Weekly Content Area

The typical course structure for Upper Iowa University courses will consist of 8 weeks/units. At the beginning of each week/unit, there is an introduction area that when hovered over, it will turn blue.

Example: screenshot displays “Week 1”

Clicking on this area will reveal the default Multimedia/Text content item provided for instructors to introduce this Week's/Unit's content.

This panel is called the Visual Editor, where instructors can build lesson materials. Use the toolbar across the top to format text, add various types of links and explore the many other features.
