and will emphasize the processes and techniques of graphics design and production. Meets the humanities requirement.

ART 211  Art History I  3 credits
This course studies the development of Western art from the prehistoric period to the Renaissance. Meets the humanities requirement.

ART 212  Art History II  3 credits
An exploration of the history of art from the Renaissance to the present. Concern is given to the major movements and artists and the various influences that affected their development. Meets the humanities requirement.

ART 218  Digital Photography  3 credits
Digital photography processes and techniques that include image capture with digital cameras, digital editing in Photoshop, and image presentation in web-based and color print formats. Fieldwork emphasizes capturing artistic subjects in natural light and natural settings. Lab work includes optimizing resolution and editing for content and aesthetics. Final presentations require students to create individual portfolios of original work that meet professional standards. Meets the humanities requirement.

ART 235  Graphic Design  3 credits
Acquaints the beginning designer with the basic principles, terminology and methods used to solve graphic design problems and explores the integration of typography and visual elements to communicate ideas. Students learn to understand and evaluate information and learn the value of research in creating design solutions. Assignments are devised to emphasize and encourage conceptual thinking. Prerequisite: ART 109. Meets the humanities requirement.

ART 251  Typography  3 credits
Essential experience in the craft of typography and type specification. Students develop a full understanding of the terminology used by typographers and learn to work with type intelligently and creatively through study of the history of type design and exploration of the symbolism inherent in different typefaces and their relationship to other graphic elements. Meets the humanities requirement.

ART 330  Watercolor/Water Media  3 credits
An exploration of the transparent watercolor medium and its materials and techniques. Prerequisite: ART 110.
ART 372  Survey of American Art  3 credits
An introduction to understanding the art of our past so that we may better understand our culture of the present. Study includes the architecture, painting, sculpture and decorative arts from the colonial era to the present. Meets the humanities requirement.

ART 410  Advanced Drawing  3 credits
Specialized problems in drawing are presented in this course, designed to extend the range of each student’s technical and expressive capability. Note: There is a lab fee for this course. Prerequisite: ART 110.

Biology
BIO 100  General Biological Science  3 credits
This course presents the basic concepts of biology; it is a practical course for the understanding of modern biological problems and their solutions. Non-laboratory. Meets the science requirement.

BIO 106  Biology of HIV/AIDS  3 credits
This course focuses on the history of HIV/AIDS, ecology of AIDS, immune system and HIV, basic research, epidemiology, current testing procedures, general counseling techniques, basic legal aspects, general knowledge and sensitivity. Meets the science requirement.

BIO 164  Biology of Healthful Living  3 credits
Creates a learning environment which provides to learners practical/applicable information related to the biological sciences; especially the areas of fitness and nutrition and their impacts on individual’s biological systems. Non-laboratory. Meets the science requirement.

BIO 215  Local Field Science  3 credits
This course is designed as an exploration of biological, physical and plant sciences of the local area. Note: Same as PHY 215. Meets the science requirement.

Business
BA 160  Microeconomic Principles  3 credits
This course explores consumer choice and producer behavior, price theory, monopoly/oligopoly and competitive market structures, production costs, labor and wages. Prerequisite: MATH 105 or above. May not be taken by learners who have completed BA 212. Meets the social science requirement.

BA 161  Macroeconomic Principles  3 credits
A look at unemployment and inflation, fiscal and monetary policies, GDP, poverty and income redistribution, exchange rates and international trade. Prerequisite: BA 160. May not be taken by learners who have completed BA 211. Meets the social science requirement.

BA 201  Accounting Principles I  3 credits
A study of accounting theory, record keeping, and the accounting cycle, with emphasis on accounting for the assets and related revenues and expenses reported on financial statements of a business organization.

BA 202  Accounting Principles II  3 credits
A continuation of BA 201, with emphasis on accounting for the liabilities, owners’ equity and related revenues and expenses reported in financial statements of a business organization; and preparation and analysis of financial statements and an introduction to managerial accounting including product costing using job orders and process costing systems and cost-volume-profit relationships is included in this course. Prerequisite: BA 201.

BA 208  Marketing Principles  3 credits
This course surveys the role of marketing and its place in society, in profit and not-for-profit organizations. Emphasis is placed on consumer orientation, the marketing concept, product, price, distribution and promotion. The course provides a basis of understanding for advanced marketing courses.

BA 210  Management Principles  3 credits
A look at modern management theory, including both functional and behavioral approaches to the administration of business enterprises.

BA 222  Management Information Systems  3 credits
A study of the procedures involved in the accumulation, processing and dissemination of various types of information within an organization. Prerequisites: BA 210 and MIS 101.

BA 225  Business Ethics  3 credits
A course that seeks to recognize the distinctive set of problems encountered in the work environment, to study contrasting theories currently being used to make ethical decisions, and to apply those theories through examples and case studies.

BA 227  Services Marketing  3 credits
This course will build upon knowledge of basic marketing and apply marketing theory to the service industry in the United States. Through required reading, lecture materials and individual research, each student will understand the strategy and practice of marketing services. Prerequisite: BA 208.

BA 250  Special Topics  3 credits

BA 281  American Economic History  3 credits
A study of major landmarks in the growth and development of the American economy; the evolution of agriculture, industry, transportation and finance; the influence of government and international determinants. Note: Same as HIST 281. Meets the social science requirement.

BA 288  Personal Financial Management  3 credits
A study of financial decisions made by individuals. Topics include: financial planning, financial management, purchasing decisions, insurance decisions, personal investing and retirement planning.

BA 302  Business Law I  3 credits
An introduction to the nature and sources of law, and the methods by which laws are made; basic principles of contract law and property law as the foundations for business enterprise; tort law governing business relationships.

BA 303  Business Law II  3 credits
A survey of particular fields of law relevant to business operations; agency, partnerships, corporations; sales, commercial transactions, and bankruptcy; antitrust law; employment law; consumer protection. Prerequisite: BA 302 recommended.

BA 310  Money and Banking  3 credits
A study of the commercial banking system; thrift institutions; the Federal Reserve System; money, interest rates, savings and credit, government regulatory institutions and policies. Prerequisite: BA 160.

BA 315  Sales Management  3 credits
This course provides an introduction to the recruitment, training, motivation and management of a sales force. Included is an introduction to basic personal selling techniques. Emphasis is placed on sales as an integral element of the promotional mix. Prerequisites: BA 208 and BA 210.

BA 317  International Management  3 credits
Presents a cross-cultural perspective on managing global organizations. Focuses on understanding the influence of culture on international management, and how managers in multinational organizations address such issues as strategic analysis, organizational structure, global coordination and control, communications, inter-organizational cooperation, and human resource management. Prerequisites: BA 210 and general education cultures requirement.

- **Intermediate Financial Accounting I**: An extension of the theory and principles of financial accounting, with emphasis on FASB pronouncements applicable to accounting for assets. Prerequisite: BA 202.

- **Intermediate Financial Accounting II**: An extension of the theory and principles of financial accounting, with emphasis on FASB pronouncements applicable to liabilities and owners’ equity, and Cash Flow Statements; as well as analysis and interpretation of financial position and results of operations of a business organization. Prerequisite: BA 321.

- **Federal Taxation I**: A study of the theory and application of federal tax law, with emphasis on income tax law applicable to individuals. Prerequisite: BA 202.

- **Federal Taxation II**: A continuation of BA 323, with emphasis on income tax law applicable to corporations, partnerships and fiduciaries; and transfer (gift and estate) taxes. Prerequisite: BA 323.

- **New Venture Creation**: This course focuses on the process of creating a startup, from the recognition of an opportunity to the launch of the business. It is designed to help students learn how to do the pre-launch activities necessary to start a business and secure its first customer. Prerequisites: BA 208 and BA 210.

- **Social Entrepreneurship**: Social Entrepreneurs apply entrepreneurial talent to create social value and innovative sustainable solutions to pressing societal challenges. Students will identify opportunities, develop unique solutions, secure scarce resources, and manage risk. Social entrepreneurship will be studied in the context of civil society where there is inherent tension between market forces and democratic citizenship principles. Prerequisites: BA 160 and BA 210.

- **Personal Selling**: Examines the role of personal selling in the consumer and industrial marketplace. Describes selling processes and customer relations. Includes role playing and time management exercises, instruction in proper dress and field experience in sales. Prerequisites: BA 208 and Junior status.

- **Corporate Financial Management**: An introduction to corporate financial management. Topics include financial statement analysis, time value of money, risk and return, bond valuation, stock valuation, capital budgeting and the capital asset pricing model. Prerequisites: BA 161 and BA 202 or permission of instructor.

- **Investments**: An exploration of investing in stocks, bonds and other financial instruments; securities exchanges; financial planning; technical and fundamental analysis and market indicators. Prerequisite: BA 341.

- **Risk Management**: Explores non-speculative risks in business and selected management devices for dealing with them; assumption, avoidance, transfer and reduction of risk; risk management decision; control of risk and reduction of losses; case studies in risk management.

- **Retailing**: This course is an introduction to retail marketing institutions and their operations. Stress is placed on a consumer orientation to facility location decisions, buying, pricing, staffing, promotion and management. Prerequisites: BA 208 and BA 210.

- **Quantitative Decisions in Business**: This course is designed for business students who have a good foundation in pre-calculus mathematics, algebra, and elementary statistics. Topics will include an introduction to business quantitative methodol-

- **Consumer Behavior**: This course provides a survey of research findings on consumer behavior drawn from marketing, economics, sociology, psychology, and anthropology. Emphasis is placed on applications of research to consumer satisfaction and on developing an understanding of the consumer decision-making process. Prerequisite for Marketing majors: BA 208. Recommended for all majors: BA 208, PSY 190, and SOC 110.

- **Human Resources Management**: An overview of the policies and procedures in personnel administration in American business, including uses, sources, motivation and maintenance of employees, with major emphasis on the dynamics of social organization. Prerequisite: BA 210.

- **Supervision**: A detailed examination of the fundamental concepts, principles and dynamics of the supervisory process. Prerequisites: BA 210 and BA 361.

- **Advertising and Integrated Marketing Communications**: This course examines advertising and its role in marketing. Included is a survey of the history of advertising, the media and communication models, and an introduction to the creative side of advertising. Emphasis is placed on the formulation of objectives for advertising programs. Prerequisite: BA 208 suggested, but not required for non-marketing majors.

- **Leadership Theory**: This course examines and contrasts process theories, relationship theories, and management theories of leadership. Various definitions of leadership and their underlying implications for application and research will be investigated. The role of the leader will be examined in relation to the various leadership theories and definitions. Prerequisite: BA 210 and BA 361.

- **Cross-Cultural Leadership**: Provides insight into the impact of culture on concepts of leadership, values, expectations, and patterns of communication. Examines how sensitivity to cultural differences can contribute to leadership effectiveness and explores strategies for effectively communicating and negotiating with individuals from other cultures. Prerequisites: BA 317.

- **Entrepreneurship and Small Business Management**: A presentation of the organization and operation of small enterprises in services, retailing, wholesaling and manufacturing for those aspiring to own, operate, and/or manage a small business or to work for an organization serving small businesses. Topics covered include importance, status, problems and requirements of small businesses. Prerequisite: BA 210.

- **Training and Development**: This course involves the evaluation and study of trends in human resource training, education and development activities within organizational settings. Prerequisite: BA 361.

- **Business Communications**: Application of writing skills specifically for business managers includes annual reports; routine, persuasive and special messages; proposals; and brochures. This course places written and oral business communication within the context of general communication processes and familiarizes learners with recent technological advances. Strategy for effective writing is emphasized by engaging in a variety of business writing tasks. Prerequisite: ENG 102.
BA 380  Marketing Management  3 credits
This course focuses on strategy, concepts, and techniques involving the marketing function in organizations, with emphasis on marketing planning and decision making. Prerequisite: BA 358.

BA 383  Compensation and Benefits Management  3 credits
Fundamental concepts of compensation theory, government and union influences, job analysis and evaluation, building and maintaining compensation structure, comparable worth, performance and salaries. Prerequisite: BA 361.

BA 390  Complex Organizations  3 credits
An exploration of the structural and functional characteristics of formal organizations such as corporations, government agencies, schools, etc. Special attention will be given to such topics as: theories of management from Taylor to Theory Z; the relations between the internal structure of organizations and the different forms of social stratification throughout American society—i.e. class, racial, ethnic, and gender stratification systems; and the new forms of management strategy in the global economy. Prerequisite: SOC 110.

BA 393  Personnel Selection and Evaluation  3 credits
Policies, procedures and problems in the selection of personnel, focusing on job analysis, validation, legal constraints, criteria and application of specific techniques. Prerequisite: BA 361.

BA 403  Internship  3 credits
Advanced students work in business-related employment in the major area of interest. Prerequisite: Senior status. Note: Normally, credit will be allowed in only one internship in business.

BA 411  Labor Relations and Negotiation  3 credits
The basic principles of manpower use, wage structure, use of industrial psychology and collective bargaining, the union movement, human relations in industrial management, and modern labor laws and institutions. Prerequisites: BA 210 and BA 361.

BA 414  New Product Development  3 credits
This course will take learners through each phase of new product development—Problem/Opportunity Analysis, Ideation/Concept Generation, Concept Evaluation, Market Testing and Market Launch. Prerequisite: BA 208.

BA 415  Cross-Cultural Negotiation  3 credits
Students will learn how to assess a culture to determine underlying assumptions regarding: social interaction, economic interests, legal requirements, and political realities. Students will then understand how these, in turn, affect expectations, outcomes, behavior, thoughts, and priorities. The course emphasizes negotiating deals, resolving disputes or making decisions in a multicultural environment. Prerequisites: BA 317 and BA 367.

BA 421  Managerial Cost Accounting  3 credits
A study of cost concepts and application related to the use of cost information by internal managers for purposes of planning, control, evaluation and decision making. Prerequisite: BA 202.

BA 422  Product Cost Accounting  3 credits
A survey of the principles and practices of accounting for and accumulation of costs to manufacture products, with emphasis on job-order and process cost systems; methods of overhead cost distribution, standard cost systems, and departmentalization for cost control. Prerequisite: BA 202.

BA 423  Production and Operations Management  3 credits
Production and operations management is designed to provide students with an in-depth look at the components of organizational operations and how they are managed. Successful management incorporates theories and practices that apply to a variety of operational areas involving factory and service operations, inventory management, quality management, capacity planning, supply chain management, aggregate planning, and project management. Elements of shop floor control, status reporting systems, facilities design, cost estimating, inventory control, procurement, quality assurance, forecasting, labor loading, scheduling, and productivity measurement will be explored. Important tools of production and operations management that will be covered include Theory of Constraints, MRP, MRPII, CAD/CAM, CIM, JIT, SPC, and TQM. Prerequisites: BA 210 and MATH 220.

BA 424  Global Marketing  3 credits
This course builds on topics from Marketing Principles, as applied to global situations. Emphasis is on the development of an appropriate marketing mix for international target markets. The importance of consumer orientation is stressed; international marketing research, consumer behavior and cultural sensitivity are examined. Prerequisites: BA 358 and completion of all business core requirements.

BA 425  Auditing  3 credits
An exploration of the concepts and procedures applicable to an audit of financial statements, with emphasis on procedures to substantiate amounts reported; along with the impact of internal control, quality of available evidence, and statistical sampling on the determination of appropriate procedures. Prerequisites: Senior status and BA 322.

BA 431  Advanced Financial Accounting  3 credits
An extension of the theory and principles of financial accounting, with emphasis on FASB pronouncements applicable to accounting for business combinations, foreign operations and partnerships. Prerequisite: BA 322.

BA 432  Accounting for Not-For-Profit Organizations  3 credits
An overview of the theory and application of FASB and other authoritative pronouncements related to accounting for governmental, fiduciary and other not-for-profit organizations. Prerequisite: BA 202. Successful completion of BA 322 recommended.

BA 442  Intermediate Financial Management  3 credits
A study of long-term financial decisions made by managers (e.g., capital structure, dividend policy, lease-or-buy, mergers, issuance of new securities). Prerequisite: BA 341.

BA 444  New Venture Finance  3 credits
This course provides a framework for analyzing the relationship between strategy and finance and methods used to value a high-growth company. New ventures are analyzed in terms of their technical, competitive, and business risks. Prerequisites: BA 160, BA 161, BA 325, and BA 341.

BA 445  Contemporary Topics in Management  3 credits
This course description may change each term it is offered to cover the most contemporary management issues. Prerequisite: BA 210.

BA 449  Business and Industrial Crisis Management  3 credits
Through case studies and discussion learners explore governmental emergency management and private sector crisis management in the context of fundamental concepts such as crisis management, disaster recovery, organizational continuity, and vulnerability and risk analyses. Learners will gain practice with tools including business area impact analysis, and explore risk management and loss control strategies. Learners will explore the characteristics of realistic and effective contingency, response, business recovery, and crisis management plans and discuss the purpose, value, and types of exercises and training needed to support an effective crisis management, disaster recovery, and organizational continuity program. Prerequisites: BA 210 and PA 306.

BA 450  Special Topics  3 credits

BA 451  Marketing Research  3 credits
This course is an examination of the information link between organizations and the consumers they seek to serve. Emphasis is placed on developing an understanding of the nature of marketing problems, types of research available, sampling techniques, applied statistics
and questionnaire formulation. The steps of the research process are explored in depth. Prerequisites: MATH 220 is suggested and all marketing and completion of all business core requirements.

**BA 454 Management Cases** 3 credits
A study of the current strategies and techniques of administration and management, including: business objectives; policies, functions, executive leadership and organizational structure; control standards; case studies in organization, financing and operations. Prerequisites: BA 361 and BA 423.

**BA 456 Marketing Cases** 3 credits
This course provides an in-depth exposure to strategic planning for marketing, using cases as illustrative examples. Emphasis is placed on extensive situation analysis, objective and criterion formulation, and alternative selection and implementation. Prerequisite: All marketing and completion of all business core requirements.

**BA 459 Contemporary Topics in Marketing** 3 credits
This course description may change each term it is offered to cover the most contemporary marketing issues.

**BA 460 Strategic Management in the Global Corporation** 3 credits
Provides an understanding of the global business environment and how it contributes to the organization’s international corporate and business level strategies. Upon the successful completion of this course, students should have a practical working knowledge of the activities, procedures, and techniques unique to international business operations. Prerequisites: senior standing and completion of all required courses in the International Business major.

**BA 463 International Finance** 3 credits
Multinational business, international monetary system, bases for world trade, development of less-developed countries, foreign investment; emphasis on distinctions between international and domestic business operations. Prerequisite: BA 341.

**BA 474 Organizational Behavior** 3 credits
This course encourages students to describe and analyze the way that people behave in organizations by applying theories of organizational behavior. The course consists of a balance among theory and application. Note: Same as PSY 474. Prerequisites: PSY 190 or SOC 110.

**BA 488 Economics of International Business** 3 credits
Understanding of the global economy and an awareness of the political, historical, and social environment in which international business operates. Prerequisites: BA 160 and BA 208.

**BA 499 Special Project** 1-3 credits

**Chemistry**

**CHEM 115 Environmental Chemistry** 3 credits
This course includes a brief survey of basic chemical concepts, followed by coverage of atmospheric, soil and water chemistry. Topics emphasized include pollution, hazardous wastes, global warming, and ozone depletion. Meets the science requirement.

**CHEM 140 Chemistry for Everyday Life** 3 credits
This course offers an introduction to chemical concepts through the examination of real life processes. Everyday items of interest are explored to determine their underlying chemical principles. Students will gain an appreciation for chemistry in their daily lives and will be better equipped as citizens to formulate opinions and make decisions about items of scientific interest. Non-laboratory. Meets the science requirement.

**Communications**

**COMM 105 Public Speaking** 3 credits
This course increases the ability of students to make effective speeches and includes speech organization, presentation and extemporaneous talks. Meets the speech requirement.

**COMM 107 Human Communication** 3 credits
An introduction to communication studies providing an overview of communication theory with emphasis on information transmission and social influence functions of communication behavior in personal and mediated contexts.

**COMM 115 Effective Listening** 3 credits
Improves communication skills, specifically how to fine-tune the ability to listen effectively, interact better with others, gain information, use critical thinking skills and perform better in all situations. This course meets the speech requirement for non-education majors in the general education requirements.

**COMM 132 Introduction to News Reporting** 3 credits
This introductory course gives instruction and practical experience in the writing of news stories for print media, including newspapers and magazines. Fundamental interviewing techniques are included. Prerequisite: ENG 101.

**COMM 200 Interpersonal Communication** 3 credits
Interpersonal Communication provides an introduction to communication between individuals. Course content focuses on the identification and evaluation of communication goals, messages, and behaviors of individuals and groups.

**COMM 203 Communication Theory** 3 credits
A survey of theories in the field of human communication. Consideration is given to theories that explain communication behavior between pairs of people, within groups, in organizations, and in societies. Course content focuses on the identification of various theories and the development of support messages appropriate for a prescribed research problem or medium.

**COMM 220 Principles of Interviewing** 3 credits
Study of interviewing principles for people-management skills. Students have the opportunity to practice techniques appropriate for the following types of interviews: employment, orientation, goal-setting, problem-solving, appraisal and persuasion or selling. Prerequisite: COMM 115.

**COMM 221 Intercultural Communication** 3 credits
Analysis of how culture interacts with communication and an examination of problems encountered when communicating across cultures. Distinctions among verbal and nonverbal code systems are examined. Students get the chance to experience presentations from members of other cultures. Meets the cultures requirement.

**COMM 227 News Editing** 3 credits
Students learn to identify and evaluate various styles of writing and practice professional conventions of copy editing for print and digital media.

**COMM 275 Survey of Television** 3 credits
Study of television programs and programming from the “Golden Age” to the present. Analysis of television’s relation to post-modern American literature, culture and aesthetics. Same as ENG 275. Meets the humanities requirement.

**COMM 290 The Movies** 3 credits
An introduction to narrative fiction films, using concepts of art, theatre and literature, and including a study of film aesthetics from a historical perspective. Same as ENG 290. Meets the humanities requirement.

**COMM 299 Special Project** 3 credits
COMM 307 Business and Professional Communication 3 credits
Oral and written communication skills for those involved in professional and business settings. Includes resume, cover letter, and memo writing; interpersonal and group applications; interviewing and professional presentations.

COMM 310 Feature Writing 3 credits
This course provides advanced instruction in news writing and the various techniques for in-depth reporting and reviewing. Included is an introduction to news journalism. Prerequisite: COMM 332.

COMM 312 Writing for Media 3 credits
Teaches and develops skills for fundamental news reporting and writing for all media including newspapers, magazines, broadcasting and radio. Interviewing techniques are included. Prerequisites: ENG 101, COMM 132, and basic typing skills. Note: This course does not fulfill the general education requirement in English.

COMM 327 Family Communication 3 credits
This course will examine the science and evidence for global warming and climate change. It will address the cause-effect relationships for the greenhouse effect, the impact on societies worldwide. The course will focus on a variety of natural hazards and related disasters including flooding, volcanoes, landslides, earthquakes, hurricanes, and tsunamis. Lectures will focus on both the physical processes (e.g. underlying geology or geophysics) of selected natural hazards and the human systems that have developed to minimize the impact of natural disasters. Meets the science requirement.

COMM 332 Writing for Media 3 credits
This course is designed to introduce students to the world in which they live, and to the basic principles of natural resource management. Students will begin to understand the complexities of applying conservation principles to real-world problems, and will learn the importance of protecting and wisely using the Earth’s natural resources. The focus is on biological and geological resources, emphasizing forestry, wildlife management, fisheries, soil and water, and minerals and petroleum. Meets the science requirement.

COMM 351 Agricultural Communication 3 credits
Agricultural Communication provides students with an understanding of the importance of communication messages in the agricultural industry. Course content focuses on preparing effective presentations, relating to clients, and managing conflict in professional situations.

COMM 352 Organizational Communications 3 credits
A performance-based study of communication channels, patterns and problems occurring in today’s organizations. The course examines how organizations operate and the roles of individual organization members. Learners will be required to make speeches.

COMM 375 Introduction to Geology 3 credits
This course introduces students to geology, which is the study of the Earth as a physical body. Students will explore the Earth’s structure, its composition, and the geologic processes acting on and within our planet. Topics covered include: mineral and rock formation; plate tectonics; volcanism; mountain building; earthquakes; and surface processes such as erosion. Meets the science requirement.

COMM 390 Research Methods in Communication 3 credits
Provides an overview of the concepts, methods, and tools by which communication research is designed, conducted, interpreted, and critically evaluated. Course content focuses on the analysis of various communication theories, sources, styles of writing, and adaptation of messages and writing styles suitable in professional research contexts or media.

COMM 403 Internship 1-3 credits
Designed for advance students, this course gives intensive work experience in commercial art, public relations and/or journalism. Prerequisite: Consent of the instructor.

COMM 415 Communication and Media Ethics 3 credits
Freelands and responsibilities of mass media practitioners and institutions, explored within the framework of ethical theory. Consideration of values, codes of ethics, moral development, professionalism, institutional constraints, etc. as applied to media. Prerequisites: COMM 100, COMM 115, and COMM 220.

COMM 417 Human Communication 3 credits
Human communication and interactions are studied in social, cultural, and historical contexts. Focus is on communication in families, face-to-face settings, and various mass media. Students learn to apply communication theories to specific applied settings. Prerequisites: COMM 115 or permission of instructor.

COMM 418 Professional Oral Communication 3 credits
This course teaches and develops oral communication skills, particularly useful in professional settings. Emphasis is on speaking in groups and small teams, including the development of methods for preparing oral presentations. Prerequisites: COMM 115 or permission of instructor.

COMM 431 Communication about Visual Culture 3 credits
This course examines written and oral communication about visual media. Students learn to analyze, evaluate, and interpret the style and techniques of visual communication. Prerequisite: COMM 115 or permission of instructor.

COMM 432 Communication in Community 3 credits
This course examines communication in various community settings, including public policy, community organizing, and community development. Prerequisite: COMM 115.

COMM 441 Communication and Social Change 3 credits
This course examines communication through the lens of social change. Students learn about how and why communication influences social change and how to analyze the role of communication in social movements. Prerequisite: COMM 115 or permission of instructor.

COMM 451 Communication and the Natural World 3 credits
This course examines the role of communication in understanding and interacting with the natural world. Students learn to analyze and interpret media representations of nature, develop communication strategies for environmental advocacy, and use communication to build understanding and cooperation among stakeholders. Prerequisites: COMM 115 or permission of instructor.

COMM 452 Communication in Law and Justice 3 credits
This course examines communication in legal and justice settings. Students learn about how communication influences legal processes and how to develop communication strategies for effective advocacy in law and justice settings. Prerequisite: COMM 115 or permission of instructor.

COMM 453 Communication and Civic Engagement 3 credits
This course examines communication in civic engagement settings, including public policy, community organizing, and community development. Students learn about how and why communication influences civic engagement and how to analyze the role of communication in civic movements. Prerequisites: COMM 115 or permission of instructor.

COMM 461 Communication and Health 3 credits
This course examines communication in health settings, including healthcare, public health, and health advocacy. Students learn about how communication influences health outcomes and how to develop communication strategies for effective advocacy in health settings. Prerequisites: COMM 115 or permission of instructor.

COMM 462 Communication in Business 3 credits
This course examines communication in business settings, including interpersonal communication, small group communication, and public speaking. Students learn about how communication influences business outcomes and how to develop communication strategies for effective advocacy in business settings. Prerequisites: COMM 115 or permission of instructor.
Intergovernmental Panel on Climate Change (IPCC), and new data from selected environmentalists, climatologists, and palaeoclimatologists. The course will also examine the nature of climate variability, its drivers, and the characteristics of abrupt climate change. A balanced view of this issue would be presented, with suggestions for alleviating this phenomenon. Students will be exposed to the scientific method as it relates to the evolving complexity of the global warming phenomenon. Prerequisite: ES 161, CHEM/ES 115 or CHEM 140 and junior status. Meets the science requirement.

**Education**

**EDU 110 Foundations of American Education 3 credits**
This course presents the history, structure, philosophy and socio-economic factors of education in a democratic society. It deals with current issues confronting schools, including professional ethics, legal rights and responsibilities of professional educators and students. It provides the theoretical framework for additional education courses. A mandatory 20-hour practicum in a school setting runs concurrently with this course. This course must be taken at Upper Iowa University.

**EDU 142 Human Growth, Development and Guidance 3 credits**
This course is a study of the growth and development of humans from conception to senescence with an emphasis on birth to young adulthood. Physical, cognitive, social, affective, language and moral development will be explored. Topics will also include: individual and group similarities and differences, exceptional or abnormal development; and guiding parents, caregivers, community and staff regarding the implications of the stages of development. Same as PSY 142.

**EDU 152 Assessment and Psychology 3 credits**
This course integrates the study of the principles and theories of psychology as they relate to human learning and assessment in education. It includes theories of human development, cognition and educational research, including the study and assessment of traditional and exceptional learners, learners with disabilities and gifted and talented learners. Students will obtain practical understanding and experience in designing and administering a variety of assessment formats. Special emphasis is given to the effective use of both formative and summative assessments that are directed toward meeting the needs of all learners. Both criterion and norm-referenced tests will be discussed in relation to ranges and ages and abilities of students. The processes of instructional design, motivation, classroom management, discipline, measurement and evaluation will be integrated for a comprehensive look at student learning. A general psychology course is recommended prior to this course.

**EDU 162 Diversity for Teachers 3 credits**
This course is designed to meet the human relations and multicultural-ism requirements for teacher education and certification in the state of Iowa. It includes cognitive, affective and skill components that will contribute to the development of, sensitivity to, and understanding of the values, beliefs, lifestyles and attitudes of individuals and the diverse groups found in a pluralistic society. Topics discussed are the variables of ethnicity, race, social class, gender, religion, exceptional-ity, language and age, and the implications for human relations and education in particular. Meets cultures requirement for general education requirements.

**EDU 206 Field Experience I: Elementary 2 credits**
This is the first of two field experience courses that provide students with an opportunity to “see into the daily life” of the teacher so they will develop a more complete and accurate picture of what teaching is all about. This course is taken in conjunction with the students’ initial methods course: EDU315 Teaching Elementary Social Studies. Through this Field Experience course, students will develop deeper understandings of the teacher as a professional who uses his/her knowledge and skills to make and carry out decisions to foster students’ educational development and school achievement. Students will complete various activities on site for a minimum of 40 hours and they will complete various assignments to help them understand more deeply the Iowa Teaching Standards and Criteria. At the end of this forty (40) hour placement, students will be assessed on their knowledge of the Iowa Teaching Standards and Criteria. In order to be admitted to Student Teaching, students must successfully meet the appropriate levels of performance required through the field experience assessment. Prerequisites: Admission to the Teacher Education Program.

**EDU 207 Field Experience II: Secondary 2 credits**
This is the first of two field experience courses that provide students with an opportunity to “see into the daily life” of the teacher so they will develop a more complete and accurate picture of what teaching is all about. This course is taken in conjunction with the students’ general methods course: EDU 233: Methods: Secondary. Through this Field Experience course, students will develop deeper understandings of the teacher as a professional who uses his/her knowledge and skills to make and carry out decisions to foster students’ educational development and school achievement. Students will complete various activities on site for a minimum of 40 hours and they will complete various assignments to help them understand more deeply the Iowa Teaching Standards and Criteria. At the end of this forty (40) hour placement, students will be assessed on their knowledge of the Iowa Teaching Standards and Criteria. In order to be admitted to Student Teaching, students must successfully meet the appropriate levels of performance required through the field experience assessment. Prerequisites: Admission to the Teacher Education Program.

**EDU 223 Child, Family Health and Nutrition 3 credits**
An introduction to nutrients, their uses and food sources; application of the principles of diets for general health, for birth through senescence. This course includes nutritional needs and programs for families and children.

**EDU 226 Field Experience II: Elementary 2 credits**
This is the second of two field experience courses that provide students with an opportunity to “see into the daily life” of the teacher so they will develop a more complete and accurate picture of what teaching is all about. This course is taken in conjunction with the students’ advanced methods course (EDU 305 Teaching Elementary Science, EDU 325 Teaching Elementary Mathematics, EDU 335 Teaching Elementary Language Arts). Through this Field Experience course, students will develop deeper understandings of the teacher as a professional who uses his/her knowledge and skills to make and carry out decisions to foster students’ educational development and school achievement. Students will complete various activities on site for a minimum of 40 hours and they will complete various assignments to help them understand more deeply the Iowa Teaching Standards and Criteria. At the end of this forty (40) hour placement, students will be assessed on their knowledge of the Iowa Teaching Standards and Criteria. In order to be admitted to Student Teaching, students must successfully meet the appropriate levels of performance required through the field experience assessment. Prerequisites: Admission to the Teacher Education Program.

**EDU 227 Field Experience II: Secondary 2 credits**
This is the second of two field experience courses that provide students with an opportunity to “see into the daily life” of the teacher so they will develop a more complete and accurate picture of what teaching is all about. This course is taken in conjunction with the students’ advanced methods courses (EDU 300-1 Teaching Secondary School Business or EDU 300-6 Teaching Secondary School Social Science). Through this Field Experience course, students will develop deeper understandings of the teacher as a professional who uses his/her knowledge and skills to make and carry out decisions to foster students’ educational development and school achievement. Students will complete various activities on site for a minimum of 40 hours and they will complete various assignments to help them understand more deeply the Iowa Teaching Standards and Criteria. At the end of this forty (40) hour placement, students will be assessed on their knowledge of the Iowa Teaching Standards and Criteriad. In order to be admitted to Student Teaching, students must successfully meet the appropriate levels of performance required through the field experience assessment. Prerequisites: Admission to the Teacher Education Program.
of the Iowa Teaching Standards and Criteria. In order to be admitted to Student Teaching, students must successfully meet the appropriate levels of performance required through the field experience assessment. Prerequisites: Admittance to the Teacher Education Program.

**EDU 233 Methods: Secondary 3 credits**
This course helps to prepare pre-service educators for teaching in secondary (middle and high) schools. Pre-service educators develop a 10-day interdisciplinary thematic unit (ITU) with associated lesson plans and teach a lesson from that unit. The ITU is expected to address various standards expressed in the UIU Teacher Education Program and include appropriate goals, objectives, activities, materials, lesson plans, and an assessment plan with associated artifacts. As pre-service educators construct the ITU, they learn about appropriate categories of instructional strategies that research has demonstrated influence student achievement. Pre-service educators also become aware of the “dimensions of learning” as a useful framework for understanding teaching and learning. Prerequisites: EDU 110 and admittance to the Teacher Education Program.

**EDU 234 Field Experience: Infant/Toddler 1 credit**
This experience is used with the prekindergarten-grade 3 major/endorsement. This course requires a minimum of 20 clock hours at the infant/toddler level. Prerequisites: EDU 110 and admittance to the Teacher Education Program. Must be taken in conjunction with a methods course.

**EDU 235 Field Experience: PreKindergarten 2 credits**
This experience is used with the prekindergarten-grade 3 major/endorsement. This course requires a minimum of 40 clock hours at the prekindergarten level. Prerequisites: EDU 110 and admittance to the Teacher Education Program. Must be taken in conjunction with a methods course.

**EDU 252 Computers and Instructional Technology 3 credits**
This course emphasizes effective communication techniques through the exposure to a wide array of instructional media including computer software and hardware. The use of multimedia will be utilized in a simulated classroom presentation by each pre-service educator. Prerequisites: MIS 101 or equivalent college level course completed after 1990, EDU 110 and admittance to the Teacher Education Program.

**EDU 300 Teaching Secondary School Subject Matter**
Students must take a separate, specific methods course for each secondary subject area in which they are seeking endorsement and licensure. The courses are intended to develop pre-service educators’ understanding and application at the secondary (grades 5-12) level of teaching strategies, classroom management, instructional planning principles and design within their specific discipline. These courses provide pre-service educators with an understanding of the modern practices, techniques and trends in their subject areas of teaching. Prerequisites: A minimum of six credits of upper-division courses within the discipline and successful completion of EDU 110, EDU 233, and admittance to the Teacher Education Program.

**EDU 300-1 Teaching Secondary School Business 3 credits**
**EDU 300-6 Teaching Secondary School Social Science 3 credits**
**EDU 304 Exceptional Persons 3 credits**
This course is an introduction to students with disabilities. English language learners, students placed at risk, and students who are gifted are also addressed. Upon completion of this course, the pre-service educator should have basic knowledge of teaching strategies and instructional modifications and accommodations for inclusive education. Prerequisite: none, but EDU 110 is highly recommended.

**EDU 305 Teaching Elementary Science 3 credits**
This course will focus on current best-practice, research-based methods of inquiry-based teaching and learning of science for the very young child through elementary school with an emphasis on the experimental and constructivist approach. An integrated teaching approach will be used to help pre-service educators develop goals and objectives, apply the Characteristics of Effective Instruction of the Iowa Core, utilize methodologies, organize curriculum and assess learning through science content including life science, physical science, and earth-space science. Pre-service educators will develop curriculum, units and lessons based on state and national standards to use in their student teaching and teaching experiences. Science lessons will be written utilizing the 5 E’s (Engage, Explore, Explain, Extend, and Evaluate) learning cycle approach to instructional design. Integration of technology, creative arts, and classroom management as they apply to teaching and to student learning in elementary science are addressed. Prerequisites: EDU 110, EDU 315, and admittance to the Teacher Education Program.

**EDU 313 Teaching Creative Arts 2 credits**
Current methods, development and organization of curriculum and new programs in teaching art, music and creative dramas through play, recreational, and organized activities for birth to elementary age students will be covered. This course will include development and organization of integrated curricula and teaching methods. The education program course will include pre-service educators development of integrated thematic units, centers, manipulatives and performance techniques. Course will include analysis of scope and sequence of development of creative arts as well as selection and use of appropriate instructional materials. This course is integrated to provide the elementary methods component for elementary music, art and speech/communications/theatre. Prerequisites: EDU 110 and admittance to the Teacher Education Program.

**EDU 315 Teaching Elementary Social Studies 3 credits**
This course will focus on current best-practice, research-based approaches to the teaching and learning of social sciences. An integrated teaching approach will be used to help pre-service educators develop goals and objectives, apply the Characteristics of Effective Instruction of the Iowa Core, enhance content knowledge, utilize methodologies, organize curriculum and assess learning in a variety of ways. In this course, pre-service educators will initially learn to develop curriculum including unit and lesson planning. This is reinforced in other elementary education courses, such as Teaching Elementary Language Arts, Teaching Elementary Science, and Teaching Elementary Math. Pre-service educators will develop projects, lessons and units based on state and national standards to use in their student teaching and teaching experiences. Activities will include the broad areas of social sciences: history, geography, political science, civic literacy and economics. Integration of technology, classroom management, and the creative arts, as they apply to teaching and to student learning in the social sciences are addressed. Prerequisites: EDU 110, and admittance to the Teacher Education Program.

**EDU 325 Teaching Elementary Math 3 credits**
This course incorporates the use of a problem solving approach in the development of mathematical topics relevant for the preschool through middle school teacher. Concepts include the NCTM standards, five content standards and five process standards. These include problem solving; reasoning; communication; the ability to recognize, make and apply connections; integration of manipulatives; the ability to construct and to apply multiple connected representation; and the application of content in real world experiences. Instructional methods and classroom management include the selection and use of appropriate instructional materials including technology, for the very young child through elementary age student. Prerequisites: EDU 110, EDU 315, and admittance to the Teacher Education Program. General education math requirement is recommended.

**EDU 326 Developmental Reading and Language Arts 3 credits**
This course introduces pre-service educators to the best-practice, research-based materials, methods and skills used in exposing and teaching young children through secondary school students to read
which includes reading, writing, spelling, grammar, vocabulary, phonemic awareness, fluency, and comprehension development. Additional topics include: reading motivation, principles of reading and writing instruction including the integration of technology, integrated curriculum, classroom management, types of reading programs including reading recovery, thematic units, individualized reading and reading assessment diagnosis, and evaluation of student learning in literacy. Classroom organization and management as it applies to literacy methods is included. Prerequisite: EDU 110; pre or co-requisite: EDU 315 and admittance to the Teacher Education Program.

EDU 327 Teaching Health and Physical Education Birth - Elementary 3 credits
This course studies human growth and development related to the physical education of young children and youth. Emphasis is placed on the impact of developmental movement experiences, curriculum, teacher behavior, class management, dance activities, play environment, materials, and developmentally appropriate activities. Included is study of methods, materials, and curriculum regarding safety and healthy lifestyle choices. Literature information is made available for use in health activities and presentations for parents, community members, and students. Provides information on current trends in advocacy, health legislation, and public policy. Prerequisites: EDU 110 and admittance to the Teacher Education Program. Same as HPER 327.

EDU 333 Literature: Birth-Adolescence 3 credits
This course is a survey of literature for infants, prekindergarten, kindergarten, elementary and secondary age students together with the study of the purpose and utilization of literature in the classroom. Pre-service educators will create files of developmentally appropriate reading materials and activities to use in their teaching experiences. Literature is used as a model for reading and writing processes. Does not satisfy the general education requirement for literature.

EDU 335 Teaching Elementary Language Arts 3 credits
This course will focus on current best-practice, research-based approaches to the teaching and learning of elementary language arts, which includes reading, writing, speaking, viewing, listening and visually representing. An integrated teaching approach will be utilized to help pre-service educators develop goals and objectives, apply the Characteristics of Effective Instruction of the Iowa Core, enhance content knowledge, utilize methodologies, organize curriculum and assess learning in a variety of ways. Pre-service educators will develop curriculum, write units and lessons based on state and national standards to use in their student teaching and teaching experiences. Emphasis on oral communication, expository writing, grammar, the teaching of spelling and handwriting as well as the integration of technology, creative arts, and classroom management as they apply to teaching and to student learning in the language arts are addressed. Prerequisites: EDU 110, EDU 315, and admittance to the Teacher Education Program.

EDU 407 Diagnostic and Corrective Reading and Language Arts 3 credits
This course specifies how to assess students and how to use assessment results to provide effective instruction. The following components are included: knowledge of existing standardized diagnostic reading instruments, development and implementation of informal reading inventories and teacher-developed instruments, determination of reading and writing instructional strategies (including content area reading strategies) linked to the assessment, and writing summative reports for stakeholders. A 30-hour tutoring experience is required. Prerequisites: EDU 110, EDU 326 (or co-requisite) and admittance to the Teacher Education Program.

EDU 409 Practicum: Elementary Reading and Language Arts 3 credits
This course develops the pre-service educator’s and teacher’s understanding and application of curriculum development, individual assessment of student’s reading, writing, language arts and integrated research abilities, and group management and motivation. In this course, pre-service educators and teachers accept responsibilities within the classroom setting to assist in the reading instructional program by working under the guidance of the cooperating teacher in both individualized and group reading situations. 60 clock hours of practicum required. Prerequisites: EDU 110, EDU 326, EDU 407, EDU 485, and admittance to the Teacher Education Program.

EDU 410 Practicum: Secondary Reading and Language Arts 3 credits
This course develops the pre-service educator’s and teacher’s ability to assess, evaluate and instruct students with significant difficulties in reading, language arts and content area reading. In this course, pre-service educators and teachers accept responsibilities within the classroom setting to assist in the reading instructional program by working under the guidance of the cooperating teacher in both individualized and group reading situations. 60 clock hours of practicum required. Prerequisites: EDU 110, EDU 326, EDU 407, EDU 485, and admittance to the Teacher Education Program.

EDU 425 Content Area Literacy 3 credits
This course provides instruction in how to develop individualized content reading skills for elementary, middle school, junior high and high school students; how to evaluate readability of textbooks and students’ ability to read texts through informal teacher made assessments (formative assessments); how to integrate technology in content area reading and how to develop strategies to assist students in reading their content area textbooks. In addition, students develop knowledge of the different types of writing and speaking; knowledge of narrative, expressive, persuasive, informational, and descriptive writing and speaking; writing as communication; and differentiated instructional strategies for reading and writing in the content areas. Prerequisite: elementary or secondary methods.

EDU 428 Middle School Curriculum, Design and Strategies 3 credits
This course will provide the requisite middle school methodology to use along with the elementary or secondary school major. Curriculum design and instructional knowledge will be presented including: teaming, pedagogy and instructional methodology for a middle school. Prerequisites: EDU 110 and admittance to the Teacher Education Program.

EDU 435 Middle School Students’ Growth, Development and Management 3 credits
This course will provide the requisite middle school knowledge of the growth and development of the middle school age student to include emotional, physical and mental characteristics and needs. Management of middle school students will be discussed in relation to being able to use a variety of instructional strategies learned from either elementary or secondary methods courses to modify for use with middle school age students. Specific middle school scenarios and management situations will also be discussed in relation to unique middle school management techniques. Prerequisites: EDU 110 and admittance to the Teacher Education Program.

EDU 443 Concepts of English 3 credits
This course is for the purpose of developing awareness and understanding of the fundamental concepts and principles involved in writing the English language. Grammar and composition will be highlighted. Prerequisites: EDU 110 and admittance to the Teacher Education Program. Highly recommended: 3 credit hours of foreign language at the college level.

EDU 444 Curriculum and Methods of ESL 3 credits
This course will assist pre-service educators and teachers to develop the capacity to address the differential learning and transition needs of culturally and linguistically diverse students. Understanding changes occurring in the American classroom and understanding significant factors in those changes, such as students and their families who are culturally and linguistically diverse, are goals of this course. Effective
programming models are an additional understanding. In the context of these understandings, appropriate content-based instructional practices, accommodations to facilitate students’ access to the curriculum, and assessment of student learning become the main foci of this course. Prerequisites: EDU 110 and admittance to the Teacher Education Program.

EDU 445 Second Language Acquisition 3 credits

Second Language Acquisition provides ideas for pre-service educators and teachers to promote oral language, reading, and writing development in English for K-12 English Language Learners. It will provide pre-service educators and teachers with language acquisition theory, classroom organization, strategies, and assessment procedures for effective English learner instruction. Prerequisites: EDU 110 and admittance to the Teacher Education Program.

EDU 446 Practicum in ESL 3 credits

This course develops the pre-service educator’s and teacher’s understanding and application of curriculum and methods in ESL. In this course, pre-service educators and teachers accept responsibilities within the classroom setting to assist in the instructional program by working under the guidance of the cooperating teacher in both individualized and group situations. Sixty (60) clock hours of practicum are required in a classroom with ELLs present. Prerequisites: EDU 110, EDU 443, EDU 444 and admittance to the Teacher Education Program.

EDU 447 Problems in English Grammar 3 credits

The course will investigate the grammatical system of English, emphasis will be placed on tools and processes used to identify, assess, and teach grammatical patterns in written and spoken English for English Language Learners. Prerequisites: EDU 110 and admittance to the Teacher Education Program.

EDU 448 Cultural and Linguistic Diversity 3 credits

In this course pre-service educators and teachers will study how cultural and linguistic diversity are linked and how teachers must be prepared to effectively teach students whose backgrounds are different from their own. Specifically, pre-service educators and teachers will study the following: 1) language, text, and context, 2) teacher ideologies and motivation for change, 3) issues of diversity and literacy learning, 4) out-of-classroom influences on literacy learning, and 5) sociolinguistics. Prerequisites: EDU 110 and admittance to the Teacher Education Program.

EDU 451 Introduction to Early Childhood 3 credits

Pre-service educators will learn the historical, philosophical and social issues of early childhood education in both theory and practical application. Characteristics of play and creativity will be integrated with classroom organization in order to learn how to create positive learning environments for a range of infants through elementary age students based on child development theory. Prerequisite: EDU 110.

EDU 455 Methods and Curriculum of Early Childhood 2 credits

Current methods, development and organization of developmentally appropriate curriculum and methodology to integrate multicultural and nonrestrictive content in language, mathematics, social studies, health, safety, nutrition, visual and expressive arts, social skills and higher-order thinking skills for infants and toddlers and pre-primary and primary age children. Pre-service educators will learn classroom organization and physical settings to create positive learning environments based on child development theory and early childhood guidance techniques. Prerequisites: EDU 110, EDU 451, and admittance into the Teacher Education Program.

EDU 456 Administration and Supervision of Early Childhood 2 credits

Current methods of administration, development, and organization of developmentally appropriate early childhood programs. Knowledge of state and federal guidelines, budget, food and nutrition, safety, personnel supervision, evaluation, and professional development will be addressed from the administrator’s perspective. Pre-service educa-

tors will know the current advocacy, legislation and public policy as it relates to early childhood and be able to locate informational and professional organizations to remain current in their field. Pre-service educators will learn program and staff development and evaluation procedures and learn the current methods in scheduling, managing and financing early childhood programs. Prerequisites: EDU 110, EDU 451, and admittance into the Teacher Education Program.

EDU 459 Home, School and Community Relations 3 credits

This course will develop the skills of listening, supporting, guiding and assisting behaviors to be utilized in developing strong relationships with parents and community members. Pre-service educators will examine the impact of cultural diversity, factors which place families at risk, advocacy and public policy. Pre-service educators will become familiar with community resources. Pre-service educators will also explore the effective use of parent-teacher conferences, home visits and interviews. Prerequisites for Instructional Strategist endorsements: EDU 110 and admittance to the Teacher Education Program. Prerequisites for Early Childhood endorsements: EDU 110, EDU 451, EDU 455, EDU 456, and admittance to the Teacher Education Program.

EDU 462 Individual Behavior and Classroom Management 3 credits

This course provides strategies for identifying, anticipating, preventing and managing individual and group behavior difficulties within a class setting. The course focuses on creating positive learning environments and structuring individual and group learning activities so that instruction is enhanced, social interactions are increased and problem behaviors are prevented. Successful completion of EDU 110 is strongly recommended.

EDU 467 Characteristics of Individuals with Disabilities PreK-12 3 credits

This is a prekindergarten-12 introductory course for providing educational services to students with disabilities. This course will include characteristics of current trends and issues for serving these students, basic theoretical and practical approaches, educational alternatives, implication of federal and state statutes and related services and the importance of the multidisciplinary team in providing appropriate educational programming. A minimum of 10 clock hours of field experience will be spent in observing and/or assisting with students with disabilities. Prerequisites: EDU 110, EDU 304, and admittance to the Teacher Education Program.

EDU 469 Methods: Learning Disabilities K-12 3 credits

The purpose of this course is to extend the knowledge of learning disabilities for those who seek to work with students with learning disabilities ages 5-21. Addressed in this course are characteristics of learning disabilities, definitions, history, assessment, medical aspects, teaching of preschoolers through adolescents, and teaching strategies for pre-academic learning, oral language, reading, writing, mathematics, and social-emotional development. A 10-hour experience in the field is a requirement of this course. Prerequisites: EDU 110, EDU 304, EDU 467, and admittance to the Teacher Education Program.

EDU 471 Assessment of Individuals with Disabilities PreK-12 3 credits

This course provides knowledge and application of the collection and uses of academic and behavioral data for the educational diagnosis, assessment and evaluation of prekindergarten-grade 12 individuals with disabilities. Discussion includes: norm-referenced instruments, criterion reference instruments, observational assessment, behavioral rating instruments and others, and how to apply assessment results to individualized program development and management. A minimum of 10 hours of classroom observation/activities is required. Prerequisites: EDU 110, EDU 304, EDU 467, and admittance to the Teacher Education Program.

EDU 473 Methods: Intellectual Disabilities 3 credits

The purpose of this course is to extend the knowledge of intellectual disabilities for those who seek to work with students with intellectual
disabilities ages 5-21. This course emphasizes empirically validated practices in the education of students with intellectual disabilities: assessment of instructional needs, instructional strategies, classroom management and behavioral support, promotion of social and communication skills, and promotion of self-determination. A 10-hour experience in the field is a requirement of this course. Prerequisites: EDU 110, EDU 304, EDU 467 and admittance to the Teacher Education Program.

**EDU 475 Methods: Mild/Moderate Disabilities 5-12** 3 credits
This course provides knowledge of appropriate empirically based programming and strategies useful for pre-service educators and teachers in developing methods, strategies and materials and adapting traditional materials for use with secondary students receiving special education services. A minimum of 10 clock hours will be spent in observing and/or assisting in a special education setting. Prerequisites: EDU 110, EDU 304, EDU 467, and admittance to the Teacher Education Program.

**EDU 476 Curriculum, Organization and Development of Special Education Programs PreK-12** 3 credits
This course will cover curriculum organization and development for students receiving special education services at the school-age level prekindergarten-12. This will follow an integrated approach emphasizing development of curriculum for individuals and small groups of students who are in special education settings. It will focus on improving the quality of instruction through continual assessment and curriculum revision which stresses active learning and practical hands-on experiences to enhance learning. A minimum of 10 clock hours will be spent completing a field experience observation and assisting in a special education setting. Prerequisites: EDU 110, EDU 304, EDU 467, and admittance to the Teacher Education Program.

**EDU 477 Career and Vocational Programming** 3 credits
This course provides knowledge and application of career planning and transition for adolescents from school to adult living, including major laws, suggestions for planning and developing assessment and instructional procedures and coverage of some of the major issues facing schools, parents and students today. Included will be practice developing Individual Education Plans (IEPs) and transition services under the mandate of the Individuals with Disabilities Education Act (IDEA). The pre-service educators and teachers will spend a minimum of 10 field experience hours observing and/or completing activities in a secondary special education setting. Prerequisites: EDU 110, EDU 304, and admittance to the Teacher Education Program.

**EDU 478 Methods: Mild/Moderate Disabilities Prekindergarten-8** 3 credits
This course provides knowledge and application of characteristics, definitions, and methods for managing and teaching students with mild and/or moderate disabilities in a multicaegorical setting. This course will provide opportunities for developing and justifying components of Individual Education Plans. It will include strategies for note-taking and remembering spoken and written information, for solving math problems, for taking tests, writing papers and assignments and prioritizing and managing time and assignments. A minimum of 10 clock hours will be spent in observing and assisting in a special education setting. Prerequisites: EDU 110, EDU 304, EDU 467, and admittance to the Teacher Education Program.

**EDU 485 Advanced Problems in Reading and Language Arts** 3 credits
This course is a continuation of the study of various types of reading problems confronting elementary and secondary school students. The course includes problems in aspects of literacy (phonemic awareness, word identification/phonics, vocabulary, fluency, and comprehension) with appropriate strategies for remediation based on scientifically-based reading research. Effective strategies that facilitate the learning of standard English by all learners is included. There is a 30-clock-hour practicum required. Prerequisites: EDU 110, EDU 326, EDU 407, and admittance to the Teacher Education Program.

**Student Teaching**
Student teaching is the capstone experience of the Teacher Education Program. The student teacher accepts the major responsibilities and performs the activities of a full-time instructor under the supervision of the cooperating teacher. The minimum experience for those seeking initial licensure is 14 weeks (14 semester credits) and must be completed in two consecutive terms. Placements are made by the Teacher Education personnel. During student teaching enrollment in other courses does not occur. Prerequisites: See Student Teaching, page 44. Admittance to the Teacher Education Program is required.

**EDU 449 Student Teaching ESL** 1 credit
**EDU 479 Student Teaching Instructional Strategist** 3 credits
**EDU 482 Student Teaching Instructional Strategist** 7 credits
**EDU 484 Student Teaching Prekindergarten Inc. Special Education** 7 credits
**EDU 488 Student Teaching Birth-Prekindergarten** 7 credits
**EDU 490 Student Teaching in the Elementary School** 7 credits
**EDU 491 Student Teaching in the Secondary School** 7 credits
**EDU 492 Student Teaching in the Elementary School** 14 credits
**EDU 493 Student Teaching in the Secondary School** 14 credits
**EDU 496 Student Teaching PreKindergarten-Kindergarten** 7 credits
**EDU 498 Student Teaching Kindergarten-Grade Three** 7 credits
**EDU 499 Special Projects** 1-3 credits

**English**

**ENG 091 Reading for Critical Comprehension** 3 credits
This course provides instruction and practice in reading comprehension and vocabulary development. Students may be assigned into this course based on the Accuplacer Computerized Placement test results and high school transcripts. Other students desiring additional help may also register for the course.

**ENG 095 Foundations of English** 3 credits
This course is designed for students who demonstrate a need for help in written composition. Students may be assigned into this course based on the Accuplacer Computerized Placement test results and high school transcripts. This course does not fulfill the general education requirement in English.

**ENG 101 Basic Composition** 3 credits
A study and practice of expository writing, with narrative and descriptive compositions assigned regularly. Emphasis is on the development of sound understanding of rhetorical principles.

**ENG 102 English Composition II** 3 credits
A further study and practice of expository writing, with emphasis on research technique, persuasion and explanation. A formal research paper is required. Prerequisite: ENG 101. Meets the written communication requirement.

**ENG 125 Introduction to Literature** 3 credits
This course concentrates on the reading of selected short fiction and poetry, and presents an introduction to literary analysis, interpretation and evaluation. Meets the humanities requirement.
ENG 201  Expository Writing  3 credits
An option for completing the second level of general education writing, this course provides study and practice of expository writing techniques, with emphasis on persuasion, argument, critical evaluation and use of research material. This course does not apply toward an English major or minor. Prerequisite: ENG 101.

ENG 202  Writing for Business  3 credits
This course develops writing skills appropriate to students planning careers in business, and includes the writing of resumes, letters, proposals, memos, and reports, culminating in a feasibility study that incorporates reasoned argument and the results of formal research in an appropriately formatted research paper. This course does not apply toward an English major or minor. Prerequisite: ENG 101.

ENG 203  Writing for the Sciences  3 credits
An option for completing the second level of general education writing, this course provides development of writing skills appropriate to students planning careers in science, and includes the presentation of research material. Attention is paid to format as well as style. Recommended for students planning to major in the social and natural sciences. This course does not apply toward an English major or minor. Prerequisite: ENG 101.

ENG 209  American Literature I  3 credits
A survey of major American authors from the colonial period to the Civil War. The focus is on the evolution of a unique national literature and a characteristic world view. Meets the humanities requirement.

ENG 210  American Literature II  3 credits
A survey of major American authors from the Civil War to the present. The focus is on trends in American literature since the turn of the 20th century. Meets the humanities requirement.

ENG 211  British Literature I  3 credits
A survey of British literature from Beowulf through the end of the 18th century. The focus is on major authors and significant historical influences in the development of British literature. Meets the humanities requirement.

ENG 212  British Literature II  3 credits
A survey of British literature from the publication of Lyrical Ballads in 1798 to the present. Meets the humanities requirement.

ENG 224  Modern Poetry  3 credits
This course draws upon a wide range of poetic experience, exploring what poetry is, how it works, and what is required to enter and traverse the world of a poem. Meets the humanities requirement.

ENG 248  Survey of the Mystery Story  3 credits
Exploration of the mystery story by examining its historical development from the mid-nineteenth century to the present, and by examining a spectrum of writers—mystery specialists and literary writers—from Europe, America, South Africa and Latin America. Techniques and development will be discussed and evaluated. Meets the humanities requirement.

ENG 250  Special Topics  3 credits

ENG 265  African American Literature  3 credits
Survey of African American writing, film and thought from colonial times to the present, with emphasis in the developing relationship between the larger American culture and African American reactions and contributions to it.

ENG 275  Television  3 credits
Same as COMM 275.

ENG 290  The Movies  3 credits
Same as COMM 290.

ENG 330  Shakespeare  3 credits
An introduction to Shakespeare’s writing through an analysis of four plays: a tragedy, a chronic history, a pastoral comedy and a love story. The goal of this course is to make Shakespeare accessible to 21st century audiences from both literary and performance perspectives. Meets the humanities requirement.

ENG 352  Best Sellers  3 credits
This class introduces students to best selling books from the New York Times best seller list in order to learn more about the American psyche, what energizes a writer in creating a book, how long it takes a writer to create a book and what factors cause a book to become a best seller. Meets the humanities requirement.

ENG 365  Women and Literature  3 credits
An examination of the image of women presented in literature, contrasting traditional and contemporary, male and female depictions. The emphasis is on the writings of women. Meets the humanities requirement.

ENG 375  Literature of the American Midwest  3 credits
This course explores imaginative responses to the experience of the Middle West, from pioneer times through the mid-20th century. Meets the humanities requirement.

Geography
GEOG 100  Introduction to Physical Geography  3 credits
This course provides a framework for understanding the aerial and spatial interrelationships and processes that operate in the physical environment in order to develop a better comprehension of the physical world around us. The content of the course will examine Earth-sun relationships, latitude, longitude, maps, plus the physical factors associated with meteorology, climate, and earth surface processes. This course will satisfy a general education requirement for either physical science or social science, but not both. Meets the science requirement.

GEOG 200  World Regional Geography  3 credits
This course provides an introduction to the basic concepts and supporting facts about contemporary world geography. Emphasis is placed upon component countries’ world roles, physical and cultural characteristics, relation to other world areas and associated problems. The course examines population, economic activity, landforms, climate, cultural conflict and other pertinent natural and human processes that underlie the aerial and spatial differentiation of the world. Meets the social science requirement.

Health Services Administration
HSA 205  Introduction to the American Health System  3 credits
A macro-level examination of the origin, structure and operation of the American health system and its subsystems and components. Topics include the hospital system, public health system, long-term care systems, financing system, health services delivery systems, healthcare providers and contemporary issues confronting the American Health System.

HSA 302  Managed Care  3 credits
An examination of the origins, organization and operations of managed care programs, including the structures, practice models, roles of clinicians, capitation, and health services payment systems. Prerequisite: HSA 205.

HSA 306  Long-Term Care Administration  3 credits
An examination of the origins, organization and operations of long-term care facilities such as assisted living homes, hospice and nursing homes. Topics include the continuum of long-term care, and the role and relationship of various long-term care facilities and programs to acute care and the American Health System. Prerequisite: HSA 205.

HSA 312  Community and Public Health  3 credits
An examination of the origin, structure and issues relating to the provision of community and public health services. Topics include an
introduction to epidemiology, community needs assessment, social and cultural influences on utilization of community and public health services and the problems related to community and public health. Prerequisite: HSA 205.

**HSA 340 Health Care Ethics 3 credits**
An examination of the major ethical theories and their relationship to health services delivery and profession ethics codes. Topics include public health ethics and private practice ethics, the Nuremberg Trials, the Helsinki Accord and the Belmont Report. Case histories such as the Tuskegee Study will be addressed. Prerequisite: ID 301.

**HSA 344 Population Health Management 3 credits**
Examines population health management focusing on strategies to improve health and quality of care with an emphasis on cost control management. Prerequisite: MATH 220.

**HSA 362 Financial Management of Health Services Organizations 3 credits**
An analysis of the financial management of health services organizations and issues related to the financial management of health services organizations, particularly acute care facilities such as hospitals. Topics include the economic analysis of public and private financing, health insurance, and other forms of health services payment. Prerequisites: BA 201 and BA 210.

**HSA 385 Legal Issues Related to Health Services Organizations 3 credits**
An examination of the legal issues related to the operation of health services organizations, including contracts, licensure, informed consent, tort, medical staff appointments and an overview of the legal system as it relates to health services delivery. Prerequisite: PS 100.

**HSA 440 Health Services Administration 3 credits**
An analysis of the structure and operation of various types of health services organizations, including their internal departments, and management of the facilities with particular emphasis on acute care facilities. Prerequisite: BA 210.

**HSA 460 Health Services and the Political Process 3 credits**
An examination of the health policy formation process at the federal, state and local levels. Topics include the historical process of key health legislation such as Medicare and Medicaid, cost controls, utilization review, prospective payment system, and political factors related to formulation and implementation of health policy. Prerequisite: PS 100.

**HSA 490 Health Program Planning and Evaluation 3 credits**
An examination of the major concepts, methodologies and issues related to the planning and evaluation of health services delivery programs. Topics include internal and external validity threat, experimental, quasi-experimental and non-experimental study designs, and analysis techniques. Prerequisite: HSA 362.

**History**

**HIST 100 World History to 1500 3 credits**
This course provides a broad overview of world history, beginning with the development of agriculture in Neolithic times and ending with the Protestant Reformation in the 16th century. Major topics include ancient civilizations of Mesopotamia, Egypt, Indus Valley and Yellow River Valley; classical Greece; Roman Empire; development of Hinduism, Judaism, Buddhism, Confucianism, Taoism, Christianity and Islam; China and Japan through the 16th century; feudal Europe; the Renaissance; African societies; and pre-Columbian America and Reformation. Meets the social science requirement.

**HIST 101 World History Since 1500 3 credits**
This course is a continuation of HIST 100 and provides a broad overview of world history, beginning with European expansion over the globe in the 16th century and extending through the present. Major themes examined are colonization, slavery, the Industrial Revolution, imperialism, worldwide conflicts, East vs. West, decolonization and the collapse of communism. Meets the social science requirement.

**HIST 110 American History to 1877 3 credits**
This course provides a broad overview of U.S. history, from the earliest colonial settlements through the end of the Reconstruction period following the Civil War. Major themes examined are colonial society and life, the struggle for independence, adoption of the Constitution, the early national period, sectionalism, the Civil War and Reconstruction. Meets the social science requirement.

**HIST 111 American History Since 1877 3 credits**
This course is a continuation of HIST 110 and provides a broad overview of U.S. history from the end of the Reconstruction period following the Civil War through the present. Major themes examined are industrialization, urbanization, protest and reform movements, emergence of the U.S. as a world power, the Great Depression, World War II, the Cold War, the turbulent 1960s, and domestic and foreign problems of the 1970s and 1980s. Note: A much more detailed and thorough examination of this same historical period is provided in HIST 374. Meets the social science requirement.

**HIST 220 History of Wisconsin 3 credits**
This course surveys Wisconsin’s past, and focuses on the social history of its diverse peoples. It begins with the era prior to European exploration, and ends in the 1990s. Learners will be introduced to the “Wisconsin Character” concept. Meets the social science requirement.

**HIST 222 History of Iowa 3 credits**
This course is designed to introduce students to the political, economic, and social forces that have shaped Iowa history from settlement to present. Meets the social science requirement.

**HIST 240 Your Community as Part of U.S. History 3 credits**
This course will examine historical events and the impact they have had on a specific community or regional area of the United States. Meets the social science requirement.

**HIST 281 American Economic History 3 credits**
Same as BA 281.

**HIST 326 The Development of American Foreign Policy 3 credits**
A survey of U.S. foreign relations from colonial time to the present, with emphasis on the constitutional, institutional and political factors shaping the formation and execution of American diplomacy. Prerequisite: PS 100. Same as PS 342.

**HIST 334 U.S. Women's History 3 credit**
This course provides a survey of the major themes and events in the history of women in the United States from colonial settlement to the present. Particular attention is given to how women’s experiences in the family, the work place and the political arena have been shaped and molded by persistent cultural ideals and by class and race. Prerequisite: HIST 110.

**HIST 355 Modern World History 3 credits**
This course provides a specialized examination of world history in the Twentieth Century. Prerequisite: HIST 101.

**HIST 374 Modern America, 1945-Present 3 credits**
This course provides specialized study of the historical period examined in the second half of HIST 111. Topics include the 1920’s, the Great Depression, New Deal, World War II, Cold War, the Civil Rights movement, Vietnam, Watergate, stagflation, the 1980s and contemporary American life. Prerequisite: HIST 111.
Interdisciplinary
ID 102 Using the Internet for Research  1 credit
Students will learn the skills necessary to search the Internet to locate
needed information and materials, evaluate critically the materials
they find, and how to cite what they find in a bibliography. Students
will receive course materials via e-mail from the instructor, including
“lecture” and discussion material along with references to supporting/
clarifying information on the World Wide Web.

ID 120 Strategies for Success in College  3 credits
This course provides an in-depth exploration of adult learning theory.
Students will examine techniques for successful course navigation,
choice of a major, and degree completion. Study will also focus on
various teaching and learning models, delivery methods and how
those relate to individual learning styles.

ID 142 African American Culture  3 credits
This course introduces students to a visual and narrative portrait of
African American heritage, culture and people. The course will chroni-
cle important periods in African American history that have shaped
the outlook, lives and hopes of African Americans today. Students
will be exposed to poetry, songs, music, literature and personalit-
esthat created the African American legacy and heritage. Meets cultures
requirement.

ID 225 Geography Content for Teachers  1 credit
This course provides an overview of physical geography as related to
location, landform, climate, resources and place names; and cultural
geography as related to distribution of the world’s population, how
people use resources such as transportation, communication and
the impact cultural differences have on physical land.

ID 232 Grammar Content for Teachers  1 credit
This course provides knowledge of grammatical aspects of the
English language (nouns, verbs, adjectives, clauses, verb-subject
agreement, etc.) as they relate to the development of effective oral
and written communication skills.

ID 239 American History Content for Teachers  1 credit
This course provides an overview of American history for the period
from colonization through recent times. Topics will include a study of
individuals, groups and events along with their impact on the develop-
ment of the United States.

ID 246 World History Content for Teachers  1 credit
This course provides an overview of world history for the period
from early civilization through recent times. Topics will include a study
of individuals, groups and events along with their impact on the people
of the world.

ID 301 Critical Thinking  3 credits
This course helps the student develop and strengthen the ability to
reason soundly and critically. It addresses the purpose and process
of critical thinking, language and critical thinking, patterns of argument,
and modes of reasoning. Prerequisites: ENG 102 or 202 and Junior
Standing. May not be used to satisfy a humanities general education
requirement.

ID 370 Careers: Theory and Strategies  1 credit
The Careers: Theory and Strategies class introduces students to the
world of career planning, job searching skills and techniques and incor-
porating knowledge acquired in college into a professional setting. The
course will include theory as well as practical application of knowledge.

ID 498 Senior Project  3 credits
A capstone project intended to integrate the general education learn-
ing outcomes with the learning outcomes in the major demonstrating
baccalaureate level achievement. Prerequisites: ENG 102, ID 301,
Senior status, with 15 or fewer credits remaining to be completed
through Upper Iowa University.

Management Information Systems
(A technology use fee may be assessed; contact your program office.)

MIS 101 Introduction to Computer Applications  3 credits
An introduction to general computer applications and concepts, the
course focuses on the use of an integrated software package. Included
are use of the operating system and applications such as word pro-
cessing, spreadsheets, databases, presentation software, embedding
and linking, the internet and the World Wide Web. Meets the computer
skills requirement.

MIS 201 Principles of Computer Programming  3 credits
An introductory course in structured programming. Uses a high-level
programming language to teach the basics of computer programming.
Topics include data types, data structures, control structures, ordinal
types, arrays, functions, input and output, procedures and record pro-
cessing. The programming language that will be taught in this course
is Visual Basic. Prerequisite: MIS 101.

MIS 210 COBOL Programming  3 credits
An accelerated course in COBOL programming. Emphasis is placed
on structured design, coding and file processing techniques. Prior
programming experience is required. Prerequisite: MIS 201.

MIS 211 Web and Windows COBOL Programming  3 credits
The primary purpose of this course is to give students an understand-
ing of how Internet applications and Windows API (application
program interfaces) for GUI (graphical user interface) applications are
developed in COBOL, the object-oriented common business oriented
language. Prerequisite: MIS 201.

MIS 354 C++ Programming  3 credits
An introduction to C++ Programming language, the course focuses on
the object-oriented programming technique. The course is designed
for a programming course. Although the course focuses on the use
of Borland C++ and Microsoft Visual C++ 5.0 compiler, the student
will be able to create the programs using any C++ compiler, often
with little or no modification. Prerequisite: MIS 101 or permission of
instructor.

MIS 360 Project Management  3 credits
This course introduces the student to the theory and practice of project
management. In addition to focusing on the fundamentals of project
management, the course focuses on the people skills needed to man-
age a project. It provides a blend of theory and practice by exposing
the student to “realistic” examples and case studies. The student will
also receive hands-on exposure to project management by designing
and managing a project from the planning phase through the imple-
mentation phase. Prerequisite: BA 210.

MIS 377 Systems Analysis and Design  3 credits
An in-depth study of the process of information systems develop-
ment. Topics include data collection and analysis, structured tools,
modeling, design of information systems and importance of verbal
and written communication skills. Includes the use of a full-featured
CASE tool. Prerequisites: MIS 201 and BA 222.

MIS 384 Advanced Computer Programming  3 credits
An advanced course in structured programming using a popular
programming language. Topics include: sorting, tables and table
processing, control breaks, data manipulation and file (transaction)
processing. Prerequisite: MIS 201.

MIS 388 Telecommunications and Networks  3 credits
An introduction to communications and the latest trends in business
communications. Topics include the history and theory of physical
and electronic communication, protocols, local and wide area net-
works, media and equipment, transmission, architectures, manage-
ment and administration. Prerequisites: MIS 101 and BA 222.
### Mathematics

<table>

<td>MATH 109</td>
<td>Quantitative Methods</td>
<td>3</td>
</tr>
<tr>
<td>MATH 220</td>
<td>Elementary Statistics</td>
<td>3</td>
</tr>
</tbody>
</table>

This course emphasizes study skills for algebra and calculator use while covering the following topics: basic algebra including real numbers, variable expressions, solving equations and equation applications. This course is designed for students who have not had a mathematics course for several years or who have never had an algebra course. This course is the first in a series of two courses that will prepare the student for the general education requirement in mathematics. This course may not be taken for credit after successfully completing a higher level math course. Note: credit from courses below the 100-level does not count toward the minimum 120 hours required for graduation.

### MIS 415 Database Management 3 credits

Presents database theory and application and management of data as an organizational resource. Students will learn the types of data bases and to program in a popular database language. Topics include managing organizational information needs, logical and physical data models, data modeling, architectures, normalization, recovery and administration. Prerequisites: MIS 101 and BA 222.

### MIS 435 Information Systems Strategies (Cases) 3 credits

Integrates all management, information systems and computer science learning. Focus will be on strategic uses and management of the organization’s information resources. Topics include historical and current cases, strategic and tactical systems use, ethics, multicultural and global influences and organizational perspectives. Prerequisites: Completion of all credits in this major.

### MIS 461 Accounting Information Systems 3 credits

Introduces the student to the integration of information systems into the accounting field. A primary focus is the introduction of controls into the accounting system. Topics include modeling and data models, data flows, documentation, control goals and plans, the control matrix, manual and computerized accounting systems and accounting information systems in the organizational context. Prerequisites: BA 201, BA 202, BA 222 and MIS 267.

### Music

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS 100</td>
<td>Introduction to Music</td>
<td>3</td>
</tr>
</tbody>
</table>

A study of the elements that comprise all music and a survey of the world’s greatest composers and their music, from the age of Bach and Handel to the present. Meets the humanities requirement.

### Nursing

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>NUR 200</td>
<td>Health Assessment</td>
<td>3</td>
</tr>
</tbody>
</table>

This course provides theory and assessment skills to perform health histories and holistic assessments on adult patients with application to pediatric and geriatric patients. The legal and ethical aspects of the examination and documentation will be addressed.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>NUR 310</td>
<td>Nursing Informatics</td>
<td>3</td>
</tr>
</tbody>
</table>

This course provides introduction to the essential concepts of Nursing Informatics. Nursing students will learn to use computers and information strategies for their practice. Students will become acquainted with the applications for nursing documentation, word processing, databases, spreadsheets, internet access and presentations. The use of word processing for research papers that use official formatting standards will be presented.

### Pathophysiology 3 credits

Pathophysiology is the study of the abnormal functioning of diseased organs with application to medical procedures and patient care. This course examines the etiology, symptoms, pathogenesis, diagnosis and therapy of disease. Same as BIO 370.

### Education Concepts for Nurses 3 credits

This course introduces the registered nurse to the basic concepts of education as they apply to the nursing realm. It will include a general overview of teaching/learning principles with special attention to learning styles, adult learners and client education. The format of this highly interactive course will involve implementation of actual teaching/learning principles culminating in an in-depth teaching project presented by each learner. The overall purpose of this course is to assist the registered nurse in making the leap from education to practice in the important role of nurse educator.

### Community Health Nursing 4 credits

This course focuses on care of the community as client. Emphasis is on the role of the nurse in addressing the preventative health needs of populations at risk and other community groups at risk and other community groups in various community practice settings. Current public health problems, trends in health care delivery and community
resources are examined. Students analyze the sociocultural, political, economic, ethical and environmental factors that influence community and global health. Prerequisite: NUR 300.

**NUR 360 Professional Seminar** 3 credits
This course focuses on the identification, exploration and analysis of selected professional issues in healthcare and nursing. Historical, social, political, legal, genetic and ethical factors will be examined. Traditional and emerging roles of the nurse will be analyzed to identify the present status and future of professionalism in this rapidly expanding field of nursing. Case studies and analysis serves as a mechanism for the integration of these factors into the professional nurse decision-making process. The course will culminate in a professional issues position paper presented to the class utilizing a seminar method.

**NUR 370 Nursing Leadership and Management** 4 credits
This course explores the theoretical basis for nursing leadership and management. Effective skills of nurse leaders/managers in practice settings are analyzed and discussed. Selected current issues and trends in health care delivery and nursing are integrated into the course. Comparisons are made to other health care delivery systems outside the United States. Participation in a leadership/management situation with a nurse mentor allows the student the opportunity to analyze the application of leadership principles.

**NUR 400 Nursing Research** 3 credits
This course introduces the student to the research process and focuses on the study of research process as a base for nursing practice. Emphasis is on critical analysis of published research studies with regard to implications for clinical nursing practice. Ethical concepts related to the research process will be integrated throughout the course. Prerequisite: MATH 220.

**NUR 410 Preceptorship** 4 credits
This course is a special study designed to allow the Registered Nurse to explore concepts of interrelationships of nursing leadership, management, clinical and research practice. A capstone project intended to integrate the general education learning outcomes with the learning outcomes in the major demonstrating baccalaureate level achievement is required. Prerequisites: ENG 102, ID 301, senior status, 29 credits of the BSN curriculum, and 15 or fewer credits remaining to be completed through Upper Iowa University.

**Philosophy**

**PHIL 150 Introduction to Philosophy** 3 credits
A survey of the significant theories and theorists that have shaped the way human beings perceive their relationship to, and place in, the universe large. This course examines the classic questions of human existence: who are we, where did we come from and what is our destiny. Competing philosophical viewpoints will be represented. Ultimately, students will be encouraged to develop or explain critically their own positions regarding these fundamental problems. Meets the humanities requirement.

**PHIL 202 Contemporary Ethics** 3 credits
This course covers some of the main threats to doctrines and ideas of moral philosophy, including nihilism, relativism, egoism, utilitarianism, the categorical imperative, virtue, and the social contract. Rather than keeping these as pure theoretical constructs, these ideas will be applied to real life, practical situations, such as those involving ethics in the workplace, and important current debates. Meets the humanities requirement.

**Physical Science**

**PHY 110 Introduction to Astronomy** 3 credits
This course provides a fundamental understanding of celestial objects, with emphasis on the sun, the moon, the planets and the stars. Major topics include telescopes, the formation of the solar system and the universe, solar energy and the life cycles of stars. Meets the science requirement.

**PHY 215 Local Field Science** 3 credits
Same as BIO 215.

**Political Science**

**PS 100 U.S. Government** 3 credits
A survey of the basic constitutional principles, political institutions and public policies of American national government. Meets the social science requirement.

**PS 211 International Relations** 3 credits
A study of the changing international order and the collapse of Soviet communism; international conflict and cooperation; international organizations and a revitalized UN; the Third World and international diplomacy. Meets the social science requirement.

**PS 230 State and Local Government** 3 credits
A survey of the basic principles, organizations and functions of government on the state, county, municipal, township and district levels. Meets the social science requirement.

**PS 250 Special Topics** 3 credits

**PS 342 The Development of American Foreign Policy** 3 credits
Same as HIST 342.

**PS 362 The Legislative Process** 3 credits
A general introduction to American representative assemblies, with primary attention given to the U.S. Congress. Emphasis is on the interplay of relationships with legislative bodies affecting the shaping of legislation.

**PS 403 Internship** 3 credits
Academic credit can be received for internships in the state legislature, the U.S. Congress, election campaigns, governmental agencies, study abroad or other similar activities. Prior planning and approval is required.

**PS 411 American Constitutional Law I** 3 credits
This course examines the role of the judiciary and the U.S. Supreme Court in the American political system. A case approach is taken to the development of U.S. constitutional law. Topics include the powers of the President and Congress, Federalism, the commerce clause, the taxing and spending power, and the contract clause.

**PS 412 American Constitutional Law II** 3 credits
Topics covered include civil liberties, equal opportunity and equal protection under the law for minorities, freedom of speech and religion and the right to privacy, and the rights of those accused of crimes.

**Psychology**

**PSY 142 Human Growth, Development and Guidance** 3 credits
Same as EDU 142.

**PSY 190 General Psychology** 3 credits
An introduction to the scientific study of behavior and mental processes, including major approaches and methodologies. The course samples a broad range of topics, including biological foundations, development, learning, cognition, personality, abnormal psychology and social behavior. Meets the social science requirement.

**PSY 201 Adjustment** 3 credits
A course designed to apply psychological approaches to normative events during life’s developmental stages, with a focus on environmental factors and the psychology of stress in a changing world. Meets the social science requirement.
PSY 212 Developmental Psychology: Birth to Adolescence 3 credits
This course focuses on how individuals grow and change from conception to adolescence. It addresses the biological factors that exist at birth, the psychosocial factors that affect changes and the resulting developmental stages. Prerequisite: PSY 190. Meets the social science requirement.

PSY 221 Introduction to Human Services 3 credits
A survey of the professions, programs and agencies involved in the delivery of human services. Prerequisite: PSY 190.

PSY 222 Developmental Psychology: Young Adulthood to Late Adulthood 3 credits
This course takes the learner through the developmental stages of the human life cycle from the end of adolescence to the advanced stages of aging covering the physical changes, the social challenges and the psychological growth of an individual during those years. Prerequisite: PSY 190. Meets the social science requirement.

PSY 232 Group Dynamics 3 credits
An analysis of group behavior in small and large groups of various types. The focus is on social interaction in the formation and operation of groups, and on the social system’s approach to understanding group behavior. Same as SOC 232. Prerequisite: PSY 190 or SOC 110. Meets the social science requirement.

PSY 240 Conflict Resolution 3 credits
An overview of conflict resolution and the mediation process as an alternative dispute resolution mechanism. Learning activities—conceptual and experiential in nature—are designed to promote an integration in the areas of problem solving behavior, skill development and personal awareness. Prerequisite: PSY 190. Meets the social science requirement.

PSY 250 Special Topics 3 credits

PSY 260 Gender Roles 3 credits
An analysis of the changing cultural notions and social realities regarding male/female roles and relationships. Topics may include: cross-cultural research concerning gender differences; the role of various socializing agents in shaping sexual identities; and the effects of gender differences on political and economic processes. Same as SOC 260. Prerequisite: SOC 110 or PSY 190. Meets the social science requirement.

PSY 270 Human Sexuality 3 credits
An introduction to the biological, psychological and social aspects of human sexuality. The course includes a study of sexuality in relation to the life cycle. Prerequisite: PSY 190. Meets the social science requirement.

PSY 302 Substance Abuse 3 credits
The effects of psychoactive drugs are studied in this course, as well as the origins of substance abuse, characteristics of substance abusers, and consequences for the individual, family and society. Approaches to substance abuse treatment are discussed. Prerequisite: SOC 110 or PSY 190.

PSY 310 Social Psychology 3 credits
This course presents the social aspects of human behavior, including personal perception, social cognition, attitude formation and change, attribution, prosocial behavior and interpersonal attraction. Same as SOC 310. Prerequisite: SOC 110 or PSY 190.

PSY 323 Cognition 3 credits
An analysis of cognitive processes, including attention, perception, concept formation, language, memory, problem solving and decision making. Prerequisite: PSY 190.

PSY 335 Biology and Behavior 3 credits
This course explores the relation of biological function and human behavior; the role of genetic, hormonal and neurological factors in intelligence, sex differences, biological rhythms and emotional disorders. Disturbances produced by agents such as drugs and disease are studied. Does not satisfy the general education science requirement. Prerequisite: PSY 190.

PSY 338 Motivation 3 credits
A review of the major theories that attempt to explain motivated behavior from a physiological, cognitive, social, environmental and/or learning point of view. Application of motivation theories to organizations, education, sports and daily life. Prerequisite: PSY 190.

PSY 355 Skills and Strategies in the Helping Professions 3 credits
An overview of helping techniques, theory, and practice. Learning activities—conceptual and experiential in nature—are designed to promote growth in the areas of skill, development, and personal awareness. May not be taken by learners who have completed PSY 354. Prerequisite: PSY 190.

PSY 360 Abnormal Psychology 3 credits
A survey of the major classifications of psychopathology, including conceptual approaches to the understanding of psychopathology, etiology and treatment. Prerequisite: PSY 190.

PSY 373 Research Methods 3 credits
This course explores the development of skills essential to critical evaluation of behavioral research. The emphasis is on understanding scientific method, research, methodologies and statistical analysis. Prerequisites: SOC 110 or PSY 190 and MATH 220.

PSY 375 Methods in Human Services I 3 credits
This course explores the assumptions, strategies and techniques used in the delivery of human services, as well as problem identification and skill development. Same as SOC 375. Prerequisite: SOC 110 or PSY 190.

PSY 377 Methods in Human Services II 3 credits
This course is designed to educate the prospective human services/social worker with the newly emerging client population in America and to recognize the impact of the interaction between clients and their environments, looking at cultural barriers, diverse at-risk populations and the systems that sustain at-risk clients. Same as SOC 377. Prerequisite: PSY 375 or by permission of the instructor.

PSY 383 Human Behavior in the Social Environment 3 credits
An analysis of individual, group and cultural influences on human behavior. The emphasis is on contrasting levels of analysis and application to a variety of environmental settings. Note: Some background in both psychology and sociology is strongly recommended. Same as SOC 383. Prerequisite: SOC 110 or PSY 190.

PSY 391 Social Work Practice I: Individuals 3 credits
This course prepares the prospective human services worker for entry into the profession by emphasizing theory, practice, and personal awareness. Specific techniques of interviewing and working with individuals will be covered through reading, lecture, and in-class practice.

PSY 392 Social Work Practice II: Families and Groups 3 credits
This course prepares the prospective human services worker to work with families and groups. It covers theories of family and group dynamics and examines the values and ethics of social work as they apply to work with families and small groups. Specific techniques will be covered through reading, lecture, discussion, and in-class practice.

PSY 393 Social Work Practice III: Communities and Social Institutions 3 credits
This course prepares the prospective human services worker for entry-level work with communities and social institutions. It examines the values and ethics of social work as they apply to work with large groups. Specific information about organizations and working with
them will be covered through reading, lecture, and in-class role play. Some field work in the community is required.

PSY 397 Social Gerontology 3 credits
This course focuses on personal, interpersonal and societal factors in the human aging process. Emphasis is on family, community and governmental responsibility in defining and resolving problems of the aged in a modern industrial society. Prerequisite: SOC 110 or PSY 190.

PSY 403 Internship 3 credits
Supervised field experience in a selected setting. Consent of faculty and written report are required. Prerequisite: PSY 190 and consent of academic advisor.

PSY 409 Psychology of Disaster 3 credits
Focuses on the psychological and physiological human response to disasters. Using clinical research and case histories, this course studies normal and abnormal psychological reactions, the recovery process and principles of mental healthcare for victims of mass disasters. Differences between natural and man-made disasters are examined and factors that either worsen or mitigate the traumatizing after-effects are reviewed. Psychological aspects of Weapons of Mass Destruction (WMD) disasters are also considered. Learners explore how individuals react to natural disasters and terrorist mass-casualty incidents. Prerequisite: PSY 190.

PSY 432 Personality 3 credits
A survey of the major theories of the nature and development of personality. Prerequisite: PSY 190.

PSY 440 Industrial Psychology 3 credits
A study of the relationship between the individual worker and the work environment. Emphasis is on the exploration and application of the most influential theories. Topics include organizational dynamics, work motivation, job satisfaction, personnel selection and training, and group work influences. Prerequisite: PSY 190.

PSY 444 Assessment 3 credits
An introduction to the assumptions and techniques of psychological assessment. Prerequisites: PSY 190 and MATH 220.

PSY 445 Learning and Memory 3 credits
An introduction to the basic principles of learning and behavior in human and nonhuman animals with emphasis on applications of Pavlovian conditioning, instrumental conditioning, and basic memory processes. Prerequisite: PSY 190.

PSY 450 Special Topics 3 credits

PSY 454 Issues and Ethics in the Helping Professions 3 credits
An analysis of issues and ethical problems involved in the helping professions and programs. Prerequisite: PSY 190.

PSY 474 Organizational Behavior 3 credits
Same as BA 474. Prerequisite: PSY 190 or SOC 110.

PSY 499 Special Project 1-3 credits
Individualized independent investigation with supervision. Consent of the academic advisor or center/program director is required. Prerequisite: PSY 190.

Public Administration
PA 305 Grant Writing 3 credits
This course is designed to introduce students to grantmanship principles and practices. Students will develop grant-seeking and grant-writing skills through practical learning opportunities. Students will learn to develop strong problem statements and designs for grants, seek out resources for funding, write a proposal, and develop budget and management strategies for the proposed project. Prerequisite: ENG 102.

PA 306 Principles of Emergency Management 3 credits
This course introduces students to the field of emergency management. Learners will analyze various aspects of terrorism and emergency management and the responsibilities of public administrators for emergency management and preparedness in a variety of situations. Procedures and requirements for emergency management, including identification of hazards and response capabilities in both government and the private sector, will be examined.

PA 320 Political and Policy Basis of Emergency Management 3 credits
Introduces concepts and basic descriptive information about the political system within the context of disaster policy and explores how political factors play a role in all phases of emergency management—regardless of the type or nature of the disaster event. Prerequisites: PS 100, PS 230 and PA 306.

PA 332 Emergency Preparedness and Planning 3 credits
Explores the needs of public safety officials who have responsibility for emergency preparedness planning and response. Includes contexts for emergency planning—legal and jurisdictional; responsibility for planning and responding to emergencies; different types of emergencies, and an approach to planning that can be applied to emergency situations. Addresses specific issues associated with the planning process, including the role of the manager, the necessity for multi-agency involvement, various analytical techniques employed in planning, different levels of emergency planning, and different elements of the plan. Utilizes case analysis and discussion. Prerequisites: PA 306 and PA 320.

PA 346 Disaster Response and Recovery 3 credits
Theoretical examination and practical application of post-disaster management activities including human behavior in emergency situations, warning, evacuation, sheltering, triage, damage assessment, disaster declaration, debris removal, media relations, crisis counseling, individual and public assistance, and other relevant functions. Decision making, incident command, EOC operations, coordination and service delivery strategies are also discussed. Prerequisite: PA 332.

PA 364 Public Administration 3 credits
A study of politics, administration and bureaucratic policy making at local, state and national levels, with emphasis on the relationship between governmental bureaucracies and the political system in the United States.

PA 371 Urban Management 3 credits
This course examines the history, growth and development of the modern urban area. Urban problems are identified, along with the management skills necessary to deal effectively with them. Urban politics and their impact on policy determination are also examined.

PA 403 Internship 3 credits
Supervised field experience in a selected setting. Consent of the academic advisor/center director and written report are required.

PA 404 Integrated Emergency Management 3 credits
Through a case/scenario driven approach, learners deal with scenario-related threat events of increasing complexity, urgency, and intensity. Participants develop emergency policies, plans, and procedures to ensure an effective response. Preparedness and Response, Recovery and Mitigation, Public and Media Relations, and Political/Public Policy issues are integrated through the case/scenario. Prerequisite: PA 306.

PA 414 Principles and Practice of Hazards Mitigation 3 credits
Exploration of natural and man-made hazard mitigation and its role in disaster management; analysis of past and current government and private sector programs; examination of new approaches; structural versus non-structural actions; role of the natural environment in mitigating natural hazards; role of prevention/preparedness in reducing the impacts of future terrorism events. Prerequisites: BA 210 and PA 306.

PA 430  *Cases in Public Administration*  
A concentrated study of the techniques of public administration, including the public budgeting process, law enforcement administration, recreation administration, and the administration of other public services. Prerequisite: PA 364.

PA 440  *Public Budgeting Process*  
Areas studied include budget planning, formulation, execution, and auditing; the sharing of taxing and spending power between the executive and legislative branches; the agency role of advocacy in budget preparation; budgets as a reflection of public policy.

PA 445  *Administrative Law*  
Areas explored include bureaucracy and the regulatory process, judicial review of administrative action; the Administrative Procedures Act of 1946; delegation, standing, exhaustion, sovereign immunity, rulemaking, tort liability, evidence, discretion, investigation and enforcement.

Religion

REL 120  *Introduction to World Religions*  
An investigation of the phenomenon of religion with a special emphasis on systems of belief, codes of conduct, use of ritual and notions of the sacred. Several religious traditions (e.g., Hinduism, Buddhism, Taoism, Judaism, Christianity, Islam) will be examined and compared with reference to these issues. Meets the humanities requirement.

REL 205  *Religions of Asia*  
This course is intended to serve as an introduction to the major religious and cultural traditions of South and East Asia. The main countries involved are India, China, and Japan with some additional consideration of Sri Lanka, Tibet, central Asia, Korea, Myanmar and Thailand. The course will proceed primarily by textual analysis with an emphasis on historical development within each religious tradition. Meets the humanities requirement.

Sociology

SOC 110  *Principles of Sociology*  
A basic introduction to sociology as a scientific analysis of the social relations and practices of human beings. Specific attention is given to social psychology, various forms of social stratification and inequality, social institutions and social change. Meets the social science requirement.

SOC 220  *Social Problems*  
A critical investigation of selected social problems: their causes, development and the alternative social policies that address these problems. Topics will include: substance abuse, the problems of family life, poverty and its relation to different forms of social inequality. Meets the social science requirement.

SOC 224  *Introduction to Criminal Justice*  
History of the development of the criminal justice system in America. The everyday practices in this subsystem and the articulation amongst policing, judicial and correctional institutions. Prerequisite: SOC 110.

SOC 232  *Group Dynamics*  
Same as PSY 232.

SOC 237  *Criminal Law*  
Surveys the historical development of criminal law in America. Analysis of the effects of English common law, a federal structure, court decisions, legislated codes, historical events and social changes. Prerequisite: SOC 110.

SOC 240  *Diversity in the United States*  
This course provides sociological perspectives for recognizing the diversity within our society and for analyzing the development and current position of complex subcultures within the structure of modern America. Meets firstly the cultures requirement or secondly the social science requirement, but not both.

SOC 260  *Gender Roles*  
Same as PSY 260.

SOC 291  *Community Oriented Policing*  
This course explores alternative policing methods utilized in communities across the United States. Students will become familiar with proactive and problem-oriented policing strategies ranging from youth education programs to saturation patrols. The effectiveness of alternative policing strategies will be discussed and compared to the traditional policing approach.

SOC 304  *Globalization*  
This course explores the impacts of globalization on social institutions, structures, and relationships. Particular emphasis is placed on global economies, organizations, and political arrangements and their roles in shaping world inequality, cultural change, and environmental impacts. Students will be required to demonstrate understanding of global societies and networks, and their position in the global society.

SOC 310  *Social Psychology*  
Same as PSY 310.

SOC 315  *Juvenile Justice*  
Development and operation of juvenile courts, treatment and rehabilitation strategies, diversion strategies. Prerequisite: SOC 110.

SOC 321  *Juvenile Delinquency*  
Juvenile gangs; causes and consequences of delinquency; prevention, treatment and control of delinquency. Prerequisite: SOC 110.

SOC 330  *Criminology*  
An analysis of various forms of crime, as well as various elements of the criminal justice system. The emphasis is on theories of crime and juvenile delinquency. Topics will include: street crime, organized crime, white-collar crime and the role of substance abuse in criminality and delinquency. Prerequisite: SOC 110.

SOC 334  *Introduction to Sociological Research Methods*  
This course is an introduction to the use of the scientific method of observation in sociology. Quantitative and qualitative research approaches are defined. Data collection techniques including experiments, survey research, field research, and unobtrusive observation are addressed in detail. Population sampling strategies and data analysis techniques are covered. Prerequisite: MATH 220.

SOC 337  *Victimization*  
Development and operation of policies and programs for the victims of crime, victim compensation schemes from colonial to modern times, victim/offender confrontation programs. Prerequisite: SOC 110.

SOC 347  *Deviance and Social Control*  
Basic theories of the causes and consequences of deviant behavior, the contribution of agents and agencies of social control in the labeling of deviant actors and their subsequent careers. Prerequisite: SOC 110.

SOC 361  *Marriage and the Family*  
This course represents a sociological approach to understanding the family as a social institution: courtship, marital and family practices, the family as an agent of socialization, and changes in the family in the 20th century. Prerequisite: SOC 110.

SOC 362  *Criminal Investigations*  
Fundamentals of criminal investigation: crime scene search and recording; collection and preservation of physical evidence; scientific aids; modus operandi; sources of information; interview and interrogation; follow-up and case preparation. Special emphasis on leadership and management actions taken to enhance investigative efforts. Prerequisite: SOC 110.
SOC 365 Sociology of Policing 3 credits
The history of policing in America; structure and functions of policing in contemporary America; police community relations in urban and rural settings. Prerequisite: SOC 110.

SOC 367 Ethics in Criminal Justice 3 credits
An introduction to concepts of ethics and an examination of contemporary ethical issues in the field of criminal justice. Prerequisite: SOC 110.

SOC 375 Methods in Human Services I 3 credits
Same as PSY 375.

SOC 377 Methods in Human Services II 3 credits
Same as PSY 377.

SOC 380 Corrections and Punishment 3 credits
The history of corrections in American society, corrections and punishment in contemporary America, alternatives to institutional treatment. Prerequisite: SOC 110.

SOC 381 Political Sociology 3 credits
This course addresses the manifestation and use of power in society. Three major theories of social power are addressed. The negotiation of power arrangements between groups and the institutionalization of power within state structures is addressed. Particular emphasis is placed on the role of social power in determining resource distribution, inequality, and the formation of laws.

SOC 383 Human Behavior in the Social Environment 3 credits
Same as PSY 383.

SOC 384 Social Welfare Programs and Policies 3 credits
An analysis of social policies in the United States, with emphasis on the dimensions of choice and alternative policies, along with assessment of contemporary social welfare issues, programs and legislation. Prerequisite: SOC 110.

SOC 388 Comparative Study of Criminal Justice 3 credits
Students will analyze the criminal justice system in the United States in comparison to criminal justice systems and approaches worldwide. Different global political, economic, and cultural systems will provide the basis to evaluate the goals, structure, and correction strategies employed in the United States' criminal justice system.

SOC 392 Sociological Theory 3 credits
Development of social theory from Auguste Comte to Anthony Giddens. A critical appreciation of the concepts, models and analytical schemes employed in contemporary theories. Prerequisites: junior status and nine credits of sociology.

SOC 398 Justice Administration 3 credits
This course studies the management and control of the criminal justice system. The learner will be able to discuss the reasons for and effectiveness of management techniques applied to the justice system. Prerequisite: SOC 110.

SOC 403 Internship 3 credits
In this course, students gain supervised field experience in a selected setting. Note: Consent of the academic advisor/center director is required. Prerequisite: SOC 110.

SOC 418 Applied Research Methods 3 credits
Applied Research Methods is the capstone experience for sociology majors. Students will demonstrate their understanding of sociological theory and methods of scientific, sociological inquiry. Students will be required to demonstrate understanding of the discipline of sociology through formation of a sociological research question, completing a review of current literature, and developing a research proposal.

Spanish
SPN 101, 102 Beginning Spanish I and II 3 credits each
An introduction to the Spanish language involving the study of basic vocabulary, verb forms and grammatical structures; listening comprehension and rudimentary speech receive special emphasis. Students who have successfully completed two years of high school Spanish may be admitted directly into SPN 102 with permission of the instructor. Students with questions about their proficiency level should consult the instructor before signing up for a Spanish class. Native speakers of Spanish may take Spanish 101 and/or Spanish 102 only with the instructor’s permission. Meets the humanities requirement.

SPN 125 Introduction to Hispanic Culture & Society 3 credits
A multidisciplinary study of Latin American culture(s) utilizing the contributions of geography, political science, history, sociology, anthropology, economics, literature, art and religion. Meets firstly the cultures requirement or secondly the social science requirement, but not both.

SPN 306 Culture and Society of Spain 3 credits
This course provides a look at the world of Spain in all facets: culture, society, politics, and economy. It provides a general historical overview (especially the age of empire), but with the most specific focus on the past century and a half, beginning with Spain’s restoration and loss of the final pieces of its empire with the Spanish American War, and touching on important events and the cultural climate and forms of modern Spain. Prerequisite: at least one prior social science or culture course. Meets firstly the cultures requirement or secondly the social science requirement, but not both.

Theatre
THE 110 Introduction to Theatre 3 credits
An introduction to the world of theatre through a survey of its interdependent parts: (1) the unique qualities of its varied dramatic forms, (2) genres or types of theatre into which most plays can be categorized, and (3) the relationships that exist between an audience and the major participants of a play-playwright, director, designer and actor.
GRADUATE PROGRAM

MASTER OF BUSINESS ADMINISTRATION (MBA)

Areas of Emphasis
Accounting
Corporate Financial Management
Global Business
Human Resources Management
Organizational Development
Quality Management

MASTER OF HIGHER EDUCATION ADMINISTRATION (MHEA)

Areas of Emphasis
Community and Technical College Administration
Leadership

MASTER OF PUBLIC ADMINISTRATION (MPA)

Areas of Emphasis
Emergency Management and Homeland Security
General Study
Government Administration
Health and Human Services
Nonprofit Organizations
Public Personnel Management
GRADUATE PROGRAM GENERAL INFORMATION

Applying for Admission
To qualify for admission to the Upper Iowa University Graduate Program, the learner must meet the requirements listed in this section. The graduate academic advisor will evaluate prior educational experience and grades to determine admission to Upper Iowa University’s Graduate Program. The learner will be notified in writing of the approval or denial of admission.

Admission Requirements:
1. A baccalaureate degree from a regionally accredited college or university. (If from a foreign institution, an English translation and evaluation must accompany the record.)
2. A cumulative GPA of:
   a. 2.75 or better in undergraduate work or a GPA of 3.0 from the most recent 60 semester credits of undergraduate work.
   b. 3.0 or better for not fewer than nine semester credits of prior graduate work relevant to the area of emphasis. Applicants with fewer than nine semester credits of graduate work or less than a 3.0 GPA for graduate work may have applications evaluated based on undergraduate work.
   c. or an acceptable GRE or GMAT score. See http://www.gre.org or http://www.gmat.org regarding taking the GRE or GMAT exams.
3. Verification of English language proficiency requirements. See page 10.
Learners electing to complete the area of emphasis in accounting must hold a baccalaureate degree in accounting or have completed at least 30 undergraduate semester credits in accounting.

Foundation courses are available through UIU’s Undergraduate Program.

Application Procedure
1. Complete the graduate application at the end of this catalog.
2. A complete application will include:
   • A completed application form
   • A nonrefundable $50 application fee (Fee waived if application is completed online. Fee also waived for UIU alumni and for graduates/faculty/staff of institutions that are members of the UIU Partnership Advantage Program, as well as current UIU employees.)
   • Official transcripts from each college or university attended

(Application materials and transcripts will be kept on file for one year. Learners who do not complete the admission process and enroll within one year may be required to resubmit materials.)
3. After reviewing a completed file of the admission materials, a letter will be forwarded to the learner concerning admission status.
4. Once admitted, the learner is required to complete the Pre and Post Assessment Test (PPAT) prior to the learner’s first graduate course and again during the Capstone BA 590, HEA 590 or PA 590 Research Seminar.
5. International Center Students should check the local center for the current Program Application fee schedule. This will vary by country.

GRE/GMAT
Applicants for the graduate program may need to submit Graduate Record Examination (GRE) or Graduate Management Admission Test (GMAT) scores to complete the admission process. Acceptable scores are required for learners who do not meet the 3.0 grade point average from the most recent 60 semester credits or who do not meet a 2.75 grade point average for all undergraduate coursework. GRE/GMAT scores are used to supplement other evidence of preparation for Graduate work. An acceptable score is 1090 for GRE, 308 for GRE revised General Test or 550 for GMAT. This must be submitted as an official GRE/GMAT transcript, which is only available for five year following completion of the GMAT or GRE.

Pre and Post Assessment Test (PPAT)
The Pre and Post Assessment Test has been implemented as a way to assess how well our academic programs meet their objectives. It is part of UIU’s quality model. A student is required to take the pre-test prior to being registered for their first course.
A student is also required to complete the posttest while taking the 590 research Seminar courses, a grade of incomplete will be assigned in the course until the post test is completed. The PPAT does not otherwise affect individual course grades. No individual PPAT scores are used or reported — the institution assesses change for learners in general and reports only aggregate scores.

Transfer of Credit
The Upper Iowa University graduate program will accept up to 12 semester credits of relevant graduate credit from other regionally accredited graduate institutions. Transfer credit should be arranged at the time of application. Only courses in which the learner has earned a grade of B or above are eligible for transfer. All graduate transfer credit is subject to review and credit will be transferred only from regionally accredited institutions or graduate level ACE evaluated coursework. All credit transferred must be closely related to the learner’s program. The substitution of any transferred course to the learner’s program. The substitution of any transferred course for a core or emphasis course will be based on an evaluation of the learner’s exposure to equivalent subject matter. Approved transfers of credit will be officially recorded after the learner is accepted in the program and completed at least one course with Upper Iowa University. All requests for transfer of credit must be submitted in
writing by the learner to the graduate academic advisor, Upper Iowa University, PO Box 1861, Fayette, IA 52142.

**Non-Matriculated Student Policy**
Students may take classes at Upper Iowa University without being accepted in a degree-seeking program. Their official status is “non-matriculated” – a traditional academic term meaning not enrolled in a degree program. All non-matriculated students will be required to complete an information update form.

If a non-matriculated student decides to pursue a degree program, he/she will be required to go through the regular admissions process. Students who register as non-matriculated students in a given semester/term may not matriculate until the following semester/term.

**Graduate Cost to Attend**

| Tuition per graduate semester credit for U.S. Online and Center Programs’ courses, due prior to the first day of term. | $436 |
| Application and evaluation fee | U.S. Online and Center Programs | $50 |
| Transcribing credit as recommended by ACE guidelines, including PEP, DSST and CLEP | No Charge |
| Transcripts, per copy | $5 |
| Transcripts, per copy faxed | $8 |
| Transcripts, per copy faxed and mailed (written request must be made to Registrar’s Office) | $13 |
| Graduation fee, payable at time of application for graduation | $65 |

All fees are in U.S. dollars

Learners receiving financial aid will be required to pay, at the time of registration or the first day of the term, any difference between total expenses and the aid. Expenses may be charged to VISA, Discover or MasterCard, or may be paid by personal check or money order.

Student refunds will be processed the 10th calendar day of each term if a student has completed all requirements for registration, financial aid, and attendance validation per the course catalog.

Books or instructional materials are generally required with each course. Some courses may require additional fees. Book and supply costs are estimated at $100-$300 per graduate course.

**Financial Aid**

Current financial aid information is available at the Upper Iowa University webpage http://uiu.edu/admissions/financialaid/index.html. If you have any further questions regarding financial aid, please contact your program office or the Financial Aid Office, 800-553-4150, Ext 3, or write to: Financial Aid Office, Upper Iowa University, PO Box 1859, Fayette, IA 52142 or email: financialaid@uiu.edu. Any questions about billing should be directed to your program office.

**Online Program Information**

**Online Program Registration**
All Upper Iowa University students register through myUIU, Upper Iowa University’s online portal. Access to myUIU is on the University website at www.uiu.edu. Step-by-step instructions for course registration are listed on the student tab and also found under the student handouts portlet. All students are issued a username and password.

Payment is due prior to the first day of class either by check or credit card. Payment information may be completed through the myUIU portal which is a secure environment. If necessary, payment can also be made by phone.

Upper Iowa University requires first-time online learners to complete the self-paced student orientation tutorial available at the online campus.

No registration will be accepted after the final registration deadline published for each term. Term start dates are published on the web site at www.uiu.edu/cde and are available from the Center for Distance Education office upon request. All published course schedules in the Online Program are subject to change.

**Military Tuition Assistance:** Active-duty Army, Army National Guard, and Army Reserve personnel must register through the GoArmyEd portal. All other military personnel using military tuition assistance (MTA) will have their education officer approve the class and submit the completed TA form to your academic advisor. All military tuition assistance forms must be received in the CDE office before the first day of the term. Forms may be mailed to Upper Iowa University, IEC, PO Box 1857, Fayette, IA 52142, faxed to 563-425-5771 or scanned and emailed to cde@uiu.edu. If you need assistance applying for Military Tuition Assistance, please contact your respective education office.

**Employee Tuition Assistance:** If you are receiving tuition assistance, a voucher approved by Upper Iowa University must accompany any portion of the payment for which you are responsible. Contact the Center your academic advisor for more details.

**Changes in Registration (Drop Procedures)**
You may drop a class at any time during the registration period and up to the last day prior to the first day of the term. Because of the online delivery mode, learners will not be allowed to add a class after the final registration date published for each term.

**Changes in Enrollment Validation of Enrollment/Non-Attendance**
Registration for each online course must be validated by attending class (posting one or more times to any area of the online classroom) during the first seven days of the term. Failure to validate enrollment when courses begin will result in a grade of NA (never attended) and removal from the course. An NA will be recorded on your transcript and financial aid funding may be affected.
Withdrawal
If you wish to withdraw from an active course, you must notify your academic advisor by phone or email prior to the published last day to drop a class, which is the last day of the of the fifth week of the term. A grade of W will be recorded on the transcript. Informing the course faculty member is not sufficient notice for a drop or withdrawal.

Administrative Withdrawal
Prior to the last date to withdraw, if a learner stops attending (has not posted one or more notes to any area of the online classroom) for 14 consecutive days, the university will initiate an administrative withdrawal. A grade of AW will be recorded in the student’s permanent record.

Online Course Expectations

Course Attendance
Course attendance for the Online Program is defined as: A learner who posts at least one or more times to any area of the online classroom EACH week. The Online Program course week begins on Monday and ends the following Sunday.

To be considered in attendance, you are required to post at least once in any area of the online classroom EACH week. You must meet the attendance minimum to stay active in the class. If you do not meet this attendance requirement (posting in any area of the online classroom) for 14 consecutive days you will receive an AW for the course which may affect your financial aid funds for the payment for the course. Financial aid and tuition adjustments will be calculated based on the day you last posted to the online classroom. Merely logging into the online classroom website is not considered a posting for attendance or participation purposes.

If you do not drop or withdraw from the course before the last day of the fifth week of the term, you will receive a letter grade in the course based on what work you did complete in the course in relationship to the total course requirements. The policy of attendance for the program is a minimum to stay registered in the course.

Course Participation
You are expected to actively participate in, and contribute to, the learning experience in your course. Participation means providing substantive comments, questions and contributions that advance the learning process for you and/or other learners in the course. If you actively participate in the course, you should not have an attendance issue.

For grading purposes, the faculty member will determine quality of postings for participation.

Merely logging onto the classroom website is not considered posting for attendance or participation purposes.

Collaborative Learning
Online courses may incorporate one or more collaborative learning assignments that utilize “virtual teaming.” In collaborative assignments a group of students works on and submits an assignment as a team. Work done in the group is not considered participation for grade purposes. In general, all members of the group will earn the same grade on the assignment. If the faculty member determines that one or more group members did not do a fair share of the assignment, those students may receive a lower grade. Some faculty members assign the members of groups while others allow students to self-select their group. A faculty member’s policy on this will be in the course syllabus.

Technical Requirements
It is UIU’s goal to make the student’s online learning experience the best it can be. One way to achieve this goal is to ensure that certain essential tools are available when the student accesses their online courses. The technical requirements for the Upper Iowa University Online campus can be reviewed in the technical requirement section at www.uiuonline.com.

Learning Management System
The UIU Online Program utilizes the Pearson LearningStudio (eCollege) learning management system (LMS). All students who enroll in online classes are expected to complete the student orientation tutorial and have appropriate knowledge to use the system effectively. The system is supported by a 24/7 Helpdesk available at helpdesk@uiuonline.com or 877-889-9848. Failure to post correctly and submit assignments/exams as required does not provided the basis for appeals of tuition and/or resubmission of work.

U.S. Center Program Information

Center Program Registration
- New learners must register at the center.
- Currently enrolled learners need to register through myUIU.

All Upper Iowa University students register through myUIU, Upper Iowa University’s online portal. Access to myUIU is on the University website at www.uiu.edu. Step-by-step instructions for course registration are listed on the student tab and also found under the student handouts portal. All students are issued a username and password through their center/program after their first Upper Iowa University registration.

Registration begins at least four weeks before the start of each term. You are strongly encouraged to register early! Classroom capacity may limit the size of classes, but, if enrollments dictate and there is adequate lead time to make the necessary arrangements, a second section of a course may be added. Without adequate lead time, courses may close when enrollment reaches classroom capacity.

Tuition and any course-related fees are due at the time of registration or before the first night of class.

International learners need to contact their advisor regarding specific information on admission and registration.

Changes in Center Program Registration
Note the following policies for changing your registration:
1. You may not add a course after it meets for 1/8 of the total hours it is scheduled to meet.

2. If you wish to withdraw from a course, you must complete a Course Withdrawal Card (contact your center office) prior to the last day of the fifth week of the term. Failure to attend class does not constitute withdrawal. Learners who register for a course and fail to attend it will be assigned a grade of NA unless a withdrawal form is completed prior to the first day of the term.

**Validation of Enrollment**
Registration for each course must be validated by attending at least one of the first three class sessions. A class session equals 2.75 hours. Failure to validate enrollment when courses begin will result in a grade of NA (never attended) and removal from the course.

**Administrative Withdrawal**
If you miss three consecutive class sessions (a class session is defined as 2.75 hours) the center director will initiate the administrative withdrawal procedure and the staff will contact you. In the absence of extenuating circumstances, a grade of AW will be recorded and you will be removed from the class.

**Excused Absences/Leaves of Absence**
In accordance with #34CFR668.22 Department of Education Regulation, a student may request a Leave of Absence using the criteria below. All requests will be reviewed and either approved or denied by the Associate Vice President of the IEC and appeals will be decided by the Chief Enrollment Officer.

1. Student must submit a written request explaining the circumstances in detail and attach supporting documentation.
2. Included in the request, student must state his/her intention to return to Upper Iowa University and state intention not to enroll at other colleges during the leave of absence.
3. Student must sign and date request.
4. The maximum leave of absence is 180 days in a 12-month period.
5. Students who return within the 180 days will retain their eligibility for admission and eligibility for institutional aid.
6. Students granted a Leave of Absence will receive a “W” for all current courses.
7. Student will complete an information update form upon returning to UIU.

**Refund Policy and Course Withdrawal**
Withdrawing from classes is an expensive decision. Tuition will be adjusted based on the percentages listed below for the weeks completed in the eight-week enrollment period. If the course meets on an alternative schedule consult your program office for refund schedule. For students attending Wisconsin centers, state laws apply and International Center Students should check with the local center for withdrawal and refund policy.

<table>
<thead>
<tr>
<th>Refund Percentage</th>
<th>Withdrawal before the first class meeting</th>
<th>100%</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Withdrawal during week one</td>
<td>75%</td>
</tr>
<tr>
<td></td>
<td>Withdrawal during week two</td>
<td>50%</td>
</tr>
<tr>
<td></td>
<td>Withdrawal during week three</td>
<td>25%</td>
</tr>
<tr>
<td></td>
<td>Withdrawal during week four</td>
<td>25%</td>
</tr>
<tr>
<td></td>
<td>Withdrawal after week four</td>
<td>0%</td>
</tr>
</tbody>
</table>

These percentages will also be used to determine eligibility for state aid you may have received. Examples of refund calculations are available in the Financial Aid Office.

Course withdrawal may change the amount of, or eligibility to receive, financial aid; a financial aid counselor is available to discuss this decision with you.

Upper Iowa University is required to use a statutory schedule to determine the amount of Title IV aid that you have earned when you cease attendance based on the period of enrollment. Up through the 60 percent point in each period of enrollment, a pro rata schedule, based on number of days in attendance divided by number of days in the payment period, will be used to determine the amount of Title IV aid you have earned at the time of withdrawal.

**Classification and Course Loads**

**Classification of Graduate Students**
Registration Status

1. Full-time: A learner registered in a graduate division for three or more credits a term. This includes foundational undergraduate courses for all learners accepted into a graduate degree program.
2. Less than full-time: A learner registered for less than three credits per term.

3. Non-Degree Seeking: A learner attending classes for the purpose of obtaining credit, but not a candidate for degree.

Course Loads
Learners enrolled in the UIU Graduate Program are considered full-time with the completion of three semester graduate credits during each eight-week term. Enrollment in six semester graduate credits during an eight-week term is allowed as long as the learner is successfully completing the course requirements.

Learners completing undergraduate foundational requirements should refer to page 23 regarding undergraduate course loads.

Graduate learners should expect to spend approximately 17-20 hours per week on course-related matters (per three-credit course). Learners should consider this when deciding how many credits to register for each term. Graduate learners should carefully consider personal time management issues, including outside the university commitments, before enrolling in more than one graduate course in a term.

Additional Coursework
Learners completing a graduate degree with Upper Iowa University may not take additional courses exceeding the required credits to graduate. If additional courses are desired, a letter of request must be submitted to the graduate advisor with information supporting the reason for the additional courses, including but not limited to transfer of courses for an additional degree or required for employment or certification. The request must be received four weeks prior to the term start and must specifically list the courses and terms the learner plans to complete. The graduate advisor will review the request and, following discussion with the learner, approve or deny the request. In general, a request will not be approved if taking the additional courses would delay or interfere with the learner’s progress towards a degree. Learners using financial aid for degree-required courses may not be eligible for additional funds to pay for extra courses.

Multiple Masters Degrees
Learners who have earned one master degree at Upper Iowa University may desire to earn one or more additional masters degrees at UIU. There may be certain courses in common for these programs.

1. A learner may use a graduate course taken at UIU in satisfaction of one graduate degree towards the requirements of another graduate degree provided that the grade earned was B or better. This grade requirement is consistent with the grade requirement for graduate courses transferred to UIU from external graduate programs.

2. Such courses will satisfy the appropriate requirement of the subsequent degree, but will not be counted towards the semester credits required for the degree. Learners must take electives to complete the required number of credits for the graduate degree.

3. Not more than 12 semester credits in total from a prior UIU master’s degree or transferred from another institution may be used towards a subsequent UIU master’s degree.

Graduate degrees represent attainment of advanced knowledge in specific disciplines. Therefore, each graduate degree will have its own grade point average calculation (GPA). Courses not part of the graduate degree will not be included in the calculation of a learner’s GPA for that degree.

Students may complete only one area of emphasis in each graduate degree. Students who wish to change areas of emphasis should submit a petition to do so to the appropriate program/center director who, in consultation with the dean of faculty, will approve or disapprove the petition based on whether the change is justified by changes in the student’s career circumstances.

Textbooks
Textbooks may be purchased through University Bookstore or locally through other sources. Textbook titles and editions will be provided upon request by program staff.

To order, visit www.peacockconnection.bkstr.com or call 866-225-2808 and choose your program and the course number. You may pay by VISA, MasterCard, Discover or American Express. Orders will be shipped within 24 hours. Textbooks are delivered via FedEx by one of three methods: Ground, Second Day Air, or Next Day Air. You pay the current FedEx rate based on the weight of the package and where the package is being shipped. Textbook buyback is also available. Visit www.peacockconnection.bkstr.com or call 866-225-2808 for a quote, buyback, or mailing label.

Students purchasing texts from a source other than University Bookstore must ensure that the ISBN of the purchased text matches, exactly, the ISBN specified at the University Bookstore site. Failure to do so can result in missing course materials.

Upper Iowa University permits students who receive Title IV financial aid to incur book charges through the University’s official bookstore provider up to $375 per term. Follett is the only avenue permitted for book charges as they are the official UIU book provider. Students will not be required to charge their books if the financial aid file is complete and ready to award.

Textbook buyback is also available. Visit www.peacockconnection.bkstr.com or call 866-225-2808 for a quote, buyback, or mailing label.

International Program learners should check with their local center for textbook purchase options.

Writing
The ability to write clearly and succinctly is essential for success in the graduate program. Learners should expect that assignments in every course will require demonstrated writing competency.

Style Guide
All graduate courses require the use of the current APA style guide for all formal assignments. The APA Guide for graduate students is available through University Bookstore by calling (866) 225-2808 or going to the website www.peacockconnection.bkstr.com.

Library Resources
As a learner of Upper Iowa University, library resources (online journal databases, e-books, newspaper access, citation help, etc.) are available. If travel to the campus is not feasible, you can access the library through the University’s website. Go to: www.uiu.edu/library. To use any of the materials listed on the site, you can log in using your myUIU username and password when prompted.

If you need help with your myUIU login credentials, please contact the UIU Help Center Desk at helpdesk@uiu.edu, Phone: 563-425-5261.

Grading System
Grades in the program are:

<table>
<thead>
<tr>
<th>Grades</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33*</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

* C+ grades and lower are below the standard expected of graduate learners.

Individual instructors have the academic freedom to implement +/- grades in their courses at their discretion.

P – Pass, for internship only

I – Incomplete
A temporary grade of I (incomplete) indicates that the student has been unable to complete coursework due to circumstances beyond his or her control. A request for an incomplete grade at the graduate level may be approved at the discretion of the faculty member. After the grade of I is given, the work must be completed by the date agreed upon, no later than eight weeks following the end of the course. If the work is not completed within that period of time, a letter grade of (A-F) will be issued.

Students will not have access to the online classroom once the term has ended. It is the student’s responsibility to make sure all materials necessary to complete the incomplete have been secured before a request for an incomplete will be approved.

W – Withdrawal
The grade W is used to denote courses dropped (learner-initiated) between the first and the fifth week of an eight-week term. Courses no longer attended after the fifth week of the eight-week term will be issued a letter grade based on work completed in relation to total course requirements.

AW – Administrative Withdrawal
The grade AW is assigned to courses in which the learner has been administratively withdrawn. (See page 77.)

NA – Non-Attendance
If you have not attended class (or posted in each of your registered online class(s) one or more notes to the main class meeting during the first week of the term) you will be considered to be in non-attendance and will be withdrawn from the course. An NA will be recorded on your transcript and financial aid funding will be affected. Excessive NA grades may lead to disciplinary action.

Your official grade is the grade posted to myUIU at the end of the grading period. It is your responsibility to check myUIU within that period of time, a letter grade of (A-F) will be issued.

The grade W is used to denote courses dropped (learner-initiated) between the first and the fifth week of an eight-week term. Courses no longer attended after the fifth week of the eight-week term will be issued a letter grade based on work completed in relation to total course requirements.

Grade Appeal Process
Step 1:
The student shall consult with the professor within 10 working days of the grade being posted by the Registrar’s office. The faculty member has five working days after consultation with the student to inform the student in writing of the decision including the specific rationale upon which the decision was rendered. Email notification is considered written notification.

Step 2:
If the consultation between the instructor and student fails to resolve the issue, the student may appeal the grading decision to
the Dean of Faculty who will forward the appeal to the Graduate Grade Appeals Committee. All appeals must be made within the 30 working days of the final grade being posted by the Registrar’s Office. The formal appeal shall be in writing and include the following:

1. Name, student ID number, current mailing address, current email address, and current phone number of student
2. Date of appeal
3. Date of original appeal
4. Name, course number, and section of course
5. Name of professor teaching the course
6. Term and year course was taken
7. Grade earned and grade requested
8. Rationale for grade change: The rationale should include sufficient documentation to allow for a determination to be made on the merits of the case. To meet this standard the appeal should include specific examples accompanied by a narrative explaining why it is believed the example justifies a change in grade. Only information germane to the specific appeal will be considered. It is the responsibility of the appealing party to provide sufficient documentation to establish the context for the appeal and the objective evidence needed to judge the appeal.
9. Supporting documentation of the meeting between the instructor and student.

**Step 3:**
The Graduate Grade Appeals Committee may request additional information from either party. It may share the evidence with either party. A decision based on the totality of the record will be rendered within 30 working days of receiving the appeal from the Dean of Faculty. The Dean of Faculty may grant an extension for extenuating circumstances. The Graduate Appeals Committee will forward its decision and rationale to the Dean of Faculty. The Dean of Faculty will notify the student of the decision.

**Step 4:**
To appeal this decision a written request must be sent to the Chief Academic Officer, PO Box 1857, Fayette, IA 52142, within 30 days of the Dean of Faculty’s decision.

**Graduate Standard of Academic Progress**
The graduate learner has a responsibility to demonstrate the ability to successfully complete graduate-level study. If you are enrolled in at least three semester credits per term in the graduate program, you are expected to: be able to meet or exceed the completion and GPA standards stated below. These standards serve as guidelines for the Academic Review Committee (ARC) to use in determining whether or not a learner will be able to progress toward the 3.0 GPA graduation requirement.

<table>
<thead>
<tr>
<th>Semester Credit Completion Standards Per Term</th>
</tr>
</thead>
<tbody>
<tr>
<td>Semester Credits Attempted</td>
</tr>
<tr>
<td>3 or more</td>
</tr>
</tbody>
</table>

If you register for but do not successfully complete at least three semester credits in each of two terms, a letter of concern is issued; three terms, you are placed on academic warning; four terms you are academically suspended. These guidelines are used to determine satisfactory progress over a continuous six terms of enrollment.

Grades of Pass, A-F, Withdrawals, Administrative Withdrawals, repeated courses, and incomplete courses will be considered as hours attempted in the completion standards. Noncredit courses are not considered in either credits attempted or accumulated.

**Academic Status**
Each term the ARC meets to review the records of all learners not meeting the guidelines stated above. The committee will determine the academic status of each learner reviewed, and the following consequences will ensue:

**Letter of Concern**
A learner who receives one grade of C+, C or C- is sent a Letter of Concern, which notifies the learner that his/her academic record will be closely monitored.

**Warning**
A learner who receives one grade of F or two grades of C+, C or C- is placed on academic warning. A notice of warning status is mailed to the learner and his or her graduate advisor. An entry of this action is recorded on the learner’s transcript. Learners are advised to contact the Financial Aid Office concerning consequences regarding financial aid.

The learner will be removed from academic warning status if he or she subsequently completes six credits with grades of B- or better; however, the grade of C+, C or C- is placed on academic warning. A notice of warning status is mailed to the learner and his or her graduate advisor. An entry of this action is recorded on the learner’s transcript. Learners are advised to contact the Financial Aid office concerning consequences regarding financial aid. Suspension from the program may be permanent. Students will receive written notification of their suspension.

**Suspension**
A learner who receives a grade of C+, C or C- and a grade of F or two grades of C+, C or C- is suspended from the program for at least one full term. An entry of this action is made on the learner’s academic record. Learners are advised to contact the Financial Aid office concerning consequences regarding financial aid. Suspension from the program may be permanent. Students will receive written notification of their suspension.

**Reentry After Suspension**

**Appeal for Reinstatement**
If suspended, learners may submit a written appeal to the Dean of Faculty within two weeks of receiving the suspension letter. The appeal will be forwarded to the ARC for consideration. Any significant party (such as a graduate advisor) will be invited to review the appeal. Learners will be advised in writing of the ARC’s decision within three weeks.
Readmission
If suspended, a learner may apply for readmission to Upper Iowa University by demonstrating, in writing to the Dean of Faculty, a reasonable capability to raise and maintain a learner’s cumulative GPA or make satisfactory progress toward the degree. The ARC will either approve or deny readmission, and the learner will be notified of the decision in writing by the Dean of Faculty. Copies of the notification will be sent to the Registrar’s Office, Financial Aid Office, Business Office, and your program office.

Reenrollment
When a learner returns from suspension, he/she must register for classes through the appropriate program office and will return to academic warning status. If a learner does not satisfactorily progress off academic warning, he/she may become a candidate for academic suspension again. Two academic suspensions from Upper Iowa University may warrant permanent suspension from the University.

Standard of Academic Progress and Financial Aid
Financial aid may be available to a learner as long as the Academic Review Committee determines that the learner is making sufficient progress to meet graduation requirements. Should a learner be suspended, all financial aid will be terminated as of the date of suspension.

A learner readmitted to Upper Iowa University on academic warning will be eligible for financial aid after obtaining approval from the director of financial aid. Application for reinstatement of financial aid must be made in writing to the director of financial aid. The learner will be notified of the director’s decision within two weeks of receipt of the application. If financial aid is reinstated, the learner will be required to confer with the director or director designee before any aid will be dispersed. The first term of financial aid eligibility after reinstatement will be probationary. If the learner fails to show progress toward graduation requirements during that term, further financial aid eligibility will be terminated.

Certain rules and regulations govern awarding or continuation of Veterans Administration assistance and other financial aid that comes from federal or state government sources. Decisions on continuation or termination of Veterans Administration assistance are made by the Veterans Administration. Payment must be withheld if, in accordance with the standards and practices of Upper Iowa University, a learner is not maintaining satisfactory progress in the course of study being pursued.

Graduation and Beyond

Commencement
Diplomas are issued six times each year; however, only one formal commencement ceremony is held each year in Fayette, Iowa in May. UIU encourages learners to participate in its formal commencement ceremony even if a learner’s graduation date falls earlier in the academic year. Learners who graduate in July or August may elect to participate either in the preceding May commencement or the following May commencement. Learners at International Center Programs should contact local staff for commencement information regarding both Fayette Campus and local graduation ceremonies.

Application for Graduation
As a candidate for graduation, regardless of whether you plan to participate in the commencement ceremony, you must file an application for graduation. There is an application fee of $65 (even if you choose not to attend commencement). Learners planning to participate in the commencement ceremony should complete a participation form on myUIU. Deadlines for submitting applications for graduation are as follows:

<table>
<thead>
<tr>
<th>Application Due</th>
<th>Month Conferred</th>
</tr>
</thead>
<tbody>
<tr>
<td>May/June</td>
<td>October</td>
</tr>
<tr>
<td>July/August</td>
<td>December</td>
</tr>
<tr>
<td>September/October</td>
<td>March</td>
</tr>
<tr>
<td>November/December</td>
<td>May</td>
</tr>
<tr>
<td>January/February</td>
<td>July</td>
</tr>
<tr>
<td>March/April</td>
<td>August</td>
</tr>
</tbody>
</table>

Applications not received within the two-month application window will be moved to the next conferral month. Students will apply for graduation 16 weeks before the conferral month.

Transcripts from other institutions need to be received within three weeks after the proposed UIU graduation term ends for a student to have that term’s conferral date posted to the record. If transcripts are not received, the conferral date will move to the next term provided transcripts are received within three weeks after the appropriate term end date.

Students must complete requirements for graduation in the term for which they apply for graduation. If they are unable to do so, they will be moved to the next graduation date. If requirements are not met by that date, the application will be considered void and the student will submit a new application for graduation. An application fee will be assessed each time an application is submitted.

Applications received after the deadline will be honored at the next graduation date.

Graduation Requirements
A learner will have five years after initial enrollment in the first of either a foundational or graduate level course to complete the graduate program under the requirements in effect at the time of enrollment. If the learner does not complete the graduate degree program within the five-year period, the requirements in effect at the time of the next enrollment will be used to determine the learner’s graduation requirements. Upper Iowa University reserves the right to make changes in its academic regulations and requirements when, in its judgment, the best interests of the institution are served.

Diploma/Transcripts
1. The learner must request official transcripts in writing. A transcript request form is available at www.uiu.edu. A $5
fee is required for all transcripts that are mailed and a $8 fee is required for faxed transcripts. If you are faxing your request, include an address where you can be billed. Mail transcript requests to: Registrar’s Office, PO Box 1857, Fayette, IA 52142. Fax transcripts to 563-425-5287. A complimentary transcript is provided with the diploma.

2. Any transcript of grades to date sent by the Registrar’s Office prior to graduation is considered an official transcript.

3. The Registrar’s Office issues diplomas to graduate learners who have completed all degree requirements and whose accounts are paid in full.

4. Diplomas will normally be available six to eight weeks after the graduation date, and are mailed by the Registrar’s Office.

All fees are in U.S. dollars.

Career Services
Career Services, located on the Fayette Campus, is available to help learners explore career opportunities with an employment advisory service providing bimonthly listings of employment opportunities, credential files and job-finding resources. Learner referrals are not based on direct contact. A program is available for personal assessment to help plan your career. Neither Career Services nor Upper Iowa University guarantees employment. For further information, call 563-425-5208. Career Services information is also available at www.uiu.edu or careers@uiu.edu.

Master of Business Administration (MBA)
The Master of Business Administration curriculum program provides students a contemporary business curriculum applying current business theories and models, evaluating today’s competitive environment, practicing leadership roles, and analyzing information and data in the development of proposals and recommendations. The program offers emphases in accounting, corporate financial management, global business, human resources management, organizational development, and quality management. Skill and competence in specific business areas are developed through individual and team assignments and apply relevant theories to practical case study situations. The program provides a balance of quantitative and qualitative studies to strengthen contemporary managerial skills.

Teaching Strategies
Each course focuses on applying theoretical principles and practical experience to business situations and problems. Case studies, report writing and class discussions are blended to assure learners an opportunity to clarify and simulate course learning outcomes. Assessments can take a variety of forms including team projects, individual reports and case study analysis. Participation in discussions is crucial to learner success and is included as a factor in grading.

The program concludes with BA 590 Research Seminar providing a capstone experience for the learner to apply the concepts of the program in the development of a business report or proposal on a topic of interest to the learner. The report or proposal is presented to peer learners and/or business leaders using PowerPoint™ or other identified presentation software. The researched report or proposal provides the learner an opportunity to demonstrate integration of the core curriculum and emphasis acquired knowledge and skills using graduate level communication and critical thinking skills.

Program Objectives

- To explain contemporary fiscal responsibility, apply financial theories and assess and manage risk in company’s operation in a competitive environment.
- To integrate corporate entrepreneurial practices encouraging continual change, process improvement and development of leaders in the corporation.
- To compare and contrast business theories with real practice to identify opportunities and threats faced by organizations.
- To explain the ethical beliefs and responsibilities of individuals and corporations to stakeholders.
- To analyze the implications of regulatory and legal issues for corporations competing in the current economic environment.
- To develop proposals to identify and resolve problems, create change, or develop recommendations using analytical tools for business decision making.
- To identify the effect of social, economic and political changes on corporate strategy.
- To explain the interdependence of corporate functional responsibilities.
- To evaluate effective business and management practices of corporations competing in the global economy.

MBA Foundational Requirements
To be unconditionally admitted into the graduate MBA program, learners must be able to demonstrate a basic level of knowledge and achievement in the areas of:

- Microeconomic Principles
- Accounting Principles I
- Accounting Principles II
- Marketing Principles
- Management Principles
- Business Law I
- Corporate Financial Management
- Elementary Statistics

or completion of an upper division computational mathematics course, or attainment of a satisfactory score in the quantitative portion of the GRE or GMAT.

82
Accounting Emphasis Undergraduate Requirements
To complete the emphasis learners must hold a BA or BS in accounting or have completed the following 24 undergraduate credits in accounting:

- Interim Financial Accounting I BA 321*
- Interim Financial Accounting II BA 322*
- Federal Taxation I BA 323*
- Federal Taxation II BA 324*
- Managerial Cost Accounting or BA 421*
- Product Cost Accounting BA 422*
- Auditing I BA 425*
- Advanced Financial Accounting BA 431*
- Accounting for Not-for-Profit Organizations BA 432*

*UIU Course Equivalent

Such knowledge and achievement is demonstrated through successful completion (grade C or higher) of undergraduate courses in these areas, and/or successful completion of equivalent CLEP/DSST/Excelsior College and/or ACT-PEP testing.

Foundational courses are available through UIU’s Undergraduate Program. Transfer credit to fulfill foundational requirements will be accepted following the “Transferring Credit to UIU” guidelines as noted in the undergraduate section of this catalog.

Completion of MBA Foundational Requirements
The foundational requirements must be met by all learners in the MBA program. Learners without knowledge and achievement in one or more of these areas will be formulate and implement a plan working with the graduate advisor, before enrollment in graduate level classes.

Learners must complete all foundational requirements before taking more than six semester credits of graduate level courses.

Requirements for a Master of Business Administration Degree
The Upper Iowa University Master of Business Administration degree requires 39 semester credits of graduate level course work with a minimum cumulative grade point average of 3.0 on a 4.0 scale for completion. At UIU, three-semester-credit courses are scheduled in six eight week terms each year.

The learner completes 18 semester credit hours in core requirements, 3 semester credit hours in the capstone and 18 semester credit hours in a chosen area of emphasis. Learners choosing an emphasis with an elective can select courses in another emphasis or graduate program and is relevant to the learner’s area of emphasis.

Degree Completion
To receive the Master of Business Administration degree, the learner must successfully complete 39 semester credits of graduate work, including a final research project, and earn a cumulative GPA of not less than 3.0 on a 4.0 point scale.

A graduate learner will have five years after initial enrollment in the first of either a foundational or graduate level course to complete the graduate program under the requirements in effect at the time of enrollment. If program requirements change, the learner can elect to complete the revised curriculum or to complete under the original curriculum.

If the learner does not complete the graduate degree program within the five-year period, the requirements in effect at the time of the next enrollment will be used to determine the learner’s graduation requirements.

Upper Iowa University reserves the right to make changes in its academic regulations and requirements when, in its judgment, the best interests of the institution are served.

Degree Requirements
Master of Business Administration
Learners must complete the core requirements, the requirements for one area of emphasis (accounting, corporate financial management, global business, human resources management, organizational development, or quality management) and the capstone course for a total of 39 semester credits.

The MBA Emphases

Learners will be able to demonstrate the following general skills and attributes within their area of chosen emphasis:

1. The ability to analyze and present learned concepts and theories using appropriate communication and critical thinking skills.

2. The ability to articulate and utilize the concepts of vision, strategic planning, problem solving and quality management.

3. The ability to synthesize research in their chosen area of emphasis.

The learner is expected to complete a capstone experience demonstrating a comprehensive understanding of the MBA core and emphasis curriculum in a researched and written business report or proposal and presented via presentation technology.

Accounting

This emphasis is intended to assist learners expand on undergraduate accounting topics to provide learners advanced skills in the course areas. This emphasis is intended to assist learners to meet the 150-credit education requirement for the uniform CPA examination. Learners completing the emphasis will be able to demonstrate knowledge of and be able to apply a range of accounting and financial principles and concepts including, but not limited to:

- U.S. Generally Accepted Accounting Principles (GAAP)
- International accounting practices
- U.S. Generally Accepted Audit Standards (GAAS)
- Government and Not-For-Profit Accounting Principles
- Legal and ethical issues in accounting management

Corporate Financial Management

This emphasis is intended to assist learners as they explore the theory and application of advanced concepts of corporate finance, and the economic environment in which corporate finance is conducted. The curriculum provides advanced professional skills in acquiring and managing assets, and assessing financial, risk management and economic implications in global companies.
Learners completing the emphasis will be able to demonstrate knowledge of, and be able to apply financial management concepts and theories including, but not limited to:

- Management of working capital, capital structure and financial risks
- Ethical environments of corporate finance and management
- Valuing and analyzing mergers, acquisitions, and divestitures
- SEC and Sarbanes-Oxley regulations and legal implications
- Financial operations and evaluation within current capital structures

**Global Business**
This emphasis is intended to assist learners as they explore business practices in a global economic context, social, cultural and regulatory influences, ethical practices, and the effect of global competition on business strategy and in decision making. The emphasis develops working knowledge of how firms market in the global environment, financial operations of international enterprises, and logistical issues of global competition.

Learners completing the emphasis will be able to demonstrate the knowledge and skills to be successful by exploring the challenges faced by organizations competing in the global economy including, but not limited to:

- Global operations and strategic planning
- Legal implications of international business
- Cultural considerations in marketing and product demands
- Analysis of contemporary global business practices
- Operational functions and distribution channels of goods and services

**Human Resources Management**
This emphasis is intended to assist learners as they explore the theories and methods to manage the personnel resources of an organization. The emphasis has been reviewed and aligns with SHRM curriculum guidelines. The curriculum provides learners with the knowledge to staff in a competitive, team-centered environment.

Learners completing the emphasis will be able to demonstrate proficiency in the field of human resources and demonstrate knowledge in the field of human resources including, but not limited to:

- Employment laws and practices related to application and hiring procedures and workforce issues
- Design, develop and understand how to implement a succession plan
- Crisis management planning and integration
- International labor management, compensation and benefits, and diversity protocol
- Theories of organizational management, governance, power and culture

**Organizational Development**
This emphasis is intended to assist learners as they explore organizational needs and manage planned change. The curriculum provides the learner with the skills and understanding of organizational structure and culture and the ability to analyze and diagnose problems to develop recommendations supporting long-term change.

Learners completing the emphasis will be able to demonstrate the knowledge and skills to diagnose process and procedure improvements, apply intervention techniques and models for continual improvement, prescribe techniques for integrating change into organizational culture, and including but not limited to:

- Organizational restructuring and reengineering
- Identifying and planning organizational change.
- Developing and implementing team building techniques
- Analyzing training and development needs of the organization
- Intervention diagnoses and implantation planning using appropriate technology

**Quality Management**
The emphasis is intended to assist learners acquire the skills and knowledge to advance in service or manufacturing organizations. Learners explore relevant theories and quality improvement processes in conjunction with application of organizational problems in real world situations.

Learners completing the emphasis will be able to demonstrate knowledge and the ability to define and measure outcomes, apply theories and techniques to achieve increased quality of organizational activities, identify quality control systems, and including, but not limited to:

- Managing continual quality processes in the production process of goods and services,
- Project management and team functions
- Quantitative decision making theory, tools, and statistical process controls
- Capacity management, inventory control and scheduling
- Quality improvement through Six Sigma, Kaizen, and Deming’s and Juran’s statistical quality control theories

**Master of Higher Education Administration (MHEA)**
The Master of Higher Education Administration program offers areas of emphases in community and technical college administration and leadership. While complementary, the areas of emphasis are distinct. Skill and competence in specific educational administration areas are developed through individual and group assignments that combine theory with practical examples. Learners apply relevant theories to real-world
higher education case study scenarios. The MHEA program is designed to strengthen the leadership skills for educational administrators.

**Teaching Strategies**

Each course focuses on applying theory to practice through learning activities like case studies, report writing, problem-based projects, field interviews, group projects, simulation exercises, career mapping, college visitations, catalog analyses, practitioner workshops and instruction, exams, and onsite and asynchronous online discussions. Students will learn how to apply tested and best-practice business techniques like Customer Relationship Management (CRM) and break-even analysis to higher education. The MHEA is offered online.

The MHEA Program concludes with HEA 590 Research Seminar that provides a capstone experience. For the seminar, students conduct independent studies of a topic in higher education administration of special professional value to them. Topic examples might be marketing, fundraising, or technology trends in higher education. Students will submit a written report of their findings. They also will give group presentations of their findings to an audience that may include student peers, faculty members, and outside experts. The group presentation may incorporate PowerPoint™ slides or similar contemporary briefing methods. The capstone research seminar is taken once all core and area of emphasis courses are completed and permits students to tailor part of their program to explore in greater depth personal professional interests in higher education.

**Program Objectives**

- The MHEA degree is intended to provide learners opportunities to develop skill-sets and knowledge in areas specific to administration in higher education, leadership of staff, and management of funding, budgeting, and organizational process. Individual and group assignments combine textbook theory with real-world application. The program provides a balance of quantitative and qualitative studies.

- The MHEA exposes learners to current theories, concepts and learning models necessary to assume leadership roles in higher education institutions. Upon successful completion of the MHEA, graduates will be positioned to make a significant contribution to their educational institutions.

**Learner Objectives**

The MHEA will prepare students to demonstrate specific knowledge in the field of higher education administration including the skills and techniques necessary to enable them to:

- develop effective decision-making, leadership, management, and analytical skills,
- examine the issues of governance in higher education and institutional adaptation to the changing environment,
- prepare students to make substantive contributions to society through leadership positions in public, not-for-profit, and for-profit higher education institutions,
- provide an opportunity for professional advancement for in-service professionals currently working in higher education institutions.

**MHEA Foundational Requirements**

To be unconditionally admitted into the graduate program, learners must be able to demonstrate a basic level of knowledge and achievement in the areas of:

- Management Principles BA 210*
- Elementary Statistics MATH 220*
  or completion of an upper division computational mathematics course, or attainment of a satisfactory score in the quantitative portion of the GRE or GMAT

* UIU Course Equivalent

Such knowledge and achievement can be demonstrated through successful completion (grade C or higher) of undergraduate courses in these areas, and/or successful completion of CLEP/DSST/Excelsior College and/or ACT-PEP testing.

Foundational courses are available through UIU’s Undergraduate Program. Transfer credit to fulfill foundational requirements will be accepted following the guidelines on page 11.

**Completion of Foundational Requirements**

The foundational requirements set forth above must be met by all learners in the MHEA program. Learners without knowledge and achievement in one or more of these areas will be required, before enrollment in graduate level classes, to formulate and implement a plan working with the graduate advisor to rectify this.

Learners must complete all foundational requirements before taking more than six semester credits of graduate level courses. Learners who have not completed required foundational courses will not be allowed to enroll in additional graduate level courses beyond six semester credits until the foundational requirements have been satisfied.

**Requirements for a Master of Higher Education Administration Degree**

The Upper Iowa University Master of Higher Education Administration degree requires 39 semester credits of graduate level course work with a minimum cumulative grade point average of 3.0 on a 4.0 scale for completion. At UIU, three-semester-credit courses are scheduled in six eight-week terms each year.

The learner chooses an area of emphasis and completes the required courses as outlined in this catalog. The remaining credits
of the program are electives selected from courses in the other areas of emphasis or from electives which are relevant to the learner’s area of emphasis.

Degree Completion
To receive the Master of Higher Education Administration degree, the learner must successfully complete 39 semester credits of graduate work, including a final research report, and earn a cumulative GPA of not less than 3.0 on a 4.0 scale.

A graduate learner will have five years after initial enrollment in the first of either a foundational or graduate level course to complete the graduate program under the requirements in effect at the time of enrollment. If the learner does not complete the graduate degree program within the five-year period, the requirements in effect at the time of the next enrollment will be used to determine the learner’s graduation requirements. If program requirements change, the learner can elect to complete the revised curriculum or to complete under the original curriculum.

Upper Iowa University reserves the right to make changes in its academic regulations and requirements when, in its judgment, the best interests of the institution are served.

Degree Requirements

Master of Higher Education Administration
Learners must complete the core requirements and the requirements for one area of emphasis (leadership or community and technical college administration) for a total of 39 semester credits.

Electives selected from courses outside the learner’s area of emphasis must be approved by the MHEA program coordinator.

Learning Outcomes for the MHEA and Areas of Emphasis
Learners are expected to demonstrate the skills and attributes necessary to be a successful leader within the area of emphasis:

1. An ability to analyze and present learned concepts and theories within the emphasis area.

2. The ability to articulate and utilize the concepts of vision, strategic planning, problem solving and quality management as they pertain to the emphasis area.

3. A mastery of their discipline.

4. To conduct, apply and synthesize research in the discipline.

5. Appropriate communication and critical thinking skills.

All graduates are expected to complete a capstone experience (report of research) in which a comprehensive understanding of the discipline is demonstrated by a written and PowerPoint™ presentation of the research.

Master of Public Administration (MPA)
The Master of Public Administration (MPA) degree at Upper Iowa University is a professional degree that prepares learners to assume managerial and leadership positions at all levels of government and in nonprofit organizations. The core courses are designed to give students a broad overview of the discipline while preparing them to develop their analytical, communication, and leadership skills.

Curriculum
The Upper Iowa University MPA degree provides learners with the current theories, concepts and learning models necessary to assume managerial and leadership roles in a public sector or
nonprofit agency with an emphasis in government administration, health and human services, emergency management and homeland security, nonprofit organization, public personnel management, or a general emphasis. Graduates will be positioned to make significant contributions to their organizations.

**Program Mission**
The UIU MPA program provides an opportunity for a diverse population of adult learners to develop the administrative, analytical, leadership, and managerial skills needed to promote the public interest and strengthen core democratic values through service in government and non-profit organizations.

**Program Values**
The UIU MPA program identifies diversity, democracy, and due process as the “core democratic values” described in our mission statement.

1. **Diversity:** Projections by the U.S. Census suggests that the United States population is creating a more diverse country not only in terms of race and ethnicity but also by age, religious beliefs, and gender, all of which provide unique challenges to public administrators. Being dedicated to this goal obligates public administrators to respect the humanity of all people. Valuing diversity allows our students to take positions that take diversity into account to more effectively lead and administer public programs.

2. **Democracy:**
   a. Inclusive, Effective, and Constructive Participation: Public administrators should strive to make public programs open and responsive to all stakeholders by promoting meaningful participation in the political process by which we identify the public interest and in the development and implementation of public policies and programs to promote the public interest. We should reduce disparities in that participation produced by educational, economic, and other political inequalities.
   b. Enlightened Understanding: Public administrators should promote stakeholders’ understanding of political processes, public policies, and public programs by providing transparent, clear, accurate, and relevant information.

3. **Due Process:** The UIU MPA program defines due process to include all processes that provide important checks (procedural and substantive) on the authority of elected officials and of unelected public administrators. It, just as democracy and diversity, is a concept that is part of the MPA curriculum and an element in the administrative processes that govern MPA program policies and practices.

**Program Goals**
Goal 1: Develop in our students the ability to form critical judgments that support democratic values and the public interest.

Goal 2: Prepare our students to assume effective leadership and managerial positions in an increasingly diverse society.

**Program Core Competencies**
The MPA degree is a flexible, professional degree designed for those who wish to hold management and leadership positions in the government sector or in nonprofit agencies. The program core competencies are those recommended by the National Association of Schools of Public Affairs and Administration. The program is designed to promote and develop the following:

1. To lead and manage in public governance
2. To participate in and contribute to the public policy process
3. To analyze, synthesize, think critically, solve problems and make decisions
4. To articulate and apply a public service perspective
5. To communicate and interact productively with a diverse and changing workforce and citizenry

**MPA Foundational Requirements**
To be unconditionally admitted into the graduate program, learners must be able to demonstrate a basic level of knowledge and achievement in the areas of:

- Coursework or documented practical experience in the fields of political science, finance, economics, management, and statistics or
- Successful completion of GRE/GMAT, CLEP/DSST/Excel-sior College and/or ACT-PEP testing

**Completion of Foundational Requirements**
The foundational requirements set forth previously must be met by all learners in the MPA program. Learners without knowledge and achievement in one or more of these areas will be required, before enrollment in graduate level classes, to formulate and implement a plan working with the graduate advisor to rectify this.

Learners must complete all foundational requirements before taking more than six semester credits of graduate level courses. Learners who have not completed required foundational courses will not be allowed to enroll in additional graduate level courses beyond six semester credits until the foundational requirements have been satisfied.

**Requirements for a Master of Public Administration Degree**
The Upper Iowa University Master of Public Administration degree requires 42 semester credits of graduate level course work with a minimum cumulative grade point average of 3.0 on a 4.0 scale for completion. At Upper Iowa University, three-semester-credit courses are scheduled in six eight-week terms each year.

**Degree Completion**
To receive the Master of Public Administration degree, the learner must successfully complete 42 semester credits of graduate work,
including a final research report, and earn a cumulative GPA of not less than 3.0 on a 4.0 point scale.

A graduate learner will have five years after initial enrollment in the first of either a foundational or graduate level course to complete the graduate program under the requirements in effect at the time of enrollment. If the learner does not complete the graduate degree program within the five-year period, the requirements in effect at the time of the next enrollment will be used to determine the learner’s graduation requirements. If program requirements change, the learner can elect to complete the revised curriculum or to complete under the original curriculum.

Upper Iowa University reserves the right to make changes in its academic regulations and requirements when, in its judgment, the best interests of the institution are served.

Degree Requirements

Master of Public Administration

Learners completing the 24-credit MPA core requirements will have a broad overview of the discipline with an understanding of organizations, ethics, policy, and research methods. The 18-credit emphasis areas provide more in-depth knowledge into the areas of health and human services, public personnel management, nonprofit organizations, justice and homeland security, and government administration.

Public Personnel Management
This emphasis is designed to provide learners with specialized knowledge of the issues and challenges in managing personnel resources in the public and nonprofit sectors.

Choose four of the following: 12
- PA 509 Theories of Leadership
- PA 532 Public Sector Personnel Administration
- PA 544 Productivity Improvement in Government
- PA 545 Labor Relations and Conflict
- PA 548 Advanced Issues in Public Management

General Study
This area allows learners, in collaboration with the MPA coordinator, to develop a program that meets their specific needs and goals.

Select six electives with advice and consent of advisor

Internship
Learners may complete, as an elective, an internship (PA 594). This means obtaining a full-time paid or unpaid position for a period of eight weeks (not less than 320 hours) in a public sector or not-for-profit agency. The internship typically involves the learner working on an administrative policy or management issue confronting a public or not-for-profit organization. It is an opportunity for the learner to relate her/his academic experience in the master’s program to the issue that is the focus of the experience.

Internship positions are coordinated by the MPA Coordinator. Some internships are competitive in nature and are available on a regular basis with federal, state, county, and local governments. Others are posted from time to time as they are made known to the University. Still others become available on an ad hoc basis through the initiative of the learner. A learner’s progress in an internship is monitored by the learner’s immediate supervisor at the agency sponsoring the internship and by the instructor.

The learner prepares a report on the internship documenting the experience and its product, indicating the value of the experience for the learner, and offers personal reflection on:

- Achievement of the student’s learning objectives articulated at the beginning of the organizational experience.
- Opportunities for integration of curricular content in practice.
- Future career directions based on the experience and related learning.

The report incorporates documentation prepared for and submitted to the sponsoring organization regarding the issue studied, and is submitted to the instructor of record for PA 594 as the evidence of completion of the experience. The sponsoring organization will prepare a report on the work and effectiveness of the learner. These reports, along with the learner’s work product, will be considered in assigning a grade to the Internship. The report is graded on a pass/fail basis.

The Internship (PA 594) is graded pass/fail for transcript purposes.

Graduate Course Descriptions

BA 504 Marketing and Product Management 3 credits
The course will synthesize marketing and product development models in, but not limited to, the creation of customer value, consumer buying patterns, product innovation and development, strategy development, and the delivery of goods and services in a culturally diverse marketplace.

BA 505 Organizational Behavior 3 credits
Learners will develop an understanding of organizational behavior by understanding what goes on in the minds of managers and employees when they interact in organizations. Learners will explore motivation as well as individual and group behavior in the communication process. Management for performance will be emphasized. (MHEA students only).

BA 507 Ethics and Business Law for Accounting/Financial Managers 3 credits
This course reviews and debates the concepts of business law and ethical issues. This course will examine all elements of contract law, negotiable entrustments, business organizations, debtor-creditor relationships and property. The focus of this course will include interpretive responses and thorough written/oral communication. This course will also investigate ethical issues in contemporary topics of professional occupations with detailed examination in the accounting field.

BA 508 Current Issues in Corporate Law and Ethics 3 credits
The course will examine ethical theories and styles in contemporary organizational decision making, examining the ethics of current regulatory and legal issues impacting organizations.

BA 509 Theories of Leadership 3 credits
This course will include the investigation of leadership theories and explore the role of leadership in organizations. The course will also focus on the characteristics of leadership and the implications
BA 510 **Financial Accounting Theory** 3 credits
This course describes the framework of accounting theory and provides application of theory to relevant issues facing modern accountants, including income concepts, financial statement presentations, long-term assets and liabilities, disclosure requirements and ethical responsibilities. Prerequisite: Undergraduate degree in accounting or 30 semester credits of undergraduate accounting.

BA 511 **Corporate Entrepreneurship and Sustainability** 3 credits
The course synthesizes the responsibility of an organization as a leader in supporting global sustainability and integration of sustainability through entrepreneurial innovation and opportunities using industry analysis, competitive leverage, funding strategies, etc. within the organization. Prerequisite BA 504, BA 506, and BA 513.

BA 513 **Financial Management** 3 credits
This course analyzes contemporary theories of finance as applied to management decision-making including cash flow analysis, capital budgeting, risk and return, valuation models, financial instruments, statement analysis and capital structure. Prerequisites: Corporate Financial Management and Microeconomics Principles.

BA 514 **Business Analysis and Research** 3 credits
The course assesses various quantitative and qualitative research methods and designs to analyze data used by business managers in the preparation and development of business proposals and reports for corporations operating in globally diverse markets. Prerequisite BA 504, BA 506, BA 511, and BA 513.

BA 520 **Training and Development** 3 credits
This course work provides a detailed review of the principles and methods for training and developing human resources in a work environment. Learning theory and principles of effective training provide the foundation, but the emphasis is on applied delivery including training and presentation skills. Methods for analyzing training and development needs and the principles and techniques of program evaluation are also emphasized. Development of a training proposal is a key element. This course provides “hands-on” experience in designing and implementing training programs.

BA 521 **Advanced Managerial Accounting** 3 credits
This course examines the role of management accountants with the organization. A variety of cost measurement and allocation methods is described. The concepts of activity-based management and budgeting are presented. Quality, capacity, and environmental issues are discussed. Prerequisite: Undergraduate degree in accounting or 30 semester credits of undergraduate accounting.

BA 522 **Global Marketing** 3 credits
This course introduces students to marketing concepts used by domestic and foreign companies seeking to market products in global markets. Students will recognize the opportunities and challenges in today’s international business climate and understand how these opportunities and challenges are an important factor in modern marketing strategies and planning. A marketing plan/national audit of a specific product in a specific foreign market will also be designed.

BA 524 **Managing in the International Environment** 3 credits
This is a survey course of the issues presented to managers in the international environment. Learners explore a variety of topics utilizing discussion, researched reports and case analysis. Learners will explore issues including: the nature of international business, the external environment of international business, strategy and planning, marketing, trade practices, human resources management, financial management, and operations management in an international environment. Learners also explore the ethical considerations faced by international managers in decision making.

BA 526 **International Law** 3 credits
An analysis of the U.S. and foreign laws governing international trade.

BA 531 **Financial Markets and Financial Strategy** 3 credits
Students will explore domestic and international financial markets and the environments in which they function with emphasis on the operation, regulation, use, and evaluation of principal financial markets and institutions. Related issues explored include monetary policy, arbitrage, and their effects on business valuation. Learners will examine the choices available to finance businesses and selection of optimal capital structures.

BA 533 **Advanced Accounting Information Systems** 3 credits
Learners explore advanced topics in Accounting Information Systems (AIS) needed to understand and use technologies in making decisions in key practice areas of the accounting profession: managerial accounting, financial accounting, auditing, and tax accounting. Course topics include the technologies involved in AIS, types of AIS applications and systems, use of systems technology and database concepts as a philosophy of AIS, internal control issues of AIS, audit issues related to AIS, and systems development issues including the Software Development Life Cycle and current trends in AIS design. Prerequisite: Undergraduate degree in accounting or 30 semester credits of undergraduate accounting.

BA 536 **Derivatives and Risk Management** 3 credits
This course introduces the student to derivative securities and their application in the context of corporate decision-making. Students will explore issues associated with the valuation, trading, hedging, and use of derivative securities covering options, swaps, forwards, and futures that are traded or negotiated. Identification and valuation of options embedded in financial and operational decisions will be explored. Students will also explore issues including the use of insurance to transfer risk and the recognition, measurement, and management of portfolio risk.

BA 537 **Mergers, Acquisitions and Divestitures** 3 credits
Students will explore the analyses, valuation, financing and processes associated with both private and tendered acquisitions and mergers from the viewpoint of both the target and acquiring organizations. Anti-takeover defenses will be studied, including their effect on value and their effectiveness. Identification and valuation of operations to be divested will be covered, as well as common techniques such as full sale, spin-off, partial divestiture, and tracking stock.

BA 539 **Regulatory Environment of Financial Management** 3 credits
Students will explore the regulatory environment in which senior financial executives operate including SEC regulations and filings, NYSE and NASDAQ regulations and filings, and legislative requirements such as the Securities and Exchange Act and the Sarbanes-Oxley Act.

BA 540 **Labor/Management Relations** 3 credits
An investigation of the National Labor Relations Act and its implications to businesses. Labor legislation, labor unions and collective bargaining are topics to explore.

BA 544 **Organizational and Management Theories** 3 credits
This course provides an overview of the major principles of organization and management, in an integrated context. Frameworks for the analysis of managerial problems and decisions will be explored. Starting with basic organization theory and concluding with theories of micro-level processes, this course will introduce the different lenses with which to view behavioral processes within and between organizations. Special emphasis on issues of managing in a global business environment, the changing nature of governance, shareholder
and stakeholder rights, multiculturalism in organizations, organizational power and domination and alternative organizational forms will be woven throughout.

BA 546 Compensation and Benefits 3 credits
A study of the design and functioning of the entire compensation system with emphasis on wage and salary determination, individual group incentives, employee benefits, and non-economic rewards.

BA 547 Contemporary Topics in Financial Accounting 3 credits
This course covers contemporary issues in the accounting field. This class may include recent pronouncements of the Financial Accounting Standards Board (FASB), accounting and technology, cash flow analysis, and globalization in the accounting field. The focus of this class will change as the accounting field changes. Prerequisite: Undergraduate degree in accounting or 30 semester credits of undergraduate accounting.

BA 548 Development and Management of Human Resources Management 3 credits
An exploration of the principles and practices required to forecast and acquire the human resources necessary to implement operational and strategic plans in organizations. Learners will develop a plan for a specific project. Topics can include compensation, motivation and quality of work life.

BA 550 Special Topics Seminar 3 credits
This seminar is designed to examine in-depth current developments in specific areas of practice and research. Specific content of the seminar will change with each offering and will be announced prior to the term in which it is offered.

BA 553 Organizational Development 3 credits
An explanation of the core values and behavioral science theories that have shaped the field and defined the practice for organizational development and a prerequisite to understanding collaborative processes for managing planned change. Learners are familiarized with the intellectual legacies of the major theorists and practitioners that have influenced the evolution of organization development as well as the traditional organizational development concepts, models and interventions. Contemporary practices and future trends in the field are also examined.

BA 555 Organizational Culture 3 credits
This course focuses on managing the informal organization, individual idiosyncrasies, the organization as a social system, and organization politics. The course reviews various models of organizational culture, including origins and purposes, how to establish and nourish a business-supporting culture, culture audits, and culture change.

BA 560 Organizational Diagnosis and Intervention 3 credits
This course utilizes the conceptual foundations acquired in Organizational Behavior, and Organizational Development as a basis for analyzing and diagnosing organizational performance and designing appropriate interventions. A primary focus is on understanding and applying organizational functioning, and becoming familiarized with different interventions and organizational development technologies. Heavy emphasis is placed on applying various diagnostic models. Both in-class case analysis of organizations and outside projects which require learners to conduct a diagnosis and assessment in an organizational setting are used to facilitate the acquisition of diagnostic competence. Prerequisites: BA 505 and BA 553.

BA 561 Continuous Quality Improvement 3 credits
Continuous Quality Improvement (CQI) will be examined both as a concept and a process. The course material includes how CQI applies to organizations from all sectors, the new emerging paradigms that are represented by CQI, a focus on customers, an understanding of variation, the needed cultural change for a successful CQI implementation, as well as case studies. Emphasis will be placed on practical application of CQI concepts as they apply to organizations.

BA 563 International Accounting 3 credits
This course presents a conceptual framework for the understanding and application of international accounting standards. The impact of cultural and environmental factors on diverse accounting practices worldwide, will be examined. Accounting practices in a numbers of countries, representing various political and economic systems, will be analyzed. Prerequisite: Undergraduate degree in accounting or 30 semester credits of undergraduate accounting.

BA 564 International Financial Management 3 credits
Learners will explore the financial management issues faced by organizations that operate in the global economy. The course integrates macroeconomic theory with financial theory as applied to a multinational corporation operating in the global arena.

BA 565 Implementation of Quality Systems 3 credits
A course designed to give the learner an understanding of the requirements for the effective implementation of a quality system in an organization. Emphasis will be given to the practical application of implementation strategies and processes. Prerequisite: BA 561.

BA 567 Quality Management and Productivity 3 credits
This course focuses on the concepts of continuous improvement and quality management, viewing quality as a systematic process that improves customer satisfaction. The course covers methods and technologies that will aid managers in assuring that the organization’s quality system is effectively meeting the organization’s continuous improvement goals.

BA 569 Operations Research 3 credits
This course focuses on quantitative decision making tools, theory, and statistical process control. Topics covered include capacity management, inventory control, queuing, and scheduling. The course includes transportation decisions and project management techniques.

BA 570 Team Building Techniques 3 credits
A course that will illustrate how teams benefit organizations and analyze how teams function. The learner will obtain and analyze techniques used to improve group dynamics and obtain skills in how to facilitate an effective meeting.

BA 576 Global Supply Chain Management 3 credits
Introduces students to the concept of the supply chain management with a focus on the issues of the global business environment. Topics covered include the sets of business processes called "channels," channel integration, management functions of planning, organizing, and controlling, and collaboration. The context of the supply chain in today’s world is treated as highly significant and issues of culture and globalization will be addressed throughout the course.

BA 586 Global Business Strategy 3 credits
Students will explore and apply the essential theories of strategic management and operations concepts employed by best-practice companies in the transnational, international and global environments. Students will examine critical success factors in establishing and operating businesses in the global environment, including companies and their environments and the various external and internal issues not normally faced when operating solely in the domestic environment.

BA 590 Research Seminar 3 credits
The emphasis serves to integrate the learner’s studies in Business Administration by examining in depth an issue or problem of significance and special interest to the learner. Research, writing, and presentation skills are employed in this course. Each learner will design his/her own project, subject to approval of the faculty
HEA 501 Historical Foundations and Social Considerations of Higher Education 3 credits
An analysis of the evolution and development of the historical foundations of American higher education. Within the broad context of the history of higher education, the course also addresses the considerations and issues involved in relationship to social, economic, and political movements.

HEA 502 Foundations of Educational Research 3 credits
This course prepares higher education administrators to translate administrative questions into research questions, select appropriate research methods and techniques, prepare a literature review, develop data collection tools, collect data, as well as produce and present a research report. Prerequisite: Statistics/MATH 220.

HEA 503 Community Colleges and American Education 3 credits
An examination of community and technical colleges and how they relate to their communities. Topics include community and technical college development, governance, administration, finance, students, faculty, partnerships, instruction and future trends, challenges and obligations.

HEA 506 Ethical Dilemmas of Higher Education 3 credits
This course will assist educators to apply sensitivity to and help with ethical decision making in higher education. Students explore select systems of ethics; analyze current student, faculty, and classroom ethical issues; discuss administrator/board ethical issues; and examine the college or university as an ethical organization as a whole.

HEA 507 Student Development Theory in Higher Education 3 credits
This course examines the role of the student affairs professional and how they can maximize student learning through the facilitation of both cognitive and affective development and provides a clear understanding of the developmental issues facing students throughout their lifetimes and the process by which development occurs. Within their sphere of influence they must also be aware of factors that affect development and be able to work with individuals, groups, and organizations within the diverse campus community to establish environments conducive to the development of students from a variety of backgrounds. Topics include theories of human development and learning and their application in college settings.

HEA 511 Administration, Organization and Governance of Higher Education 3 credits
This course addresses the characteristics of fundamental reform and transformational change impacting leadership, administration, organization, and governance in contemporary higher education. An examination of the role of leadership in institutions of higher learning, including style, knowledge of the position, self-knowledge, personal characteristics, and ability to effectively initiate change, will be described. Unique challenges and opportunities affecting governance and organization in a global, market-oriented, competitive system of higher education will be analyzed.

HEA 512 Finance and Budgeting in Higher Education 3 credits
An examination of higher education finance and budgeting systems, practices and issues. Topics include revenues vs. expenditures, cost vs. productivity, the role of the public sector, student issues and budgeting.

HEA 521 Politics in Higher Education 3 credits
This course examines the complex political systems that shape higher education. Political actors include legislatures, interest groups, professional organizations, governmental analysts, and employee unions. Topics include accreditation, tuition, and affirmative action. Explores how to shape political options.

HEA 522 Legal Implications for the Administrator 3 credits
Prepares present and future administrators in higher education for legal and ethical issues such as due process for students and faculty, discrimination and equity, free speech and academic freedom, disabilities, property interests, and new compliance demands to manage legal risks.

HEA 531 Teaching, Advising and Retaining Adult Learners 3 credits
An examination of the adult learner and the exploration of strategies for teaching advising and retaining the adult learner.

HEA 535 Instructional Design and Delivery of Distance Education 3 credits
Provides an overview of planning and implementing distance education programs by understanding how to design and promote distance education programs, manage program budgets, plan distance education facilities, employ end-user support methods and training systems, and measure your program’s success.

HEA 538 Curriculum Development and Design for Community and Technical Colleges 3 credits
This course explores the relationship of design of curricula and instruction to current research about learning and the administration of higher education. Surveys current best practices, trends, and essential tools for development of curriculum and its evaluation. Examines how to create curricular leadership in higher education.

HEA 550 Special Topics in Higher Education 3 credits
This course explores in depth critical and current issues in the field of higher education, from the perspective of administrator and addresses how these critical issues impact two-year, four-year, public, private, for-profit and not-for-profit institutions.

HEA 556 Strategic Decision Making in Higher Education 3 credits
A survey of the theories and best practices of strategic planning and decision making in higher education. Provides students with major studies and models. Includes implementation techniques and outcomes evaluation, the impact of futuristic technologies, emerging new providers of higher education, and accreditation bodies.

HEA 557 Planning and Assessing Two-Year Programs 3 credits
This course is an examination of methods and approaches used to develop and implement plans and correlative assessment processes for two-year programs. Programs included in this course on planning and assessment include general educational-associate of arts degree programs, vocational degrees, and certification programs, such as technological, business, transfer, and medical.

HEA 558 Quality Improvement and Accreditation 3 credits
This course is an examination of higher education assessment and accreditation practices and the utilization of quality principles for continuous improvement. Topics include assessment models, assessment practices, quality in higher education, the quality principles and using the quality principles for continuous improvement.

HEA 590 Research Seminar 3 credits
The emphasis serves to integrate the learner’s studies in Educational Administration by examining in depth an issue or problem of significance and special interest to the learner. Research, writing, and presentation skills are employed in this course. Each learner will design his/her own project, subject to approval of the faculty member, in order to fulfill the course requirements. The project shall
demonstrate (1) integration of the MHEA program objectives, (2) graduate-level writing skills using APA format, (3) graduate level critical thinking skills and (4) in-depth understanding and application of the objectives of the area of emphasis utilizing appropriate research techniques. A PowerPoint™ supported presentation of the project, suitable for senior-level decision makers, is also required. Prerequisite: completion of all core and area of emphasis courses (may take one area of emphasis course concurrently).

PA 505 Organizational Behavior 3 credits
Same as BA 505.

PA 507 Ethics of Public Service 3 credits
Analyzes and discusses the role of ethics for the practice of public administration. The development of ethical codes is traced from moral and constitutional roots. Explores the conflicts faced by program managers between ethical behavior and political/program expediency utilizing case studies and legal precedents. Focuses on the role of organizational, societal, and individual values in ethical public administration, consequences of ethical and unethical behaviors, and models for resolving ethical and values-based conflict in public organizations.

PA 508 Terrorism and Politics 3 credits
This course reviews the history of terrorism, especially since the French Revolution; its evolving definition, and how it relates to state violence; and its protean contemporary forms.

PA 509 Theories of Leadership 3 credits
Same as BA 509.

PA 510 Public Administration 3 credits
An advanced study of the interaction among public sectors organizations, both not-for-profit and governmental, with various levels of government, including politics, administration, and bureaucratic policy-making at the local, state, and national levels on a broad range of not-for-profit and public systems and entities. Study will include the relationship between government bureaucracies and the political system of the United States.

PA 513 Government Budgeting Systems 3 credits
This course examines the budgeting policies and practices of not-for-profit and governmental organizations. Budgeting, as a fiscal management tool, is examined within the political decision-making process. A variety of budgetary techniques such as Line-Item, Performance Budgeting, PPBS, and Zero Based Budgeting will also be studied. Theories of fiscal policy are illustrated with exercises in constructing different types of budgets and managing public funds.

PA 515 Grant Writing and Administration 3 credits
A study of the administration and management of the grants and funding contracts in public and nonprofit organizations including the basic principles, skills, methods, and techniques of grantwriting. Learners will explore the sources of grants, funding contracts, types of grants and contracts available, and strategies to submit proposals for grants. Using hypothetical programs, learners will prepare and analyze elements of a grant proposal, develop a Request for Proposal (RFP), and make funding recommendations.

PA 517 Research Methods in Public Administration 3 credits
An introduction to the study and application of research designs, methods and theories. Students will be introduced to the scientific method, theories, quantitative and qualitative research designs. Issues and problems in public administration research will be explored.

PA 522 Psychology and Culture of Terrorism 3 credits
This course will review the definition and various forms of terrorism, as well as the strengths and weaknesses of terrorism and terrorist typologies. Various forms of political, religious, and cultural terrorism will be examined, as well as their causes. The course draws on theories and research from psychology, sociology and cultural studies to assist in reaching an understanding of terrorism from a psychological and cultural perspective.

PA 523 Emergency Management, Homeland Security, and Public Policy 3 credits
This course will introduce the learner to the dynamic environment faced by intergovernmental actors as they strive to protect the homeland from manmade and naturally occurring incidents. The evolution of emergency management and homeland security policy will be discussed. Learners will discuss how policy choices affect the practice of emergency management and homeland security.

PA 524 Leadership Issues with Critical Incidents 3 credits
This course examines concepts and theoretical approaches to managing critical incidents. Case studies will be used to examine the application of emergency management and homeland security strategies. This course builds on roles and responsibilities of all levels of government and the non-profit organizations in emergency management operations. Specifically, the Incident Command System, and the National Response Framework and the Stafford Act will be discussed.

PA 525 Comparative Strategies of National Security 3 credits
This course will examine transnational nature of crime, terrorism and assess national security strategies employed by the U.S. and other nations. This course will allow students to evaluate global threats that may impact the U.S. security interests. The focus of this course is to allow students to analyze how U.S. and foreign governments counter criminal activities and terrorism. The emphasis will be on current global and regional threats to the U.S. national security.

PA 526 Emergency Management: Mitigation, Recovery, and Continuity 3 credits
This course will explore strategic efforts to improve emergency management mitigation and recovery efforts at the local, state, and national level. The role of domestic and international organizations in helping prevent and recover from incidents will be explored. In addition, strategies to maintain uninterrupted government functions will be introduced.

PA 529 Public Policy Formulation, Implementation, and Assessment 3 credits
Explores theory and issues that affect formulation of policy in public and not-for-profit entities. Examines research methodologies and techniques employed in policy formulation and program assessment. Explores the process by which issues of concern enter into the public debate, are adopted by the political process, are formulated into specific policies and put into practice in government and non-government organizations. Identifies assessment standards and requirements. to ensure creation of policies in a manner that facilitates assessing attainment of policy goals. Includes social indicators, quantitative and qualitative methods, and experimental and quasi-experimental designs as used in applied policy formulation and program assessment. Prerequisite: BA 542

PA 530 Public Policy and Healthcare 3 credits
An exploration of the analysis, development, implementation, and evaluation of policies and programs affecting health. Focuses on healthcare institutions, with some attention to managing critical incidents. Case studies will be used to examine the application of emergency management and homeland security strategies. This course builds on roles and responsibilities of all levels of government and the non-profit organizations in emergency management operations. Specifically, the Incident Command System, and the National Response Framework and the Stafford Act will be discussed.

PA 531 Introduction to Healthcare Systems 3 credits
The course is designed to familiarize learners with the financing, operation, regulation, and structure of the American health care system. Attention will be paid to environmental forces that shape and define the healthcare system.

PA 532 Public Sector Personnel Administration 3 credits
Students will explore and analyze personnel policies and practices in the public sector in the context of patterns of interaction among
political executives, personnel professionals, public employees, and interest groups in the development of personnel policies.

PA 534  Economics of the Helping Professions  3 credits
Students explore the effect of macro- and micro-economic theory on the design, implementation, and outcomes of health and human services programs. Learners explore optimization, consumer/client demand, production/service delivery, investment decisions, market structure, and information problems as applied to the public and not-for-profit health and human services sectors.

PA 535  Counter-Terrorism  3 credits
This course will include an analysis of counter-terrorist global policies, strategies, operations, and organizations since September 11. Students will become familiar with radical extremist organizations to evaluate current U.S. counterterrorism strategy to defeat these groups. A comparison will be made of U.S. counterterrorism strategy to other western nations’ strategy to defeat terrorism. Given a scenario, students will critically analyze a terrorist organization’s motives, methods, and tactics to develop a counterterrorism strategy. Prerequisite: PA 508: Terror and Politics.

PA 536  Legal Environment of the Helping Professions  3 credits
Explores the legal and regulatory issues faced by executives responsible for delivering healthcare and social services in the not-for-profit and government sectors. The course uses readings and case analyses to develop an understanding of the range of actions available to health care and social service executives and the effect limitations on actions can have on the quality, efficiency, and effectiveness of the services provided. The issues of privacy concerns, conflicts of interest, and fiduciary responsibility are explored.

PA 538  Healthcare Financial Management  3 credits
Explores the processes and methods of financial management in the healthcare industry. Patterns of healthcare expenditures, methods of financing healthcare, financial planning and development, third party reimbursement, and internal controls in health institutions and programs management.

PA 540  Information Systems and Public Management  3 credits
Explores information systems technologies and policies in the public or nonprofit sectors. Focuses on practical management information systems application in the public sector through case studies and implementation strategies, including topics such as databases, system architecture, data normalization, benefit-cost analysis, and an introduction to programming. General familiarity with personal computers is required. Explores the implications of computer hardware and software issues for public sector management, with particular emphasis on applications of microprocessors. Includes a survey of database management problems, control, resource allocation, communications, and networking issues.

PA 542  Applied Methodology and Research  3 credits
This course is designed to provide students with an experience using both qualitative and quantitative methods of analysis utilized in public administration. This includes learning to use survey and multivariate regression approaches to study public policy and programs.

PA 543  Emergency Management: Planning and Response  3 credits
Examines the theory and practice of strategic and operational planning for hazards and disasters. Reviews the principles associated with evaluation of threats, risk and vulnerabilities as related to the formulation of prevention programs and plans. The principles of risk identification and communication, management and coordination of resources, and public education will be examined. The organizational aspects of emergency management and its position within local, state, and national governments will be discussed from the federal, state, local and tribal perspectives.

PA 544  Productivity Improvement in Government  3 credits
Explores and analyzes current topics on productivity in public organizations, with particular attention to change management, transparency, performance, accountability, work management processes, private sector management practice, outcome measurement, E-Government strategy, and labor-management relations. Contemporary productivity theories of a more generalized nature also will be explored. Integrates conceptual works in productivity with case studies that describe actual operations of public productivity programs. Cases cover concepts of measurement, management practice, technology and capital investment, and labor-management relations, with an emphasis on understanding the linkages between theory and practice.

PA 545  Labor Relations and Conflict Resolution in the Public Sector  3 credits
Labor relations in public organizations including collective bargaining and employment law will be examined. Theories of conflict and methods of alternative dispute resolution will be introduced.

PA 548  Advanced Issues in Public Management  3 credits
Examines how managers in public and nonprofit agencies can secure and utilize legal authority, human resources, and funds to accomplish organizational goals. Employs case studies to explore current problems and emerging issues of public administration.

PA 550  Advanced Criminal Procedure  3 credits
Examines and explores the laws, regulations, rules, and legal precedents governing admissibility and exclusion of evidence in civil and criminal litigation, including judicial notice; examination, competency and privileges of witnesses; relevancy; hearsay; opinion and scientific evidence; documentary evidence; burden of proof and presumptions. This course also addresses both the Federal Criminal Rules of Procedure as well as substantive Federal Criminal Law as applicable to the law enforcement professional. The course also will address search warrants, including trap and trace, wiretap, and pre-register. The course includes an introduction to and discussion of the Federal Sentencing Guidelines.

PA 551  Introduction to Nonprofit Governance  3 credits
This course is an overview of the issues, controversies, challenges, and opportunities facing administrators of nonprofit organizations. Issues addressed include organizational structure, governance, accountability, strategic planning and ethical decision-making.

PA 552  Correctional Systems Issues and Policy  3 credits
Analyzes selected problems currently confronting corrections professionals in both institutional and community settings. Considers issues such as overcrowding, excessive costs, ineffective programs, corruption, brutality, escapes, inmate violence and uprisings, and corrections officer professionalism. Explores the effect of alternative policies on corrections professionals, incarcerated persons, local communities, and society.

PA 554  Theories of Crime and Public Policy  3 credits
Examines theories of crime and sociological principles applied to public policy issues to explore the relationship between scientific analysis of crime and formation of public policy. Integrates policy analysis and criminal justice planning. Explores how to assess proposals intended to reduce crime levels and to improve the effectiveness of policing, adjudication, and corrections.

PA 555  Critical Infrastructure: Vulnerability Analysis and Protection  3 credits
Learners will explore the issues, complexities and challenges associated with developing vulnerability analyses and the subsequent allocation of resources once the vulnerability analysis has been done. The emphasis of the course is on how to use technologies such as SCADA to create a model-based vulnerability analysis in order to protect critical sectors. How to integrate vulnerability analysis into emergency management and homeland security policy and decision making will be explored.
PA 556 Constitutional Law: Civil Liberties 3 credits
Provides an intensive review of past and recent Supreme Court decisions that interpret Constitutional guarantees and limit government actions. Examines problems of reconciling individual rights with societal concerns about safety and crime prevention. Analyzes the conflicting group interests that arise around issues such as freedom of speech and assembly, church-state relations, equal treatment before the law for members of minority groups, and post-incarceration rights and duties of convicted persons.

PA 558 Psychology of Criminal Behavior 3 credits
Focuses on the major psychological theories of criminal and aggressive behavior. Viewpoints from cognitive, psychodynamic, psychoanalytic, behavioral, social learning, descriptive and developmental psychologists are discussed. Students will also explore theories of congenital and acquired brain defect as causes of criminal behavior. Case examples are used to illustrate the various theories. Specialized topics include alcohol and crime, sex crimes, juvenile delinquency, and women and crime.

PA 562 Seminar in Federalism and Intergovernmental Relations 3 credits
Seminar examining the evolution and practice of federalism and intergovernmental relations among American national, state, metropolitan, local, and tribal governments. Students will utilize different theoretical perspectives to analyze and critically evaluate the rationale for assigning and justifying which unit of government is best situated to develop, implement, monitor, and evaluate public policy.

PA 563 Administrative Law 3 credits
An introductory exploration of the regulatory process including rulemaking, enforcement, and adjudication. Learners will examine the history and evolution of administrative law, its role in defining the power and discretion of unelected officials, and the impact it has on the democratic process.

PA 564 Seminar in State and Local Government Management 3 credits
An introduction to how the American political system defines, constrains, and shapes public management at the state and local level. Of particular interest will be the role and responsibilities of public managers in promoting and upholding the public trust.

PA 565 Advanced Policy Analysis and Evaluation 3 credits
This course will introduce learners to the tools and techniques used by policy analysts. Learners will gain an appreciation for the political and logistical issues surrounding policy implementation. They will then explore the difficulties in evaluating program efficiency and effectiveness.

PA 566 Economic Development: Theory and Practice 3 credits
This is a seminar examining the theories, analytical tools, and political context of economic development at the state and local level. Learners will examine current trends, issues, and controversies involving government-sponsored economic development.

PA 567 Strategic Management for Public and Nonprofit Organizations 3 credits
The theory and practice of strategic management in public and nonprofit organizations will be examined. It will include a discussion of the roles and responsibilities of actors involved in strategic management including the ethical dimension of strategic planning.

PA 568 Government and Nonprofit Financial Management 3 credits
Learners will develop the skills necessary to make managerial decisions based on information contained in the financial statements of the organization. Financial statements will be used to evaluate operating performance, cash flow, debt management and investment decisions. The political, economic, and social context of financial decisions will be explored.

PA 590 Research Seminar 3 credits
The seminar serves to integrate the learner’s studies in Public Administration by examining in depth an issue or problem of significance and special interest to the learner. Research, writing, and presentation skills are employed in this course. Each learner will design his/her own project, subject to approval of the faculty member, in order to fulfill the course requirements. The project shall demonstrate (1) integration of the MPA program objectives, (2) graduate-level writing skills using APA format (3) graduate-level critical thinking skills and (4) in-depth understanding and application of the objectives of the area of emphasis utilizing appropriate research techniques. A PowerPoint™ presentation of the project, suitable for senior level decision makers, is also required. Prerequisite: completion of all core and area of emphasis courses (may take one area of emphasis course concurrently).

PA 594 Internship 3 credits
Supervised field experience in a public sector or not-for-profit agency. Consent of MPA Coordinator and written report are required. Prerequisite: completion of courses in the emphasis area.
ACADEMIC EXTENSION RIGHTS, RULES AND REGULATIONS

For official University policy go to http://www.uiu.edu/policies

Upper Iowa University is committed to maintaining a quality educational environment that is safe and healthy, allowing learners to grow personally and professionally. If you have additional questions about these policies and regulations, or need more information, contact a UIU staff member.
Respect for the University Environment
A university is a place where ideas are conceived, explored, discussed, debated, and transformed. In order for this to happen, it must be agreed that all members of the academic community participate in the exchange of ideas in a respectful and courteous manner. Disagreement is expected and valued. By entering the academic milieu with open minds, all members of the university community will experience the intellectual growth that is the essence of the university experience.

In order for the true university experience to benefit all members of the Upper Iowa University community, whether they are participating in classrooms, online or through correspondence, the University enforces the following expectation: all academic discussion and University business will be conducted in a respectful and courteous manner.

Admission to the University implies acknowledgment and acceptance of the University’s policies and conduct expectations.

Conduct Expectations

Code of Student Responsibility
As an Upper Iowa University student, your basic responsibilities are outlined below. As a member of the UIU community, you are expected to:

• Become familiar with the policies and procedures explained in the AE University Catalog and other published policies.
• Respect the right of freedom of expression of all students, faculty and staff members, following University guidelines for channels of expression.
• Be willing to assume the consequences of your own actions, and avoid conduct that is detrimental in its effect upon other students, faculty and staff and the University.
• Recognize designated authority and comply with directives by faculty and staff members.
• Practice the rules of good conduct—be truthful, respect the rights of others, and respect and protect private and public property.
• Take the responsibility to meet your financial obligations and University deadlines.
• Take the responsibility for class attendance, in accordance with the University stated attendance policies.

University Community Standards and Regulations
The following are specific offenses to the University community that will subject offenders to disciplinary action by the University, and in some cases to judicial action by public authorities.

1. Endangering personal safety. A student or group of students may take no action that disrupts or tends to disrupt the peace or endangers or tends to endanger the safety, health or life of any person.

2. Physical, sexual or verbal abuse. Physical, psychological, sexual, written or verbal abuse of persons is prohibited, as is subjecting persons to painful or humiliating ordeals. Public posting or utterance of obscene language or the display of lewd or pornographic material or erotic art is not allowed on campus. Sexual harassment, sexual abuse, bullying and hazing are in violation of student conduct regulations, state and/or federal laws. For more specific information, please reference Upper Iowa University’s policies on Discrimination and Harassment.

3. Destruction of property. Vandalism is prohibited on campus; this includes misuse of, destruction of or damage to all property—University, public and private.

4. Mass demonstrations and/or disorderly conduct. Any assembly or individual act that interferes with the normal operation of the University or that could result in damage to public or private property or injury to persons is prohibited, and participants will be asked to disband by designated University officials. Drunken conduct, inciting mass disturbances, and riots are also considered disorderly.

5. Failure to comply with directives. While performing their University duties, staff or faculty members may give directives and instructions to students. Failure to comply with these directives will result in disciplinary action.

6. Theft. Any form of acquiring private or public property to one’s own use and/or possession is considered as, and will be dealt with as, theft.

7. False information or dishonesty. Furnishing false information or misleading statements (oral or written) to University officials with intent to deceive is fraudulent.

8. Forgery. The alteration or misuse of University documents, records or identification cards is fraudulent, as is the deceptive alteration or use of personal checks.

9. Cheating and plagiarism. Because cheating, academic dishonesty and plagiarism constitute a denial of the University’s and the offender’s own integrity, they will not be tolerated.

Cheating includes, but is not limited to:

• The use of unauthorized books, notes or other sources in the giving or securing of help in an examination or other course assignments.
• The copying of other students’ work or allowing others to copy your work. The submission of work that is not your own or allowing others to submit your work as theirs,
• The submission of the same work for two or more classes without the approval of any instructors involved.

Academic dishonesty includes, but is not limited to:

• Sharing academic materials knowing they will be used inappropriately,
• Accessing another person’s work without permission,
• Providing false or incomplete information on an academic document,
• Changing student records without approval,
• Obtaining and using texts or other materials intended for instructor use only.

Plagiarism includes, but is not limited to:
• The presentation of another’s published or unpublished work as one’s own,
• Taking words or ideas of another and either copying them or paraphrasing them without proper citation of the source,
• Using charts, graphs, statistics or tables without proper citation.

Detected cheating or plagiarism will result in consequences that may, at the professor’s discretion, include course failure. In addition, an offender can be reported to the Faculty Judicial Board for possible further disciplinary action.

10. Alcoholic beverages and alcohol abuse. Students are expected to abide by the Federal, state, and local alcohol laws of the United States or the laws of country in which he/she resides. United States law forbids the use or possession of alcoholic beverages by any person under age 21. Possession of empty or full containers or use of alcoholic beverages such as liquor, beer or other forms of intoxicants by any student is not permitted on University property that is owned, leased, or occupied by UIU. General campus buildings, athletic fields, campus recreational areas and residence halls (except in the privacy of their rooms when the student is over the age of 21). Consumption of alcoholic beverages by any student to the point of losing control of his/her faculties is not permitted on University property that he/she resides. United States law forbids the use or possession of hallucinogens of any type, knives with a blade longer than 3 inches, fireworks, explosives, dangerous chemicals or noxious substances is not allowed on University property that is owned, leased, houses UIU classes or in University buildings. (See Weapons Policy for complete definitions and any exceptions.)

14. Misuse of telephone. Telephone calls made with the intent to defraud, alarm or annoy others are prohibited by law in the United States. The offense may be prosecuted either at the place where the call was made or where it was received. A student may use only the telephone authorization code number assigned to him or her. Residence hall students are responsible for all telephone calls made from their rooms.

15. Misuse of keys. Keys to University housing and buildings are not to be duplicated or used for unauthorized access. Students must not possess University keys unless issued to them by a University official. Keys that are found must be turned in immediately to the OSD (Fayette Campus) or the respective staff member at that UIU location, national or international.

16. Improper entry into buildings. Entering a building after its posted hours of operation or after it has been locked and secured is considered improper entry. Only those individuals or authorized groups who have been granted permission by the proper person in charge may enter buildings after regular closing hours.

17. Misuse of computers. Upper Iowa University’s computer resources are shared by all members of the University community. Individuals must use these resources responsibly in pursuit of University-related functions, and in doing so, not infringe on the rights, integrity or privacy of others. Responsible use covers, but is not limited to, behavior in the computer labs, use of E-mail and use of the Internet. Students must obey all appropriate federal, state and local laws. Students must adhere to all guidelines as detailed in Upper Iowa University’s statement of “Policy on Acceptable Use of Technology.”

18. Hazing. Any action taken or situation created, intentionally or otherwise, whether on or off University premises, to produce mental or physical discomfort, embarrassment, harassment, or ridicule. Hazing may include but is not limited to the following: use of alcohol; paddling in any form; creation of excessive fatigue; physical and psychological shocks; quests, treasure hunts, scavenger hunts, road trips or any other such activities that is carried on outside or inside of the confines of the University; wearing of public apparel which is conspicuous and not normally in good taste; engaging in public stunts and buffoonery; morally degrading or humiliating games and activities; and any other activities which are not consistent with fraternal law, ritual or policy or the regulations and policies of the University.

19. Disruptive classroom behavior. Disruptive classroom behavior is any conduct that substantially interferes with or obstructs the teaching or learning process in the context of a classroom or education setting. As determined by the instructor, it is an individual’s conduct that distracts or intimidates others in a manner that interferes with instructional activities or fails to adhere to classroom rules or instructions.
20. **Stalking.** Stalking is a course of conduct directed at a specific person that would cause a reasonable person to feel fear. Course of conduct is defined as “a pattern of actions composed of more than one act over a period of time, however short, evidencing a continuity of conduct.”

**Stalking Behaviors**

Stalking includes any behaviors or activities occurring on more than one occasion that collectively instill fear in a victim, and/or threaten her or his safety, mental health, or physical health. Such behaviors and activities may include, but are not limited to, the following:

- Non-consensual communication, including face-to-face communication, telephone calls, voice messages, e-mails, text messages, written letters, gifts, or any other communications that are undesired and place another person in fear.
- Use of online, electronic, or digital technologies, including:
  - Posting of pictures or information in chat rooms or on Web sites
  - Sending unwanted/unsolicited email or talk requests
  - Posting private or public messages on Internet sites, social networking sites, and/or school bulletin boards
  - Installing spyware on a victim’s computer
  - Using Global Positioning Systems (GPS) to monitor a victim
- Pursuing, following, waiting, or showing up uninvited at or near a residence, workplace, classroom, or other places frequented by the victim
- Surveillance or other types of observation including staring, “peeping”
- Trespassing
- Vandalism
- Non-consensual touching
- Direct verbal or physical threats
- Gathering information about an individual from friends, family, and/or co-workers
- Threats to harm self or others
- Defamation – lying to others about the victim

**Disciplinary Matters**

Discipline is a fundamental part of the living/learning process. Since Upper Iowa University expects its students to take responsibility for their own actions, the following guidelines provide a policy and structure to ensure that all our students are treated fairly.

1. The Upper Iowa University Administration reserves the right to discipline a student whose personal conduct on or off campus or academic standing is regarded as undesirable. Sanctions can range from a reprimand to expulsion. Examples of undesirable personal conduct are outlined above, and examples of undesirable academic standing are found in the University catalog.
2. If a student is removed from the residence hall, suspended, dismissed or expelled, the student is responsible for all financial obligations for that semester. No refunds are given to students in violation of University Standards and Regulations.
3. At the time of a student’s suspension, dismissal or expulsion, all outstanding financial obligations to the University must be met. A student under suspension or dismissal may not apply for readmission until these obligations are first cleared.

**Disciplinary Hearing Officers**

The following individuals or groups are responsible for handling disciplinary incidents of students:

1. Dean of Student Development
2. Associate Dean of Student Development/Director of Residence Life
3. Assistant Director of Residence Life
4. Faculty Judicial Board
5. Director of Student Leadership & Adventure
6. Director of Student Activities
7. Center Director/CDE Executive Director
8. Regional Executive Director/Vice President or Executive Director of International Programs
9. Other student conduct committees authorized by the Dean of Student Development.

**Faculty Judicial Board**

The Faculty Judicial Board conducts hearings on cases referred to it by the Dean of Student Development. Cases referred to the Faculty Judicial Board are those that the violations are severe enough to warrant suspension, dismissal or expulsion. The judicial board reports its verdicts and sanction recommendations to the Dean of Student Development. The Dean of Student Development will communicate with the parties involved. This board consists of the following: faculty members elected by the University Council, students selected by the President of the Student Government and the Dean of Student Development. The faculty members on the board select one of their members to serve as Chief Justice. The Dean of Student Development will determine the size of the board based on the sensitivity of the case.

**Disciplinary Hearing Procedures**

The University Administration is responsible to the Upper Iowa Board of Trustees for campus order and discipline. To carry out this responsibility, the following administrative procedure has been established for hearing disciplinary cases. Judicial proceedings begin when a student, staff, faculty, community member, law enforcement official or University Campus
Security Officer witnesses or reports an incident, situation or questionable behavior which appears to violate the standards expected of University students. An individual wishing to report an incident should contact an official in the Residence Life, Campus Security, Dean of Student Development’s Office or Center Director/CDE Executive Coordinator. A report is prepared describing pertinent facts and the names of persons involved. If the incident is deemed sufficiently serious and a representative of the appropriate office considers the report to indicate probable violation of the code of student responsibilities, the incident will be heard by a hearing officer or the Faculty Judicial Board.

In minor violations, the student is entitled to the following:

Letter is issued to the student stating:
1. With what violation(s) he or she has been charged;
2. Date by which he or she needs to meet with the Hearing Officer to have the hearing;
3. That if the student does not meet with the Hearing Officer, a hearing will be held in his or her absence.

When a major violation occurs, the student is entitled to the following hearing procedures:

1. Written notification of the time and place of the hearing;
2. A written statement of the charges;
3. Written notification of the name(s) of witness(es) who initially reported the alleged violation to the disciplinary body.
4. Written notification of a hearing will be given to the student at least 24 hours in advance of the hearing.

Testimony of individuals and the names of person(s) involved in the cases heard will be kept confidential. Hearings shall be conducted in private in order to protect the confidential nature of the proceedings.

At the hearing, the respondent is entitled to the following:

1. To appear in person to present a defense to the hearing body or officer and to call witnesses. Witnesses must have observed the situation or have supporting evidence. All witnesses are required to submit written statements one day in advance of the hearing. If the respondent does not appear, this will be taken as indication of guilt and must be noted. A hearing can be held if the respondent does not appear.
2. To ask questions of the committee or hearing officer. To pose questions for witnesses in writing that may be asked at the discretion of the chief hearing officer.
3. To refuse to answer questions.
4. To receive an expeditious hearing of the case.
5. To be represented by another student, staff or faculty member as an advisor. A non-University person may not serve as an advisor, since this is not a legal hearing. The student is entitled to an explanation of the decision. He or she will receive written notification of that decision within 24 business hours.
6. The rudiments of fair play will be observed in all disciplinary proceedings.

A record of the alleged violation, accompanying documents and recommended action will be maintained in the files of the OSD.

Right of Appeal
Appeals must be filed in writing within 24 hours (excluding weekends) after receiving notice of the hearing decision. Appeals should be sent to the appropriate University official or hearing body as directed in the sanction letter. The initial decision of the hearing body will be stayed until an appellate body ruling is rendered. The decision of the appellate body or official is final and cannot be further appealed.

Types of Disciplinary Sanctions
The following types of disciplinary sanctions may be imposed by the University in handling disciplinary cases. Fines and restitution may be included in any disciplinary action. The types of action are listed as follows:

A. Reprimand – a verbal or written warning.
B. Disciplinary Probation – A strong official warning in writing to the student informing him or her that enrollment is made conditional for a stated period. The action constitutes notice that further violation of any kind will result in more serious penalties or suspension. Disciplinary probation may be carried into and/or through another semester. Disciplinary probation also may include:
   - Loss of privileges, which include specific residence hall restrictions and/or obligations; removal from class for one class session (60 or 90 minutes), denial of use of University parking areas; ineligibility to represent the University in any capacity, including, but not limited to, athletic teams, RAs, etc.
   - Cancellation of campus employment, effective immediately with repayment of awards, grants or assistantships, on a prorated basis.
C. Temporary Suspension – Pending the adjudication of a disciplinary hearing and appeals, the Dean of Student Development/Center Director/CDE Executive Director has the authority to impose a temporary suspension, which becomes effective immediately and remains until investigation is completed. The accused and the victim will be informed. Such action will be taken only in those cases presenting a clear and present danger of harm to the individual(s) charged, the victim(s), other members of the University community, the educational process, University property, or guests and/or visitors of the University and their property. The respondent or accused student under temporary suspension is denied permission to return to the University and its facilities, owned or leased grounds, University vehicles and any planned or sponsored University activity.
D. Suspension – An interruption of the student’s enrollment at the University for a definite, stated time. This may be for a
short, definitely prescribed period, as set by the imposing authority. Generally, the period of time is at least the balance of the current semester. The action may be made applicable for the following semester, with the student permitted to finish the current semester. The student is eligible for consideration for readmission upon petition to the appropriate authority upon the conclusion of the suspension period.

E. Dismissal – The student’s enrollment is immediately terminated for an indefinite period, usually for a minimum of one calendar year, until the authority imposing the action sees fit to reinstate the student. The student must petition to the appropriate authority before such possible reinstatement is considered.

F. Expulsion – The student is permanently excluded from the University and is not eligible for consideration for readmission.

G. Fines - Fines are due as designated in the written notice or by the date agreed upon in the hearing. Failure to pay may result in:
   - Impoundment of student records (transcripts/credentials)

Categories D, E, F, G and H involve financial obligations to the University. No refunds of any type will be made by the University.

**Disciplinary Record and Reports**
Confidential records of all misconduct reports, investigations and disciplinary actions are maintained by and kept in the Office of Student Development. Those individuals who are a part of the University community who have a need to know will be granted access as approved by the Dean of Student Development. Victims of sexual assault are entitled to know the outcome and sanction of the disciplinary hearing in which they are involved.

Upon written request, the alleged victim of a crime of violence or a non-forcible sex offense may be informed of the final determination of the University disciplinary hearing. This same right is granted to alleged victims’ next of kin in the event of the victims’ death.

**Interacting with University Personnel**
Students enrolling in a program at Upper Iowa University assume the responsibility of conducting themselves in a manner compatible with the University’s function as an educational institution. Obstruction or disruption of teaching, research, administration, disciplinary procedures or other University activities, or of other authorized activities on University premises, will not be tolerated.

**Classroom Expectations**

**Attendance**
As an Upper Iowa University student, you are expected to attend class regularly and promptly in order to do satisfactory work. While attendance will not be used in grade determination, class participation requirements are set forth by individual instructors. These expectations may be more stringent in some classes than others. When you must be absent from class because of illness or emergency, you are expected to arrange for the completion of make-up tests or homework with the individual faculty member(s). These arrangements are to be made prior to the incurred absence, except in emergency situations.

**Cell Phones**
Cell phones should not be used in the classroom. Students are encouraged to turn cell phones off during class time. If a cell phone must be kept on due to a potential emergency situation, it must be on a silent setting. If an emergency call must be taken during a class, the student must leave the classroom prior to answering the call and not return until the call is completed.

**Children in the Classroom**
Upper Iowa University students are not allowed to bring children to class. Many topics discussed in college classrooms are inappropriate for children. In addition, children sometimes create distractions for other adult learners.

**Guests**
Guests are not normally allowed to attend Upper Iowa University classes. Only in the event of an emergency and/or non-routine situation may a student seek an exception to this rule. If not already prohibited in the course syllabus, the request for an exception must be made to the responsible faculty member prior to bringing the guest into the classroom. Faculty members have the authority to decide if guests may be allowed in the classroom. The faculty member and the student will consider issues of safety and may consider the appropriateness of course content in making such decisions. It is the student’s responsibility to make sure guests do not disrupt the educational environment of the class. If the guests do cause a disruption, the faculty member shall request or insist that the guest(s) leave or be removed from the classroom.

**Pets and Animals**
Because of the health risk involved (to humans and pets), only animals assisting disabled students are allowed on University property.

**Drugs and Alcohol**
It is the University’s intent and obligation to provide a drug-free, healthful, safe and secure academic environment.

**Possession/Use**
1st offense: $250 fine, disciplinary probation for a minimum of one year, educational sanction
2nd offense: $250 fine, disciplinary probation until graduation, educational sanction, substance abuse assessment
3rd offense: Expulsion from the University.

**Sale/Distribution**
1st offense: Suspension

The official University drugs and alcohol policy can be found at http://www.uiu.edu/policies.
Student Protections

UIU Student Complaint Procedures
The student complaint procedures are established to address concerns that arise within the University community. There are various procedures available to students depending upon the complaint. A complaint is a concern regarding a policy or procedure that has been inappropriately or unjustly applied or a charge against an individual’s behavior. Informal and Formal Student Complaint procedures can be found at http://uiu.edu/studentlife/complaint/index.html.

External Complaint Process
For cases that cannot be satisfactorily resolved internally using the above procedures, Upper Iowa University is required to provide both current and prospective students with contact information for filing complaints with its accrediting body and the appropriate state agency for handling complaints in a student’s resident state: http://uiu.edu/studentlife/complaint/state-complaint-agencies.pdf

Disability Services
UIU complies with the protections available to students with disabilities under Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA), which became effective January 26, 1992, and the Americans with Disabilities Act Amendments Act (ADAAA) of 2008.

Disability Services facilitates equal access to the programs and activities at UIU for students with documented physical, sensory, learning, or psychological disabilities.

It is the responsibility of the student to self-disclose his/her disability in order to receive services or to arrange appropriate accommodations. Documentation of a disability must be submitted in order to establish eligibility for services.

Complete guidelines on disability services available at Upper Iowa University can be found at http://uiu.edu/resources/disabilityservices or by contacting the Disability Services Coordinator at 563-425-5949.

AIDS
The official University AIDS policy can be found at http://www.uiu.edu/policies.

Informal Affirmative Action/Section 504/ Title IX Hearing Committee & Grievance Procedure
The official University Informal Affirmative Action/Section 504/ Title IX Hearing Committee & Grievance Procedure policy can be found at http://www.uiu.edu/policies.

Substance Abuse
The official University Substance Abuse policy can be found at http://www.uiu.edu/policies.

Sexual Abuse
The official University Sexual Abuse policy can be found at http://www.uiu.edu/policies.

Acceptable Use of Technology
The official University Acceptable Use of Technology policy can be found at http://www.uiu.edu/policies.

Weapons
The official University Weapons policy can be found at http://www.uiu.edu/policies.

Student Records/Release of Student Information
In compliance with the Family Education Rights and Privacy Act of 1974, Upper Iowa University has established and maintained a policy of access to and release of student record information. The policy statement is found in the Registrar’s Office and other offices where records are maintained and at http://www.uiu.edu/policies.

Online Postings
Students are reminded that pictures and information posted on the Internet are public information. Pictures or information from sources that describe or document behavior that is brought to the attention of the University, and which reasonably suggest that behavior violating University policy has taken place on campus or at a University-sponsored function off-campus, is subject to further investigation and verification by the University. Any University policy violations that are documented as a result of such an investigation may result in appropriate disciplinary action by the University. Additionally, students should be aware that employers also have access to these postings, and that it is increasingly a practice of employers to search the web for information on candidates for hire or employees being considered for promotion. Anything posted on a web site should be considered as (1) available to everyone and (2) available forever.

Directory Information
The University may, at its discretion, provide directory information in accordance with the provisions of the Privacy Act. The following information has been designated as public and may be disclosed by the University for any purpose: student name, home and email address, home and cellular telephone numbers; date and place of birth; dates of attendance; major field of study; academic classification and schedule of classes; previous institution(s) attended; awards; honors and degrees conferred, including dates.

While currently enrolled, you may withhold disclosure of directory information under the Privacy Act. You must notify your program office, in writing, within two weeks after the first day of classes. Requests for nondisclosure will be honored by the University for only one academic year; therefore, authorization to withhold directory information must be filed annually with the learning Center or the Center for Distance Education Program office.
Safety
In case of fire, your responsibility is to protect yourself by leaving the building in a calm, orderly manner. Find out where the nearest fire alarm box is, and learn the correct way to start the alarm. Also, study the instructions for the operation of nearby fire extinguishers.

Campus Security
Upper Iowa University is committed to creating an environment that promotes the intellectual, social, emotional, spiritual or ethical, and physical well-being of its community members. The commitment includes encouraging and reinforcing healthy, responsible living and respect for campus standards and regulations, and community laws. Academic Extension staff work with local law enforcement officials to provide a secure environment for learners. A campus security report is published and distributed annually. More information is available from your center coordinator.

Tobacco Free
“Pursuant to the law of the State of Iowa, Upper Iowa University is designated as a smoke free environment. As such, smoking shall be prohibited and a person shall not smoke in University buildings or on University grounds.” The Upper Iowa University Board of Trustees unanimously adopts a policy of no tobacco use in all University buildings. This policy is adopted for the health and safety of the University community. Revised and effective July 1, 2005.
Division of Business
Gerald Poppe, Assistant Professor of Public Administration and Master of Public Administration Program Chair, B.S. Business Administration, University of Wisconsin-River Falls, M.P.A. Northern Michigan University, Marquette, MI, Ph.D. University of Wisconsin-Milwaukee
