

# How to auto-export Panopto Video Quiz scores to uiuLearn Gradebook

## Table of Contents

Introduction .....	1
Setting Up a Panopto Video Quiz for Automatic Grades Export .....	1
Additional Training Resources .....	3

## Introduction

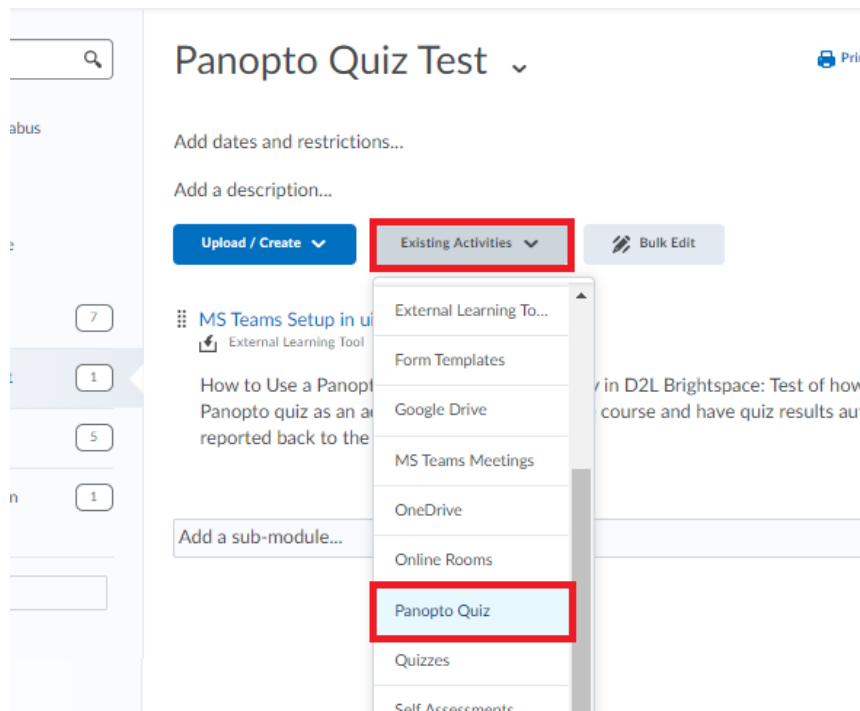

This training is primarily for instructors who:

1. already know how to create videos and set up Panopto video recordings for student viewing in their uiuLearn courses.\*
2. have already set up a quiz inside a Panopto video.\*\*

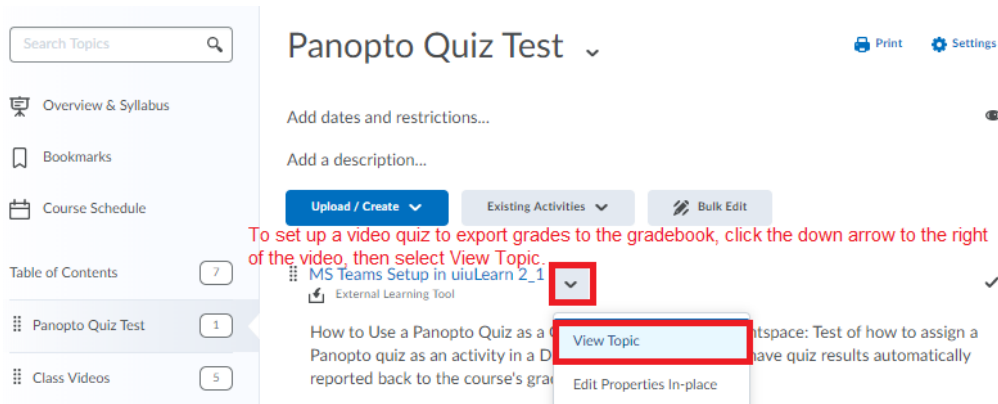

**See the Additional Training Resources section for more information.**

## Setting Up a Panopto Video Quiz for Automatic Grades Export

1. After you have created your quiz inside a Panopto video, create a link for a Panopto Quiz in the desired uiuLearn module. Click Existing Activities→Panopto Quiz.

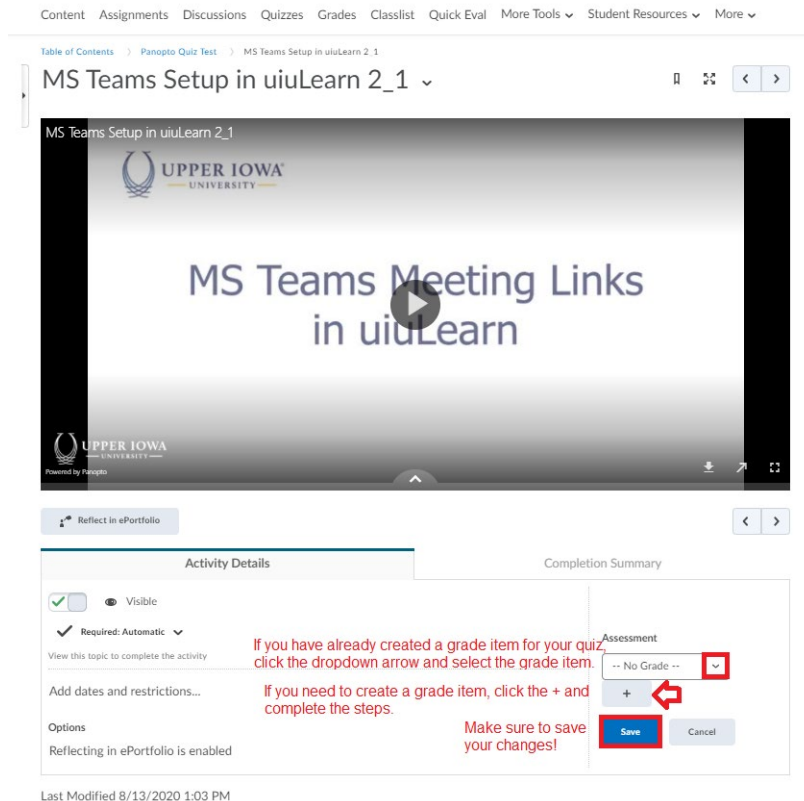

- When the link is created in the module, click the down arrow to the right of the video name → then select View Topic from the dropdown list.

- Scroll down to see the Assessment area in the lower right corner, then do one of the following:
  - If you have already created a Grade Item for the quiz, click the dropdown arrow to select the associated Grade Item.
  - If you want to create a new Grade Item, click the + sign and complete the Grade Item setup.

**NOTE: If you do not create a grade value, the score will automatically default to 100%**

- When finished with the above tasks, make sure to click the blue **Save** button to finish the process!!!!!!!!!!!!!!

## Additional Training Resources

\*For additional Panopto training, see the Panopto section on the [uiuLearn Faculty Tutorials](#) page, and more specific to this exercise, the [How to Use Panopto with Brightspace](#) video.

\*\* For information on how to create a Panopto Video quiz in a video you have already recorded, see this [Panopto training video](#) and follow Video Quiz instructions from [timestamp 46:09 to 51:09](#).
