AA-111.2.B, Plan for Using Living Vertebrate Animals for Teaching or Research Supplemental Form

Plan Submitted By:_____

Supervising Faculty Member Contact Information:

Phone:_____ Email:_____

Department:_____

Primary Care Person Contact Information (if different from above):

Phone:_____ Email:_____

1. Please provide a brief description of the nature of the request:

2. Please describe why vertebrate animals must be used in teaching or research:

3. Please describe how the research will be performed in a way that is ethical and respectful of the animals involved in the study:

4. Please describe how procedures involving vertebrate animals will be designed to minimize stress, pain and suffering. If procedures involve euthanasia of vertebrate animals, please describe how they will be designed to produce an immediate death that minimizes pain and suffering:

5. If the animals will be transported, please describe how this will be conducted safely:

6. Please describe any other criteria pertinent to the health and welfare of the species:

7. Please describe any risk of infection, physical hazard, toxicity, or any other risk to researchers, other students, staff and faculty. If there are any anticipated risks, please explain what steps will be undertaken to manage that risk:

8. If the animals will be housed, please complete AA-111.2A Plan for Housing Living Vertebrate Animals Form.

Please submit this completed form to the Institutional Animal Care and Use Committee (IACUC@uiu.edu)
